NO. 215—SEVENTY-SECOND YEAR — VICTORIA, BRITISH COLUMBIA, TUESDAY, AUGUST 19, 1930

SIMON TELLS OF BRITAIN'S AID TO INDIA

Head of Famous Commission Warns That Patience Needed in Development

CALLS ON BRITISH TO CO-OPERATE IN WORK

Says Future of World Will Be Affected by Handling of Problem

(Canadian Press)

TORONTO, Aug. 18—"The growth in Indian minds of a belief in self-government is an achievement brought about by the power of an idea which Britain has spread throughout the world, an idea which is Britain's greatest contribution to the art of government," declared Rt. Hon. Sir John Simon, lawyer, statesman, and head of the famous Simon Commission, in a radio address delivered here tonight over a Canadian Pacific Railroad network.

An immense radio audience heard the situation in India elucidated by a man who, as head of the Indian Statutory Commission, had spent the last three years of his life in collecting and sifting evidence obtained by personal observation and from politicians, officials and a host of laymen. They heard the conclusions of a great student, a great lawyer and an analyst of human nature and human problems.

PATIENCE IS NEEDED

Sir John emphasized that it was the teachings of British political philosophy and the spread of English literature which had developed the nationalist movement in India. He called upon the British people to contribute their experience and constructive statesmanship to the progress of India toward the goal of self-government thet had been set before her, but he warned thet its attaining could only be the work of time and that patience and persistence were needed in a large degree.

"It is my deep conviction," said Sir John, "that the future of the world as a whole—the new world as well as the old—will be profoundly affected by the handling of this Asian problem aod that it is the duty of all of us to learn more about it and to study it with sympathy and understanding. It is the duty of Canadian people no less than the British people, for Canada has now entered world politics and

MORE BODIES DISCOVERED IN MINE STOPES

Rescue Workers Penetrate No. 1 Stope and Find Remains of Explosion Victims

MAY BE DAYS BEFORE DEAD CAN BE REMOVED

Identification Impossible, Report From Pithead States—Caving Impedes Work

(Special to The Colonist)

COALMONT, B.C., Aug. 18.—Ten bodies were located late tonight in the Blakeburn mine, near here, where last Wednesday forty-six men lost their lives. The rescue workers penetrated No. 1 stope, beyond the point where they were forced to abandon work on Friday by a fire in the workings. There the came across the remains of ten men, just as they fell when overcome by poisonous afterdamp following the explosion.

It was impossible to make identification, it was announced. Several days may elapse before the bodies can be removed, as there is a great deal of caving between the point on the main tunnel, which has been cleared of debris and the location of the remains of the miners.

The mine is filled with gas beyond the debris piled in the main tunnel. Mine Manager George Murray and several men were knocked out on Sunday by carbon monoxide that lingered in the tunnel beyond the reach of the emergency air system which had been installed. Frank

THE WEATHER

Victoria and Vicinity—Light to moderate south and west winds; fine and moderately warm.

Sun Rises: 5:13 a.m.
Sun Sets: 7:21 o'clock.

Low Tide: 6:05 a.m., 2.1 ft.
High Tide: 8.30 u.m., 0.1 ft.

Thousands Attend Official Opening Of Victoria Fair

Lieut.-Governor Presides at Formal Ceremony Supported by Minister of Agriculture and Mayor Anscomb—Exhibition Declared One of Best in History of Association

Efforts of Province in Agriculture

SURPASSING in attendance and in number of entries the most optimistic expectations of its officers and directors, the fifty-eighth annual exhibition of the British Columbia Agricultural Association was officially opened at the Willows at 2:30 o'clock yesterday afternoon, with His Honor Lieutenant-Governor R. R. Bruce presiding, assisted by Hon. William Atkinson, Minister of Agriculture for the province; Mayor Herbert Anscomb; members of the City Council and President W. H. Munsie and directors of the association.

This Fair Is Best, Hon. Wm. Atkinson Tells Officials

CONGRATULATING the British Columbia Agricultural Association and all those who have worked for the success of the undertaking, Hon. William Atkinson, Minister of Agriculture, yesterday afternoon described the Provincial Exhibition at the Willows as the best in the annals of the local association. The minister handed a cheque for $5,000 to W. H. Mearns, the secretary of the association, as the contribution of the province to the prize money to be distributed to winning exhibitors at the fair. Mr. Atkinson also commented on the great improvement in the Willows grounds.

The opening ceremonies took place promptly at 2:30 in the main building and as the distinguished party, which included Vice-Admiral V. H. S. Haggard, C.B., C.M.G., R.N., Captain Atwood and members of the vice-admiral's staff, and the Lieutenant-Governor, approached the stand, the strains of "O, Canada" opened the proceedings.

MINISTER OF AGRICULTURE

W. H. Munsie, president of the association, was chairman for the occasion and introduced the various speakers. Hon. William Atkinson was the first and in a brief address he referred to his first provincial exhibition in 1890 and enumerated some of the changes that had taken place since then. One of the things which impressed him most, he said, was the arrival last night of thirty-nine carloads of livestock, shipped and landed at the exhibition grounds on wheels. One of the most pleasing things in connection with the Minister's address was the presentation of a cheque for $5,000 to President Munsie as the Provincial Government's contribution to the association and the Fair.

Englishman Wins Race In Panama

By JULIAN F. HAAS
(Copyright, 1930, by The Chicago Daily News Foreign Service.)

BALBOA, Panama Canal Zone, Aug. 18.—William Strong, an American, and Hugh Craggs, an Englishman, employees of an American bank in Colon, were the centre of interest today, having conquered the Panama Canal in seventeen-foot leather-covered kayaks at a cost of 75c for lockage. Craggs paddled the forty-two-mile distance from the Atlantic to the Pacific side in 11 1-4 hours and Strong in 17 1-2 hours.

Craggs was first to appear at the Miraflores locks near here as dawn broke over the Pacific Sunday morning. The two men had started off from Colon Saturday afternoon, taking with them a jug of water, apples and sandwiches. They traversed the Gatun locks in chamber with a tanker and paddled on through the entire night.

Except for badly blistered hands, Strong and Craggs suffered no ill affects. The kayaks weighed forty-five pounds.

SIR G. PERLEY WILL ACT AS GOV'T LEADER

To Perform Prime Minister's Duties During Premier's Absence From Capital

HON. R. B. BENNETT TO VISIT CALGARY HOME

OTTAWA, Aug. 18.—Sir George Perley, minister without portfolio, and war-time Canadian High Commissioner in London, will be Acting Prime Minister in the absence of Premier R. B. Bennett from the capital. Announcement to this effect was made tonight by the Prime Minister prior to his departure for his Western home in Calgary. Premier Bennett had no further statement to make following a sitting of the Cabinet. In all probability the Prime Minister will be away for ten days. His visit to Calgary will be the first since the general election and his assumption of the office of Premier.

Council will meet again tomorrow, presided over by Sir George, whose order of precedence in the cabinet ranks next to Premier Bennett. Many of the remaining ministers will then depart for their constituencies for nomination day on August 25. As Sir George is minister without portfolio, the Dominion Election Act does not call for any re-election as in the case of ministers chosen with portfolios.

Forest Fires Near Indian Reserve Are Now Under Control

THE PAS, Man., Aug. 18.—Forest fires near the Cree Indian Reserve at Cedar Lake have been brought under control, it was reported to the local forestry branch today.

The fires swept through 3,000 acres of jack pine to the east of Cedar Lake, but the timber was not of high commercial value.

B.C. COAL BODY WILL BE NAMED WITHOUT DELAY

Hon. W. A. McKenzie Calls Inaugural Meeting for Wednesday Next

RESEARCH COMMITTEE IS TO BE SELECTED

Active steps by the Department of Mines to bring about the formation of a coal research committee to popularize and extend the use of British Columbia soft coal, will come to a focus this week with the calling of an inaugural meeting for Wednesday at the Legislative Buildings. Suggested representatives of the coal operators, miners, transportation and commercial circles will be named at this meeting in submissions by the various bodies to Hon. W. A. McKenzie, Minister of Mines.

Actual composition of the permanent body will be known soon after the organizations have submitted the names of their representatives, and no time will be lost in placing the research body on its feet for the important continuing mission it is designed to carry out.

The committee will not only investigate the promotion of more efficient means in British Columbia coal-producing fields, but will do all in its power to demonstrate fresh opportunities for the use of British Columbia coal that are now being neglected.

Formation of the permanent research body which, it is expected, will contain a number of technical

B.C. Police Officer Makes Remarkable Trip From Far North Post With Prisoner

Travels 310 Miles Overland in Journey That Lasted for Full Month

Prison records at Oakalla on Saturday showed a single line, freshly written, recording the receipt of a suspect, pending trial, from Fort Nelson on the fringe of the Northwest territory, the last of the great West that truly answers to the characterization of "wild and wooly." The receiving warden blotted the entry, checked in his new prisoner, and smiled up at Constable John Seymour Clark, ex-Grenadier Guardsman, who completed on that day a moon's full cycle bringing in his man.

Behind the unemotional routine of police duty lies a story outrivalling fiction itself. Constable Clark, whose beat is the Black River, skirting the boundary between British Columbia and the Northwest Territory, brought his prisoner through 110 miles of muskeg country, with nothing but the stars for his guide.

A PERILOUS JOURNEY

The first stage of the journey is an indication of the rest.

For a distance of over 300 miles the constable and his prisoner made their way from Fort Nelson to Fort St. John, on the Peace River. A

Opens Big Exhibition at Willows

—Photograph by Chapman.

HON. R. Randolph Bruce officiated yesterday in the opening ceremony at the Provincial Exhibition here. With him was Miss Margaret Mackenzie, seen on his right in the above picture. On her right is Vice-Admiral V. H. S. Haggard, C.B., C.M.G., R.N., and on the Governor's left is Mayor Anscomb. In the background are, from left to right, Captain Molson, M.C., Alderman Litchfield, Reeve Hayward and Secretary W. H. Mearns. Mrs. Hayward is directly behind the Governor and on her right is Miss Helen Fordham-Johnson. On the extreme left of the picture is A. M. D. Fairbairn, with Miss Betty Ward to his left.

Tahiti Goes Down In South Pacific; Passengers Saved

British Steamer Founders 460 Miles East of Rarotonga, Cook Islands—American Liner Ventura Takes Rescued Persons to Pago Pago, Samoa

PAGO PAGO, Tutuila, Aug. 19.—The Matson liner Ventura arrived here at 9:30 p.m. today with all passengers and crew of the steamship Tahiti which was abandoned and sank about 460 miles east of Rarotonga, Cook Islands. One hundred and sixty-five of the 315 persons rescued by the Ventura will disembark here, the remainder will continue to San Francisco. Those who will land here are the 149 members of the crew, including four stewardesses, and sixteen passengers, seven of them men, eight women, and one child.

TO WATERY GRAVE

WELLINGTON, N.Z., Aug. 18.—The British steamer Tahiti, which had been in distress three days, went down in the South Pacific today, after her 317 occupants, passengers and crew, were safely aboard the American steamer Ventura.

After leaving Wellington for San Francisco, due there August 29, the Tahiti lost its starboard propeller and sprang a leak about 460 miles east of Rarotonga, Cook Islands. While the wireless sent out calls for aid and ships in those waters raced to the position, the large vessel drifted about sixty miles with a strong current before other ships came up.

The Penybryn, a Norwegian freighter, was the first to reach the disabled vessel, but passengers were not evacuated to it because of the limited accommodations, while no immediate danger threatened.

BULKHEAD GIVES WAY

Today the Ventura, which had raced hundreds of miles to aid the Tahiti, arrived alongside at 5:30 a.m. (local time), just as a bulkhead gave way and the passengers began taking to lifeboats. The 175 passengers first were launched upon the heaving ocean, and although they were endangered in the heavy sea and by an approaching storm, they were picked up by the Ventura without accident.

Meanwhile, the ship was listing badly, but the officers and men remained aboard, pumping desperately

HOT WEATHER AGAIN HITS PRAIRIE CITIES

Continued High Temperatures With Occasional Local Showers Is Western Forecast

WINNIPEG, Aug. 18.—Hot weather laurels came back today to the brow of Medicine Hat, in Eastern Alberta, and Swift Current, on the plains of Southwest Saskatchewan. These two spots, almost all Summer in the lead of the sun-scorched settlements of the West, today recorded twin 86's. No other place in Canada was within three degrees as hot.

Except for a few local showers in Saskatchewan and Alberta, the weather remained fair in the West, with moderate temperatures. Brandon and Winnipeg proved that Manitoba is warm enough with high marks at 83 and 82. Northern Saskatchewan stayed hot, listing 82 at Battleford, while Regina and Moose Jaw, to the south, tallied 70 and 78. In Alberta, Calgary and Edmonton had 72's.

Fair weather, with much the same temperatures and a few showers, is the Western forecast.

PATROL PLANE SAVES PARTY; LONG SEARCH

Connecticut Adventurers Were Believed Lost When Canoeing in Ontario

SIOUX LOOKOUT, Ont., Aug. 18.—A soaring airplane of the Ontario Forestry Air Service has located Roger and Bruce Manternach, young Connecticut adventurers believed lost in the North country. A radiogram received here tonight stated that the sons of M. C. Manternach, Hartford, Conn., capitalist, are safe at Lake Kapikik, near Cat Lake, about 150 miles north of Sioux Lookout.

Just as a special search party was ready to set out over the 600-mile lake-and-river trail over which the boys and their guide were to travel, came the radio flash saying that the youngsters had taken a side-trip on their own initiative. The unexpected move threw them out of communication with their courier and gave rise to the belief that they had met with some mishap in the Ontario wilds.

Tonight Jack Langnickel, of Sioux Lookout and New York, through whom the rich Americans had arranged to canoe into the north country, announced he would proceed immediately to Lake Kipikik. He said that the boys and their guide, who are well supplied with food, would be brought back to town within two or three days.

It was Pilot Harvey, of the Ontario forest patrol service, who found the party, after a 250-mile air cruise. His radio information of their whereabouts indicated that they had journeyed about 450 miles by canoe, having covered about three-quarters of their projected trip. The canoe journey began at Ombabika, 150 miles east of Sioux Lookout on the Canadian National Railway.

Falling Tree Kills Three in Passing Auto

ASTORIA, Ore., Aug. 18.—With the death today of Harry Kaplan, Portland tailor, three of a family of four were wiped out by a heavy fire-scarred tree which fell on the family automobile while they were returning from a week-end at the beaches. Celia, eighteen, and Jack Kaplan, twenty-one, University of Oregon student, and daughter and son of Mr. Kaplan, were killed outright.

Mrs. Kaplan, surviving member of the family, was reported unchanged in a hospital here.

TWO AVIATORS CONCLUDE TEST OF ENDURANCE

Jackson and O'Brine Bring St. Louis Plane's Flight to Abrupt End

MORE THAN 647 HOURS ARE SPENT IN SKIES

ST. LOUIS, Aug. 18.—Dale Jackson and Forest O'Brine were back to earth today after completing the longest sustained flight in history. Conflicting versions of what brought the sturdy monoplane, Greater St. Louis, back to ground were given by the flyers and their manager.

The pilots said they landed because of a break in the crank-case of the motor.

William Pickens, manager of Jackson and O'Brine, said they landed because of lack of financial returns.

THEIR NEW RECORD

The Greater St. Louis touched ground at Lambert-St. Louis Field at 5.38 30 a.m. (Canadian standard time), yesterday after having spent 647 hours 28 minutes and 30 seconds cruising over the field. They lacked but 31 1-2 minutes of having been aloft twenty-seven days. Their new record exceeds that of John and Kenneth Hunter by 83 hours and 47 minutes, but lacks 352 hours 31 minutes and 30 seconds of the flyers' goal of 1,000 hours.

The end of the flight, the only come-back endurance flight on record, was abrupt and unexpected. Between 2 and 3 a.m. mechanics heard the first break in the smooth song of the motor.

"She's missing," they said.

MISSING KEEPS UP

From then on until dawn the

Pacific Coast City May Be Western Terminus of New British Dirigible Service

Air Ministry Says First Routes Will Be to Montreal and New York

LONDON, Aug. 18. — Britain's intention of eventually establishing a regular transatlantic air service between Cardington, Montreal and New York was mentioned today in an Air Ministry memorandum.

"When sufficient experience has been accumulated with the airships R-100 and R-101, it is intended to organize regular services between Cardington, Montreal and New York," said the memorandum.

The routes for the year-round service will vary according to season and the weather. The main ones will be the northern route via Cape Farewell, Greenland; the direct route, via Newfoundland, and the southerly route, via the Azores.

Another route to Winnipeg and Vancouver, via the Faroe Islands, Iceland and Greenland, is under consideration.

Reference is made to American schemes for floating "sea airdromes" across the Atlantic, but no comment is given.

FRONTIER PROVINCE SITUATION IS GRAVE

Advices Indicate Peshawar Virtually Surrounded by Hostile Tribesmen

LONDON, Aug. 18.—An official communique on the Indian situation during the week ending August 15, issued by the Viceroy's Government and made public here by the India Office, reports the situation in the Northwest frontier province is still grave.

Detachments of the main force of the Afridi tribesmen remain at varying strength in the Peshawar district. Numerous large bands lie concealed in the thickly wooded belt south and southwest of Peshawar and among the ravines to the east. British troops find it difficult to locate and punish them and they are a constant source of trouble.

"These gangs undoubtedly are receiving shelter and food and some active assistance from the villages in the Peshawar neighborhood," says the Government statement.

The main body of the Afridi in the vicinity of Khajura Plain has decreased in number, but other tribes to the north and south of Peshawar present potential dangers. The agitators employed by the Indian National Congress are making strenuous efforts to arouse the tribesmen of the Kohat district.

Has Majority of 328

KAMLOOPS, Aug. 18 — The official returns for the riding of Cariboo in the Dominion general election of July 28 is as follows: John A. Fraser, Conservative, 5,548; Harry G. Perry, Liberal, 5,220. Majority for Fraser, 328.

FINANCE MINISTER SECURES MONEY AT LOW RATE OF 3.85

Hon. W. C. Shelly Disposes of $2,500,000 One-Year Bonds at Most Favorable Rate Ever Secured in the History of British Columbia—Expects Improvement for Long Term Issues

London May Become Competitor With New York in the Dominion

HON. W. C. Shelly, Minister of Finance, has just completed sale of $2,500,000 of British Columbia one-year 3.50 per cent bonds at a rate of 3.85 per cent, a record that has never been equaled in the history of the Province. It is twenty-five points under the previous low rate for money established by the sale of 3 per cent inscribed stock in London forty-three years ago. At that time money was secured on a 4.10 basis.

Early this year the Minister of Finance succeeded in equalling the previous record of 4.10 for provincial money. At that time he maintained the advantage thet he had established last year when British Columbia succeeded in buying money cheaper than any other province in Canada, and at a lower rate then the Canadian National Railway financing, which was guaranteed by the Dominion of Canada.

EASTERN SYNDICATE

The sale which was confirmed yesterday of $2,500,000 debentures was made to a syndicate composed of the Canadian Bank of Commerce, Royal Bank of Canada, Dominion Securities, Wood, Gundy & Co., A. E. Ames & Co., and Diller & Read. It is repayable in either Montreal or New York funds.

Hon. Mr. Shelly has been in close touch with Eastern financial houses for some time, and from information obtained from those in close touch with market conditions, he concluded that the time was opportune to borrow on a short term issue. The money will be used for development work on roads, buildings and for general purposes.

The tendency of the market suggests, it was stated to the minister by financial authorities, that cheaper money for long term financing may be available in the Fall. There is also a strong possibility that London funds will be available for Canadian securities.

BENEFICAL COMPETITION

This competition of London with New York in buying in the Domin-

New Junior Flight Mark Established

LOS ANGELES, Aug. 18.—Eddie Schneider, eighteen-year-old Jersey City, N.J., boy, brought his plane to a landing at the Municipal Airport at 7:13 o'clock tonight to finish his transcontinental flight with possession of a new junior record of twenty-nine hours, forty-one minutes flying time.

The blue-eyed and slight youth left Westfield, N.J., Aug. 14, stopping frequently en route for fuel and flying only in daylight. He bettered by more than three hours the junior record established several months ago by Frank Goldsborough, of New York, since killed in an airplane accident on the Woodford Mountains in Vermont.

Sets New Record in B.C. Financing

HON. W. C. SHELLY

Minister of Finance, who has just floated a loan at the lowest rate in the history of the province.

DRASTIC ACTION TO HALT HOARDING OF SILVER COIN TAKEN

MOSCOW, U.S.S.R., Aug. 18.—Drastic action to end the recent hoarding of silver coin in Russia has been taken by the Soviet secret police. Four men, convicted of counter-revolutionary activities, were arrested and shot. They were a speculator, a cashier and two traders.

NATIONALISTS PREDICT END OF FIGHTING

See Peace in Civil War on Terms Dictated by Nanking Regime

CHIANG IS RUSHING AIRPLANES TO HONAN

NANKING, Aug. 18.—Sweeping claims of victory on battlefields of Northern China caused high Government circles today to predict the end of the civil war on terms dictated by the Nanking regime.

The optimistic forecast was made as the result of the recapture by Nationalists of Tsinan, capital of Shantung province, and reports indicating Northern rebel armies in Honan province were finding Government fire too hot to withstand.

Recapture of Tsinan from the rebels was regarded in Government circles as virtually re-establishing Nationalist authority in Shantung. Military reports from along the Haichow-Tungkwan Railway stated the rebel Kuominchun (People's Army) had begun a general withdrawal from Eastern Honan.

While specific reasons accounting for the alleged Kuominchun retreat were not given, it was generaly believed Gen. Feng Yu-Hsiang, rebel commander, had decided loss of Tsinan and consequent strengthening of the Nationalists in Shantung had made the rebels' position untenable in Central and Eastern Honan.

REBELS ARE RETREATING

Nationalist reports said Feng's rebels were retreating westward from Lanfeng, well-fortified city, which had been considered the key to the Kuominchun's positions in Eastern and Central Honan.

Government authorities said the rebels were not expected to make a stand eastward of Kaifeng, Honan capital, which was described as a difficult place to defend. The fall of Kaifeng into Nationalist hands was believed by Government officials to be imminent.

Nationalists now profess to believe the Kuominchun will retreat

STUDENTS URGE CHILEAN REVOLT

Manifesto Implores General Uprising Against Oictatorship of General Ibanez

VICTORY IS EXPECTEO

By JOHN W. WHITE
(Copyright, 1930, by The Chicago Daily News Foreign Service.)

LA PAZ, Bolivia, Aug. 18.—A fiery revolutionary manifesto, issued by the "revolutionary committee of students and workmen" and received here from Santiago, Chile, urges a student and labor uprising against the dictatorship of Gen. Carlce Ibanes, who asumed power three years ago.

"It is no longer possible," says the manifesto, "to remain indifferent when we see our country totally surrendered to the caprice and greed of an audacious, unscrupulous tyrant who is surrounded by a gang of undesirable exploiters. Never, even under the worst civil government, has the country ever descended to its present low moral level, completely at the mercy of a military regime.

"Students of Spain and Bolivia have set us examples. Let us follow them. These recent examples have shown that when students decide to fight, the strongest fortress of tyranny must fall. Therefore, we can count on victory as soon as we begin to fight.

"Wherever there are two men whose spirits are free let there be formed a revolutionary organization. And our slogan shall be: 'For a free Chile, for a law and for justice'."

NEW INDUSTRY MAY ARISE IN B.C. VINEYARDS

Grapes Produced as Commercial Success in Interior of Province

WASTAGE OF APPLES ALSO BEING STUOIEO

Production of grapes on the bench lands in the Interior of the Province may lead to a new industry in British Columbia, it is stated by J. G. Thomson, secretary of the Fruit Industry Commission. Parts of the Okanagan and Kelowna fruit belts are ideally suited for the raising of grapes, while as far north as Lillooet and in the Kootenay country their cultivation has been tried with success.

Planters who experimented with vineyards on a commercial scale last year sold the best of their product in the retail market on the Prairies, and had their surplus grapes snapped up by a Vancouver Island winery. This year, with additional acreage under cultivation for the purpose, the wineries are taking the surplus product in 150 ton lots, and the best of the crop finds a ready sale in the basket market.

Such encouraging results from the initial stages of the development leads Mr. Thompson to believe that a British Columbia grape wine industry will not be long in coming to the front, and will supply a new means of utilizing bench lands not required for other purposes.

CONSERVE APPLE WASTE

The Fruit Industry Commission has also gathered some interesting data on the wastage in the apple orchards of the province. Culls, now for the most part thrown away, can be turned into vinegar, leaving a pulp that is used in many sections south of the line for hog food. United States regulations call for 92 per ent of the vinegar manufactured to be from cider stock, as this is adjudged more wholesome.

The commission is endeavoring to eliminate wastage in the apple crop of the province, and vinegar produrtion may be one method in which this can be achieved, it is stated. High-grade culls are suitable for cider, leaving the low grade culls for vinegar making, and the resultant pulp, after the pressing out of their juices, for hog feed. Soma interesting results have already been reported along this line, it is stated.

QUEBEC PRELATE SERIOUSLY HURT IN AUTO SMASH

Cardinal Rouleau Injured When Car Overturned—Has Broken Shoulder

OOCTORS REPORT HIS CONOITION IMPROVEO

QUEBEC, Aug. 18. — Cardinal Rouleau, of Quebec, received serious injuries today when thrown from his automobile. An X-ray showed that his shoulder was broken.

Tonight the cardinal, who is sixty-five years of age, was reported as resting more comfortably, a slight improvement in his condition being noted.

At noon today the last rites of the church were administered although it was not felt that his eminence was in immediate danger.

CONDITION IMPROVED

This evening Dr. Charles Vezina felt that the improvement noted was sufficient to warrant hope of recovery.

In addition to the broken shoulder, the cardinal was cut and bruised when thrown from the car. As he had suffered from heart trouble recently, the prelate's condition was anxiously watched. However, with the abatement of the shock to his nervous system the patient became much more comfortable and tonight it was confidently hoped the crisis was passed.

WAS RETURNING TO CITY

The accident to the cardinal, who is primate of the Roman Catholic Church in Canada, occurred while he was driving back to Quebec after presiding over the Eucharistic Congress at Thetford Mines. A tire of the automobile in which he was traveling burst and the car overturned into a ditch. Cardinal Rouleau was thrown out and was picked up, unconscious, and rushed to Quebec by ambulance. It was believed the water and mud in the ditch saved his eminence from a fractured skull.

Prayers for his recovery were being said in the church of the province today.

CALCUTTA, Aug. 18.—Thirty-two jute mill workers were drowned and twenty-two others rescued by a launch, when a ferry boat in which they were crossing Hugli River, western arm of the Ganges, was caught in a strong tidal current and capsized.

TAHITI GOES DOWN IN SOUTH PACIFIC; PASSENGERS SAVEO

Continued from Page 1

to keep her afloat. Even they were forced to launch boats and go to the Ventura.

The mails aboard the Tahiti suffered somewhat, six bags of letters being lost during the transfer to the Ventura, and all newspapers and parcels went down. About fifty other bags were watersoaked but were saved.

STANDS BY ALL NIGHT

When the Tahiti called for assistance, ships over the South Seas speeded in her direction. The Penybryn was the first to arrive and, although the Tahiti's officers preferred to wait for the more commodious Ventura, the freighter stood by all night.

Reports from the Tahiti early yesterday said that all aboard had taken to lifeboats before the arrival of either the Penybryn or the Ventura, but later advices said an order to that effect had been countermanded. Wireless communication was difficult because of atmospheric interference.

In a certain part of London there had been a motor wreck. One of the drivers climbed out in a fit of temper and strode to a man standing on the sidewalk. Thinking him the other driver, he roared:

"Where's your tail-light?"

The innocent bystander looked up at him. "Wot do you think I am," he said, "a bloomin' lightnin' bug?"

B.C. COAL BOOY WILL BE NAMED WITHOUT DELAY

Continued from Page 1

experts on all phases of the investigation, was decided upon at the recent conference called by the Minister of Mines, and which drew unanimous representation from the coal operators of the province. The meeting on Wednesday will be held for the express purpose of advancing the selection of the actual committee, so that the new body may get down to work at the earliest possible moment.

Representatives of the coal producers, transcontinental railroad systems and boards of trade are expected to be on hand for the gathering this week, so that no delay may occur in the selection of those who are to form part of the permanent research group.

FIRE SITUATION IS GENERALLY HOPEFUL

VANCOUVER, Aug. 18.—No fresh forest fires were reported today, and the situation generally is very hopeful, it is stated.

Edward Wamsley, Dominion timber agent, was at Chilliwack today, where he paid off about eighty men who had been engaged backfiring. This leaves thirty men on patrol there.

The outbreak east of Mission City is now well in hand, he said, as a result of backfiring Sunday night, and conditions are regarded as satisfactory.

YOUNG PILOT KILLEO WHEN PLANE CRASHES

WINNIPEG, Aug. 18.—Otto Barel, young Englishman visiting in Winnipeg, was killed early tonight when the Moth plane in which he was flying, crashed on the outskirts of the city. Barel, who had been in Winnipeg for four months, has a brother in Montreal.

B.C. POLICE OFFICER MAKES REMARKABLE TRIP WITH PRISONER

Continued from Page 1

real frontier automobile conveyed them from there to Pouce Coupe; to Grand Prairie; thence by rail to Edmonton, and so to the coast.

On foot through wild muskeg lands, down raging rapids in a small canoe, sleeping under the stars, within sight and hearing of wolves and worse, prisoner and guard made their way south to the first road link with civilization.

After delivering his prisoner safely Constable Clark reported in at headquarters of the Provincial Police here yesterday, and is now in Vancouver awaiting instructions, before setting out on the return journey back to his post at Fort Nelson, a trading post with six resident families, and where mail is delivered once a year, in good years. There his wife and a newly born child await him.

Early this Spring, headquarters files show, Constable Clark risked his life in a vain effort to save a fellow traveler who was with him in a power canoe on a torrential part of the Liard River. The current whipped the canoe against a snag, damaged the propeller and upset the craft.

MADE RAFT WITH SHIRT

T. Beeton, a pioneer settler at Fort Nelson, went down in the whirling waters, and Clark dived repeatedly in a vain effort to save his friend. Baffled in this, the officer seized a small piece of drift log and paddled it to a small island in the raging stream. There he tore his shirt into ribbons and bound together the three scattered bits of driftwood the island held, setting out on this frail raft, which he managed to work over to one bank of the river.

Back again at his post, Constable Clarke made a report of the fatality, but omitted his own brave part in the episode, which came out subsequently in talk with brother officers in the service.

Typical of the outposts of the British Columbia police in the Far North, the Fort Nelson station has wireless receiving gear, but no transmitter. Messages are often broadcast to these far-lying stations, and once a year mail works its way through by Edmonton and down the Athabasca in aroundabout circle, completed by trappers and nomad Indians guides. The Fort Nelson post, hundreds of miles from Victoria, is the farthest from civilization.

It will be October before Constable Clark reports to his next headquarters, that of his wife and family at the lonely outpost upon the Nelson River, and this time next year a laconic line in his yearly report will be all that will refer to the amazing trip out with his prisoner.

On service with the Grenadier Guards in August, 1914, through Mons and the historic engagements of the early days of the Great War, Constable Clark is one of many ex-service men in the force that patrols an area greater than many whole countries in Europe, the British Columbia Provincial Police.

TWO AVIATORS CONCLUDE TEST OF ENOURANCE

Continued from Page 1

missing kept up. At 6:15 a.m. the flyers radioed that the crank-case was broken, two cylinders were missing and the oil was spraying over the ship. Before a special police detail could arrive the plane began sweeping in wide circles and at 8:30:30 the record-breaking craft touched ground in a perfect three-point landing.

Only about 300 persons witnessed the landing. In July 1929, when O'Brine and Jackson landed with a new record of 420 hours, thousands were at the field. A year ago the flyers were borne like conquering heroes through streets lined with cheering admirers. Yesterday there was only an occasional cheer.

THE FINANCIAL END

Cost of the flight, exclusive of investment in plane and equipment, was about $1,000 a week. The flyers earned $8,500 and have contracts to appear at state fairs which will net them $30,500, making a total of $39,000 to be divided between them, with a percentage for Pickens. In addition, they have prospects for getting more contracts.

Upon landing O'Brine said his legs were a bit "wobbly." Jackson said he was "not very tired."

"There's nothing to it," he said. "We could do the same thing over again."

MORE BOOIES OISCOVEREO IN MINE STOPES

Continued from Page 1

Bond, a fireboss, and W. Salimpa, a miner, were with Murray and all three were affected by the after-damp.

INHALED OXYGEN

They staggered away from the face of broken coal and dirt, and were hurried out of the pit by other workers.

It was necessary to use inhalators on the men, pumping oxygen into their lungs.

Murry, who, despite a weakened condition as a result of a recent operation, has been averaging twenty hours' work daily since the explosion, was with difficulty restrained from plunging back into the mine as soon as had come to under the treatment.

"I'm all right," he insisted as the doctor tried to hold him down. "I'm all right. I've got work to do. Let me up. I've got to get back to those poor fellows down there."

REFUSED TO QUIT

He refused point blank to go to the hospital. He was walked up and down in front of the mine mouth by two men to keep him awake. Sleep is fatal in the treatment of men overcome by after-damp. While he walked unsteadily with the assistance of two of the first aid workers, he continued to give orders for the conduct of the operations underground.

James Dickson, Chief Inspector of Mines, is fearful that there may be other fires underground besides that known to be burning in the old workings of number five. The greatest care is being exercised in blocking off this blaze, while explorations are being cautiously made in other parts of the colliery to determine whether or not there are other outbreaks.

The funerals of C. A. Smith and Harry Edwards were held this afternoon at Princeton, while that of Albert Cole took place on Sunday.

SIMON TELLS OF BRITAIN'S AIO TO INOIA

Continued from Page 1

the future of India is going to affect the future of the world."

COMPLEXITY OF INDIA

The immense complexity of the Indian sub-continent was stressed by the noted statesman. He pointed to the great area and population of the country, the character of its people, the bulk of them illiterate and tilling the soil in and around 500,000 village; the many languages, races and religions.

"It is dangerous to simplify too much about India," warned Sir John. "You must think of India's intellectual Brahmins, of her illiterate millions, of her backward women, of purdah and early marriage, of maternal mortality and of the lack of hygiene. India is a confused complication of questions which need more than a vague sympathy for a solution. It is a collection of problems which call for hard study and clear thinking, and the best that brains and heart can offer."

FUTURE CONSTITUTION

Sir John stressed that the future constitution of India could not be a mere imitation, at second hand, of a system prevailing in different circumstances elsewhere. It must take a farm suited to the immensity and variety of India, and it must be flexible and allow for the spirit of co-operation and advancement.

The British administration of India has given to the great Eastern country a faith in the impartiality of justice, the peace needed for the furtherance of progress and unity, and the valuable services of an unswayed referee to compose the claims and avert the clash of races, he concluded.

In a recent week 878,671 British National Savings certificates were sold.

MONTREAL COMMISSION

No appointment of the personnel of the Montreal Harbor Commission has yet been made. For nearly three weeks, J. H. Rainville, of Montreal, has been mentioned as probable chairman of that body; and doubtless selections will be officially made shortly to replace the board which has resigned. Senator W. L. McDougald was chairman of the former body.

There is no official comment available on the reported impression of disappointment in England that restriction of immigration by Canada might have been deferred until the Imperial Conference. But in political circles there is the feeling that the step taken a few days ago to 'restrict immigration from the cities of Europe is in keeping with other action by the administration to alleviate unemployment in this country.

NATIONAL UNDERTAKINGS

National undertakings to relieve unemployment immediately, especially in the Fall and coming Winter, coupled with tariff action that may be deemed fit to give Canadians a "fair and equal opportunity" in competition at the coming special session of Parliament, involving the expenditure of money for these national works. The Imperial Conference will not convene until September 30 and will not likely conclude before the middle of October.

Hon. H. H. Stevens, Minister of Trade and Commerce, is en route to British Columbia, where opposition to his election is threatened in Kootenay East. Hon. Robert Weir, Minister of Agriculture, has left for Weldon, Sask., and Hon. T. G. Murphy, Minister of Interior, is at home at Neepawa, Man.

Much thought is being given by the members of the cabinet to unemployment, and Hon. Gideon Robertson, Minister of Labor, is expected to make a statement on his return from Toronto tomorrow as to the progress made in obtaining a survey of the situation throughout Canada.

NATIONALISTS PREDICT END OF FIGHTING

Continued from Page 1

into the mountains of Southern Shansi province through the passes which for centuries have afforded avenues of escape for armies defeated on the plains of Honan.

The Government officials predicted the rebels soon would be pushed well northward of the Yellow River, enabling Nanking to dictate peace terms.

SEIZURE OF ARMAMENTS

Although the Nationalist capture of Tsinan resulted in taking of but few rebel prisoners, Nanking leaders asserted their forces had seized 30,000 rifles, 130 field guns and three airplanes. Fresh from this victory, President Chiang Kai-Shek was said to be rushing planes to Honan for an offensive against the Kuominchun.

Communist disorders continued spasmodically in the Yangtze Valley, with Reds pillaging the smaller places. However, their apparent disinclination to attack the larger cities other than Changsha has enabled the Government to concentrate small bodies of troops in the major cities. This in turn has caused Nationalists to circulate reports the Communist menace had been controlled.

Nova Scotia Now Has Liquor Control Plan

HALIFAX, Aug. 18.—Sale of liquor under Government control went into effect today when four official stores opened their doors. This left Prince Edward Island the only province in the Dominion to remain without some form of Government control for beverage purposes.

Inauguration of the new system in Halifax was uneventful. Sale of spirits is by a permit which costs the customer one dollar, while beer and wine may be purchased without a permit but only in the Government stores.

Mrs. Jones: "You are looking fine this morning. Have you had any good news?"

Mrs. Smith: "Just wonderful. My husband has just had a nervous breakdown and we're going to Florida for the Winter!"

Bahia, Brazil, now is the only source of black diamonds in the world.

FINANCE MINISTER SECURES MONEY AT LOW RATE OF 3.85

Continued from Page 1

ion is expected to have a marked beneficial effect on public issues.

The minister is waiting to take advantage of any favorable reactions that may develop in the Fall before placing long term bonds on the market. In the meantime he sold the short term issue at the remarkably low rate of 3.85, and thereby established a new record in financing.

The price just obtained, it is claimed, again demonstrates the favor with which the financiers of the East regard the manner in which the affairs of British Columbia are being conducted, as well as their confidence in its immediate future.

Ever since taking office the Minister of Finance has been able to obtain money for the province at advantageous rates. It was thought when he sold securities this Spring at 4.10, equalling the rate for the inscribed stock of forty-three years ago, that a new high mark had been set. His latest sale, however, is twenty-five points lower.

SERIOUS SITUATION

Hon. W. C. Shelly was faced with a serious situation when he took office. It was found that millions of dollars of necessary financing had been delayed, despite urgent warnings to his predecessor from banks and financial institutions that the market would not hold its favorable aspect for provincial borrowings. Bonds that should have been sold in the Spring and Summer of 1928 were allowed to wait.

The new minister surveyed the situation. He found that large issues were in contemplation by other provinces, the railways and Eastern municipalities. Instead of calling for tenders he sold through a fiscal agency. This aroused the criticism of political opponents, but it resulted in British Columbia obtaining money cheaper than any other province, and was proved to have been justified by the results.

OBTAINED ADVANTAGE

In further financing last year and this year he obtained an advantage for British Columbia on every sale, culminating in the transaction just completed.

In addition to the accummulated financing that had to be done by the Minister of Finance on taking office that should have been undertaken by the former Government, he found that trust fund investments had not been made in the manner in which they should have been conducted. It was necessary to obtain legislative authority to borrow for the setting up of these funds.

Investments are now being made for trust funds as required. Securities amounting to $2,000,000 have been purchased on account of the civil service superannuation fund, while the school teachers' superannuation funds have all been invested to advantage.

Sinking fund investments have been maintained in full by Hon. W. C. Shelly, and the sinking or repayment funds now total approximately $23,000,000. They are $1,280,000 in excess of requirements. This is a record that compares favorably with any similar funds in any part of the Dominion, or elsewhere.

VERY DISTRESSING

Josiah Brush, a traveling man,
Who sailed the briny main,
Was "Mr. Brush" in England,
And "Senor Brush" in Spain;
The Frenchman called him "Monsieur Brush,"
But the Germans were his bane.
For they always called him "Herr Brush,"
Which filled his soul with pain.

Glittering Models Of Factory's Best Attract Motorists

Artistic Decoration and arrangement of Many Fine Cars at Automobile Show at Provincial Exhibition Makes Wonderfully Interesting Display —Luxurious Appointments

Spectators Pass in Endless Stream

ON entering the Automobile Building at the Provincial Exhibition, opened yesterday, the visitor automatically pauses for a moment at the entrance, the better to take in the long vista of glittering models, the really artistically arranged floral decorations and the overhead canopy of varying flags and banners, droped from beam to beam of the high ceiling. Above the conatant murmur and passage to and fro, as the crowd streams endlessly through the building, the strains of music harmonize with the atmosphere of festive gala.

Over sixty of the latest models are displayed by the various dealers of Victoria, showing the latest products of the 1930 season, together with some advanced examples of the vogue of 1931. Co-operation has been shown in the decoration of the building, for each scheme has been harmonized with the neighboring one, making a pleasing effect.

First to be reached when entering the door is the exhibit of the Jameson Motors Ltd., including five models in all: the Studebaker six-cylinder regular sedan, the Studebaker six-cylinder Regal sedan, two models of the Commander eight-cylinder and one of the new series President State Eight sedan models. A special feature found here is that of "free wheeling," an exclusive Studebaker attribute, which has created much favorable comment in motoring circles.

A STRIPPED CHASSIS

Six models of the new Ford are shown in the exhibit by the National Motor Co., Ltd., with a remarkable addition in the shape of a stripped chassis, all working parts showing through the cut housing. This enables the laymen to gain a better idea of the working parts of the car than any other method.

Beside the popular models of roadster, coach, coupe, sedan and town sedan, comes the de luxe phaeton, with lines and finish of more than usual beauty. Extra equipment, luggage carrier in rear and real leather upholstery is included.

In the space reserved by Thomas Plimley Ltd. stands a Packard de luxe sedan of the 740 model, close beside the special beauty of the Chrysler Eight, the latest product of the line. This, a special eight Royal sedan, has the four-speed multiple transmission and L-head motor, embodying long, rakish lines with wonderful finish. Here, also, are the Chrysler Six and the Chrysler Seventy, together with the new Chrysler-Plymouth, in connection with which the corporation is staging a novel essay competition.

The showing of McLaughlin-Buick and Marquette, put on by H. A. Davie Ltd., includes four cars in all, one Marquette roadster, claiming more than usual attention through beauty of lines and design, and three of the new eight-cylinder productions of McLaughlin-Buick. One is the 8-67 model sedan which reacted so favorably to a local test just recently, and the remainder are in the 8-57 type, slightly smaller, but retaining the same beauty and purity of line, together with revolutionary performance.

With the new Graham models, Eve Bros. Ltd., have made splendid use of the space at their disposal. The six-cylinder, four-door sedan, the town sedan and the eight-cylinder Graham Eight sedan are shown in different coloring, and each embodies the special feature of laminated plate-glass. This insures absolute safety from the hazard of flying splintered fragments, for the glass may be shivered in a thousand pieces, yet never fly apart.

A COMPLETE LINE

The Begg Motor Co., Ltd., with ten cars shown, have displayed a complete line of Chevrolets, including the pheeton, sport roadster, coach and sedan, all in the six-cylinder type. In addition to these they have shown a number of the latest Nash cars. Prominent here is the Nash Royal sedan, with the twin ignition. This is duplicated in the coupe, while the single six roadster attracts much attention. The straight eight sedan, filling every wish of comfort and beauty, finishes the list of a very complete exhibit.

Next comes the Atkinson Motor Co., Ltd., with an attractive display of two Durants, the latest four-cylinder sports roadster and the six-cylinder standard sedan. The sport roadster is a member of the 4-07 series, which more than upholds the Durant reputation for appearance and durable performance.

The Motor House (Victoria) Ltd. shows five models, which include the aristocratic Pierce-Arrow de luxe sedan and a good representation of De Soto with a convertible coupe; a standard sedan of the De Soto finer six series, a De Soto straight eight de luxe coupe and a standard sedan of the same pattern. This latter model has more than won a title to fame by bringing eight-cylinder performance into the reach of many.

With an exhibit of three cars, the Hupmobile Sales and Service Co., Ltd., shows splendid examples of the new Century series in Hupmobile. These include a Century six-cylinder standard sedan and both a coupe and sedan in the popular Century Eight. Many new features have been added to this famous machine, with ninety horse-power, stamina and beauty at the driver's disposal.

ATTRACTIVE DISPLAY

The Confederation Motor Co., Ltd., has an attractive display of a 8-95 Auburn sedan, together with the Cord front-wheel drive, in a cabriolet. It has long been a strict policy of the Auburn Corporation to make no mid-season changes in design, safeguarding the purchaser against finding himself in possession of a predated model. Consequently, many are already familiar with this attractive model and much interest is centred on the Cord, the car which has made a revolutionary step in the principle of motor engineering. The motive power of this new car lies in the front wheels, making possible a lower design of body and a traction which pulls rather than pushes the load.

The A. E. Humphries Motors Ltd. show five models in all, four of the Dodge Bros.' latest products and one Baby Austin coupe, the car which, with its new arrival in Victoria, has made such a tremendous stir. Despite its bantam size, it has a surprising amount of room, adding comfort to its list of advantages. Prominent among the display of Dodge six and eight-cylinder models, stands the Dodge six-cylinder de luxe design, striking beauty and luxury dominant in every line.

A. W. Carter Ltd. have made an attractive display of five of the Hudson-Essex line. These include the Hudson Eight coupe, a sedan of the same model, and three of the Essex Super Six models, a coupe, a sedan and a phaeton sedan. The latter is worthy of special mention with its beautiful lines and many special features.

The McRae-Meldrum Motors Ltd. have made the most of their floor space with three models of the Pontiac, namely, a coupe, a coach and a sedan, all in the six-cylinder models. The luxuriously finished bodies, with the duco in smart colors, attract the eye at once to this smart and popular car.

Best Single Rose in Show

THE loveliest rose gardens in Ontario yielded their choicest blossoms for the rose show held recently at the Royal York Hotel, Toronto. Illustration shows bowl of single roses from which was chosen Dainty Bess, the best single rose in the show. It was exhibited by Aubrey D. Hewards, of Oakville, Ont.

ATTACK MADE ON TOURISTS ON FRONTIER

Evidences of Continuance of Franco-Italian Friction Come to Light

MANY ITALIANS TRY TO FLEE FROM ITALY

French Government Decides to Make Bizerte a First-Class Naval Base

By PAUL SCOTT MOWRER

(Copyright, 1930, by The Chicago Daily News Foreign Service.)

PARIS, Aug. 18.—Evidences of a continuance of the Franco-Italian tension come to light almost daily.

A party of French tourists, men and women, in the mountains on the Franco-Italian frontier north of Nice, while climbing up for luncheon at a little hotel Saturday, were fired on by Italian frontier guards. After verification of their passports, they were allowed to proceed.

RESCUE IS EFFECTED

At the same time Swiss dispatches relate a rescue by Swiss tourists with ropes of two Italian men and one women carrying an eight-month-old baby, trying to escape out of Italy over the glacier of Zwillines Pass, at an altitude of 11,000 feet.

The Italian press is cited as protesting against the diffusion, by a British official radio broadcast, of an account of how Italian frontier guards fired on a party of St. Bernard monks who went out to rescue other Italian refugees in the upper mountains.

Anti-Fascist refugees in France say that the continued efforts of certain Italians to escape from Italy at the peril of their lives from glaciers and rifle fire is due less to hatred for Fascism than to the increasing economic difficulties to which part of the population is alleged to be subjected.

PRESS POLEMICS

Press polemics add their poison to the tension. Excerpts from an alleged article in the Fascist newspaper Il Tevere in Rome are republished here. This article depicts Paris as a city subsisting entirely on depravation and public immoralities, and boasts that never in history have the French really beaten the Italians in warfare.

Over the week-end the French Government announced its decision to make Bizerte, on the Tunisian coast opposite Sicily, a first-class naval base with a command of all the French North African waters.

Captain William Redmond, son of the late Irish leader, was recently indicted for the manslaughter of Thomas Murphy, a young laborer, by knocking him down with an automobile, but the jury in the trial at Dublin disagreed.

VICTORIA FORMS BRANCH OF E.S.U.

Lieut.-Governor and Dean Quainton Honorary President and President

LONDON DELEGATE HERE

A Victoria branch of the English-Speaking Union was organized yesterday afternoon as the result of a meeting held at the Oak Bay Hotel, following a tea given by Mr. and Mrs. T. A. Rickard, of Berkeley, Cal., in honor of Miss Julie Heyneman, of San Francisco, who was here as a delegate from the London headquarters office at Dartmouth House.

His Honor the Lieutenant-Governor has consented to act as honorary president of the newly organized branch, and Very Rev. Dean Quainton was chosen temporary chairman, with Miss Jean Ross, 63 Gorge Road, as temporary honorary secretary. Among those who joined yesterday were Brig.-Gen. J. O. Austin, Mr. C. P. Hill, Mr. Albert Griffith, Mrs. Arthur Cree, Mrs. E. Crow Baker, Mrs. A. Stuert Robertson, Mrs. Fitzherbert Bullen, Mr. H. H. D. Colley, Mrs. Thorpe-Doubble, Mrs. Mary J. Lang and others.

Mr. Rickard, who introduced Miss Heyneman, very briefly referred to his own affiliations with the society, and mentioned that Lord Grey of Fallodon is president of the British society and Mr. John W. Davis, former Ambassador at St. James, of the American. Miss Heyneman explained the history of the organization and its objects, recalling that Evelyn Wrench and a few others had founded the society in London. She referred to her own trip across Canada in September, 1914, when she was on her way to England to offer her services. The splendid spirit which she had then seen among the volunteers pouring in from the remote hinterlands of the Empire had inspired an admiration for the British, which had grown as the years went on, so that she was among the first to join the society when it was formed, realizing what a power for world peace lay in the peace nucleus of English-speaking peoples with kinship of ideals as well as of speech. More practical reasons for joining the union were also mentioned.

Dean Quainton spoke very briefly, endorsing the objects of the society.

About sixty guests were present. Tea was served in the drawing-room, which was profusely decorated with flowers.

Anyone interested in the society and wishing to join is invited to communicate with the secretary, Miss Jean Ross, 63 Gorge Road. The first meeting of the local committee will take place shortly after the return of Dean Quainton.

CONFUSION EXISTED OVER CAR NUMBER IN POLICE COURT CASE

During the proceedings in the Esquimalt Police Court yesterday afternoon there arose decided confusion between witnesses as to the number of a car, the driver of which was charged with failing to stop at the sign where Sturdee Street joins the Esquimalt Road.

Two city policemen, Constables Stephenson and Belcher, who were driving along Esquimalt Road, testified positively that William Berera, a taxi driver, failed to stop at the point, and had no doubt as to the number of the car he was driving, giving it as 9606.

The driver, accused, did not dispute that he was there, but he said that he stopped at the sign, and, moreover, he was positive that the car he was driving was 9607. The latter car is a Paige, while the car numbered 9606 is a Graham-Paige. They are both owned by the same taxi company, and Berera drives them both.

The magistrate accepted the evidence of the two policemen that a stop was not made, and fined the accused $5.

Arrives in London

LONDON, Aug. 18.—Gen. J. B. B. Hertzog, Prime Minister of South Africa, arrived in London today to attend the meetings of the Imperial Conference. He was accompanied by the Finance Minister of the Union, Hon. N. C. Havenga.

SUSPENDED OFFICIAL GETS YEAR IN JAIL

C. C. Wilson, Sentenced by Magistrate in Vancouver on Two Charges of Forgery

VANCOUVER, Aug. 18.—C. C. Wilson, suspended purchasing agent of the Vancouver School Board, was sentenced to one year with hard labor at Oakalla by Magistrate H. C. Shaw in police court this morning.

He was convicted on two charges of dealing in a forged document in connection with the purchase of coke delivered to his own home, but paid for by the city because of alterations made in Vancouver Gas Company, Limited, invoices.

The forgeries were discovered by special auditors investigating the school board books.

Evidence given before the select civic committee showed that Wilson had ordered coke under an agreement whereby school board employees enjoyed wholesale rates on such purchases.

SHOWS LITTLE EMOTION

Standing before the magistrate for sentence, Wilson showed little emotion.

Wilson's counsel, J. Ardrian Fletcher, called two character witnesses before the court passed sentence. They were Col. W. G. Wolfe-Morton, secretary-business manager of the school board, and Fred Smith, president of Smith, Davidson & Wright. They did not testify, however, because Magistrate Shaw informed Mr. Fletcher that he had no reason to believe that Wilson was not a man of previous good character.

Pleading for his client before the magistrate passed sentence, Mr. Fletcher charged that Wilson was being "pilloried" by the city administration to satisfy the public.

"TO SATISFY PUBLIC"

"They want to pillory this man as a common forger to satisfy the public of Vancouver," defence counsel declared.

"They want to show that the present administration is doing its best to keep the public confidence."

Mr. Fletcher declared the value of the coke was only $25 and added that Wilson was standing in the dock "because the city is out to find a victim for its own system." He said that while this could not affect the court's sentence, he considered it only just to bring it out.

The prosecution contended that while the amount involved was trivial, it was the act, itself which should be considered.

Mr. Orr said that he was unable to consent to a suspended sentence, and would leave the penalty in the hands of the court.

CAREFUL CONSIDERATION

"I've thought this case over very carefully," said Magistrate Shaw. "I don't see that I can do anything but what I'm going to do.

"I must not forget that here we have two crimes in one. There is dealing in a forged document, a crime considered serious, and also a case of an employee stealing from his employer."

The court then passed sentence and Wilson was led back to the cell he has occupied since his conviction.

The first marriage service conducted in the Manx language for more than 100 years took place recently at Kirk Braddan, near Douglas, Isle of Man, when J. J. Kneen, president of the Manx Antiquarian Society, was married to Miss Katherine Alice Bridson.

Feel your Appetite revive and freshen

. . . . "THERE'S A REASON"

WHEN your appetite becomes "thick" these warm Summer days—revive it with Grape-Nuts. For these golden-brown morsels appeal directly and instantly to the tired appetite. Some say it's the nut-like crispness. Some say it's the delicate tinge of pure malt sugar, flavoring the heartiness of whole-wheat and barley. See for yourself. Try Grape-Nuts at breakfast tomorrow!

Grape-Nuts provides children's bodies with vitally needed proper nourishment

Grape-Nuts makes delicious salads, desserts, and other recipes

Grape-Nuts

Buy it today for breakfast tomorrow

Grape-Nuts, served with milk or cream, makes the small breakfast a safe one—well-balanced, nourishing.

THE BLAKEBURN DISASTER

Hope has been abandoned that any of the forty-two miners entombed in No. 15 level of the Blakeburn Mine can be saved. Long sustained efforts have been made by their heroic comrades, working in shifts, to reach the imprisoned miners. Possibly success might have been won if fire had not broken out and halted the rescue work. It delayed the relief operations to such an extent, and as well the rescuers had to contend with after damp, gas and the likelihood of earth falls so that, although everything conceivably possible was done, the end so earnestly sought could not be achieved.

The disaster is one of the most serious of its kind that has ever been sustained in the collieries of this Province. There have been other explosions that have accounted for the loss of life, but that at the Blakeburn Mine has features of a distressing character. It is a matter of satisfaction that all that was humanly possible should have been done in organizing and putting into effect the work of rescue. For this Mr. W. A. McKenzie, the Provincial Minister of Mines, deserves praise. He set every possible wheel of activity in motion and proceeded himself to the scene of the tragedy. On arrival there he led the first group of workers into No. 4 tunnel, after the gas blast which had stopped their earlier efforts. His example must have been an inspiration to the rescue parties. He showed that he believed that the Government, as well as having a responsibility as such for the protection of life and property, should set an example in a personal way when efforts were imperative and human life was at stake. The Minister, by his executive direction and the close co-operation between his officials and the mine management, as well as his personal efforts, did all that was expected from a department which always has had the welfare of the miners at heart and has done so much to render their occupation safer.

It is hoped that certain lessons may be learned from the Blakeburn disaster that will lead to better precautions in the future for the protection of life. Mining probably will always remain a hazardous occupation. It has features which the ingenuity of man, no matter how applied, has been unable to overcome. Whatever precautions are adopted, and they are of an exhaustive kind in these latter days, accidents continue to occur. In the latest tragedy, as in so many others, the comrades of those who have lost their lives have shown heroism and persistency in their repeated attempts to render success. Mining breeds a fine type of courage. In the Blakeburn tragedy the deepest sympathy of all our people will go out to the dependants of those who have lost their lives.

PUBLIC AND EXHIBITION

Victoria's annual Provincial Exhibition is, very rightly, attracting a larger share of attention with each succeeding year. The last few years have been especially happy ones in that they have meant a substantial increase in the quality of the agricultural exhibits. This is a most healthy sign. It indicates more production and greater pride in what is being produced. The stock exhibits have not only kept well up in quality but in quantity also, and as they are always one of the outstanding features of the exhibition it must be a matter of satisfaction to those responsible for the interest being so well sustained.

There is one lesson we might learn from the Old Country in the matter of these agricultural fairs. Not only are they always widely attended in Britain but they attract people of every class, from the wealthiest in the land to the poorest. They are regarded as evidences of the country's development and so of interest to everybody. There are good attendances at our local exhibition, but it is safe to say that these could be much larger. The interest here is not so wide as it is in Britain. Considering the amount of work which the exhibition entails and in view of the constant efforts being made to add to its attractiveness it should have a better appeal to the public. This is not said in any censorious vein, but simply as a reminder that, by encouraging the exhibition authorities and our producers, we are really acting as co-operators on our own behalf.

We would ask Victorians to make special efforts during the present week to attend the Provincial Exhibition. Vancouver has just set an attendance record during its week of display. In fact it has every cause for pride on the character of the interest that was aroused. Victoria should emulate Vancouver's example. That will afford an added sign of the development of a spirit of public co-operation in fostering agricultural production. Make the present week the best yet in point of attendance at the Willows.

FUTURE OF THEATRE

It is the habit of some newspapers in Great Britain, when news is slack, to secure an opinion on something—anything for that matter—from Mr. George Bernard Shaw. His opinions are usually racy and pithily expressed. He is quoted now as saying that the legitimate stage is doomed, that it will disappear, and that the "talkies" will take its place. Probably the opinion is about as good or as bad as might be vouchsafed by almost anyone who is in the habit of giving expression to sentiments on subjects as remote as the theory of relativity and birth control.

Mr. Shaw is nothing if not a dogmatist. He is outright and downright and convinced of his own cocksureness on life and its variety of phases. The fact is that the "talkies" are passing through a stage of trial and those responsible for them are experiencing considerable trepidation about their future. It is true that both motion pictures, and their successors, the "talkies," have done injury to the legitimate drama, but it is not wholly certain that mankind will transfer all allegiance to the mechanical form of entertainment.

This is a mechanical age but there is always the possibility that, as civilization advances and the mind expands, an intellectual era may ensue. The whole history of the histrionic art shows that there is something permanent and unconquerable in the theatre where the living forms themselves move and speak and bring the audience in magnetic touch with the emotions of life. Mr. Shaw to the contrary it is a safe conclusion that there will always remain some demand for something less illusory than screen productions of life.

NO DOLE IN CANADA

Whatever the Federal Parliament may do to assist in solving the problem of unemployment it can be taken for granted that the country has pronounced against the dole policy being adopted. On the eve of the election Mr. Mackenzie King, and Mr. Peter Heenan, who was then Minister of Labor, both hinted that unemployment insurance would be a policy of the future. It is a wholly unnecessary policy in a country like Canada where tariff readjustments and regulations governing immigration can be devised to meet any unemployment situation that develops. There could be no poorer advertisement broadcast than one intimating that this Dominion had gone on the dole system. That policy, and its extension under a Labor Government in Britain, has proved harmful to the morale of the people as public opinion there is becoming more convinced all the time, and, as well, it has had most unfortunate economic effects. Among the latest comment on the system is one quotation from The London Daily Mail:

"What has, in effect, been set up in this country is an elaborate system of wages without work. The cost of this system falls in part upon industry and in part upon the taxpayer. The heavy burden which it involves makes British goods too dear and loses orders. Thus only a fortnight ago a great iron and steel firm lost Indian orders for railway material because its price was £170,000 higher than the foreign tender. But the workers in this firm who were deprived of work took in £184,000 in unemployment pay."

M. Ignace Paderewski says that, "genius and the creation of great art is impossible under the present system of living." In other words, people are too preoccupied in chasing the phantoms of happiness to bother about creative work.

"The scientist must see all the fine and wise connections of the universe and appreciate that they are not of man's invention," says Professor Albert Einstein. He is one scientist who sees in the cosmos design and purpose and not a mere fortuitous concourse of atoms.

Probably it is the plastic effect of propaganda on the public mind that leads Dean Inge to remark that "people are no longer ashamed of believing what they want to believe."

A GARDEN

"A garden is a heaven one may enter every night,
Aflame with all the loveliness of all the shades of light,
Alive with all the scents that God breathed into Eden's bower,
Filled with the very peace that lived within Earth's first great hour.

"The drowsy buzz of insects will lull you into sleep;
You'll fancy clouds that drift above are heaven's flocks of sheep,
Softly driven foldward by angel shepherds there,
You may imagine that you hear their sheep-calls in the air.

"You'll hear the fairies singing beside a bed of thyme,
A kind of crazy bee-tune with neither rote nor rhyme;
You'll hear the insects talking of where best honey lies,
And up above you in the air you'll see the crazy flies
Dancing, dancing all the afternoon
To some tiny grasshopper's mad, mazy tune.

"Oh, gardens are for resting in, forgetting sadder things,
In listening to music and hearing magic wings;
There isn't any sorrow a garden cannot mend,
And a garden never fails you like a lover of a friend."

—P. Hoole Jackson, in The Co-operative News.

VALUATION

To you who make the little songs
That satisfy a moment's need,
Our lesser gratitude belongs—
We cannot call you great indeed,

For every simple word you spend
Has been so often spent before,
And no deep thought have you to lend
Out of your fancy's shallow store.

But since we weary oftentimes
Of rare and heavy measures, we
Despise not the familiar rhymes
That make your modest minstrelsy.

—Ethel Davies, in The Australasian.

Note and Comment

By R. B. D.

Capital game—smart sport—fine exercise—very.—Alfred Jingle, Esq., No Hall, No Where.

All Muggleton had the first innings. . . Play! suddenly called the bowler. The ball flew from his hand straight and swift towards the centre stump of the wicket. The wary Dumpkins was on the alert; it fell upon the tip of the bat and bounded far away over the heads of the scouts, who had just stooped low enough to let it fly over them. . . "But, sir, while we remember that Muggleton has given birth to a Dumkins and a Podder, let us never forget that Dingley Dell can boast a Luffey and a Struggles." (Vociferous cheering.)—Charles Dickens.

The people of the British Empire and the people of the United States have some things in common as well as two things they are said to have in common, a common ancestry and a common language. The ancestry of the American is not as pure as it was when it was originally established by the Pilgrims, nor is the common language spoken in the United States in all essentials and inflexions the common language spoken by the people of the British Empire. Both have been somewhat diluted by foreign and local infusions. But there is one thing the two peoples absolutely have in common—a common love of sport. Games played with bat and ball are the most popular in both countries.

* * *

The national game in England is cricket. The national game of the United States is baseball. Cricket has been played for centuries in England. Baseball has been played in the United States for possibly a little more than half a century. We are not quite sure about the correctness of the latter statement, but we are quite sure that the statement is correct in substance in respect to the game as it is played today. The two games are somewhat different in technique and they are quite different in spirit. In the British Empire to say of any action that it is not cricket is to say that it is not sportsmanlike. Such an expression is never used anywhere, not even in the United States, in respect of baseball. The principle which characterizes cricket is that the game must be won by any means except means which are unfair. In cricket strategy may be employed and the condition of the weather may be taken advantage of, but no tactics which are questionable shall be adopted.

* * *

And yet the game of baseball was originally established in the United States upon the principles of the older game of cricket. Two English emigrants to the United States who were accomplished cricketers (George and Harry Wright), probably realising that the game they had played at home would never be highly popular in the United States for obvious reasons took cricket and rounders (another old game which used to be played by juvenile schoolboys), wedded them into one, and the offspring of the union was baseball. And for many years the ethics of the cricket ground in England were the ethics of the baseball field in the United States and Canada. The people who went to see the game played never played a part in the game by trying to bully the umpire or to "get the goat" of the pitcher. "Rooting" was not then an essential feature of the game nor the most enjoyable part of the game.

* * *

Cricket today is practically dead in the United States. Although it was once popular in Philadelphia, where it was introduced by the Wrights, and there was a strong club upon Staten Island, near New York, for many years, one never hears of a picked United States team going over to England and winning a number of games played against the strong English county teams. But the old and probably the most popular of the games played with bat and ball has taken firm root in all British dominions. It has flourished exceedingly in Australia and produced some of the finest batsmen and bowlers known to the game. Although the population of the Southern Commonwealth is comparatively small, it has produced material of sufficient strength to challenge the supremacy of England in its own national game.

* * *

If we were to describe the test match being played in England during the present week as the last of a series of games for the championship of the world, such a description might be considered flamboyant. Yet it would be quite as correct as claiming for the baseball games which will soon be played in the United States the high-sounding name of a world series; for cricket is in a truer sense of the term more of a world game than baseball. Baseball is not played to any extent outside of the United States and Canada. Cricket is played in Great Britain, in Australia, in Canada, in South Africa, in India, in New Zealand, in the East Indies and in the West Indies, and in many of the islands of the seven seas. There are probably as many people interested in the cricket test matches as there are people who will be interested in the world series baseball matches. If the world series will be "on the air," the test matches will also be "on the air." If baseball has its Ruth and its Grove, cricket has its Hobbs and its Bradman. If the age must have its heroes, there will be as many people of later times reading about the achievements of Hobbs and Bradman as there will be reading about the feats of Ruth and Grove.

No letter to the Editor will be inserted except over the proper signature and address of the writer. This rule admits of no exception.

The Rhyming Optimist

By Aline Michaelis

A SHADOW

All grief is but a shadow
That swiftly passes by,
A shadow that can only vex
One hour the tranquil sky;
While joy is like the sun's self,
Serene, untouched always
By any wisp of cloud that casts
Its shadows on our days.

If man would but consider
How fugitive is pain,
How many are the hours of sun
To just one hour of rain;
Then he could meet and conquer,
Triumphant over all,
The darkest hours that come to him
The deepest shades that fall!

All grief is swiftly passing,
A bird that spreads its wings,
To hide but for a little time
The sun-bright heart of things!

EASTERN UNIVERSITIES REPORT EARTHQUAKE

NEW YORK, Aug. 18.—The seismograph at Fordham University registered two "moderately" severe earthquakes today, the first at 5:07 a.m. (Eastern standard time) and the second four minutes later. The distance was computed as 1,540 miles from New York. The direction was undetermined.

WASHINGTON, Aug. 18.—An earthquake described as "of considerable intensity," and as centred about seven thousand miles from Washington, was recorded early today on the instruments of Georgetown University Seismological Observatory. It began at 5:08 a.m., Eastern standard time, with maximum shocks at 5:45 a.m. The duration of the shocks was about two and a half hours.

LARGE CONTRACT AWARDED

TORONTO, Aug. 18.—J. H. Black, vice-president of the Ontario Power Service Corporation, Limited, has announced that the $23,000,000 contract for the construction of the dam and powerhouse in connection with the Abitibi Canyon power development has been awarded to the Dominion Construction Company. Work will begin in a few days.

31	2:00	2.0	....		....		10:53	3.0

The time used is Pacific Standard for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water. Where blanks occur in the tables, the tide rises or falls continuously during two successive tidal periods.

The height is in feet and tenths of a foot, measured from the average level of low water.

To find the depth of water on the sill of the Esquimalt drydock at any tide, add 18.0 feet to the height of high water as above given.

To find the depth of water on the sill of the Songhees drydock add 30 feet to the height of high water as above given.

IN LONDON

The Colonist may be procured at the International News Stand of Messrs. Selfridge & Co., Oxford St.

MUNICIPALITIES MAKES SURVEY INSPECTOR OF

Little Change in British Columbia Civic Circles Reported for 1929

SILVERTON, STEWART ARE INCORPORATED

British Columbia municipalities experienced a quiet and, on the whole, a successful year, Robert Baird, inspector of municipalities, sets out in his report to Hon. R. H. Pooley, K.C., in the annual summary of municipal administrations. Little of note occurred during the period, which was marked by satisfactory increases in the sinking funds of the various municipalities, and comparatively little trouble of any nature, it is stated.

Assessed value of improvements increased by some $20,000,000 during the last fiscal year, and assessed value of lands by a further $3,500,000. Mr. Baird comments on the method of assessing adopted in some places, holding fictitious assessed values to be poor policy in the long run. Debenture liabilities assumed by the municipalities in the aggregate increased by $8,356,000, the greater part of which was contributed by Vancouver City.

INCREASE IN ARREARS

Developments at the latter portion of the period under review contributed to a slight increase in the arrears of taxes and in the area of tax sale lands held by the municipalities, Mr. Baird reports. It would be of general benefit to the municipalities if the purchase of tax sale lands were made attractive to private purchasers, he adds, as this would strengthen the financial position of civic bodies.

Village municipalities come in for especial commendation on the way they are assuming responsibilities in their areas and keeping expenditures within reasonable bounds. Village municipalities are not responsible for schools or policing, but only their own internal affairs.

Cities of the province, with an area totaling 73,950 acres and an aggregate population of 271,750, report taxable and untaxable land and improvements to a gross value of $569,367,678, of which $49,325,982 is tax exempt. Districts, comprising 985,781 acres and peopled by 121,180, have $177,964,684 in land and improvements, of which $31,321,872 is tax exempt.

A grand aggregate of 499,365 people are listed in cities, district municipalities and villages of the province, with land and improvements valued at $741,632,232, and covering 985,761 acres. Two new incorporations took place in the current year, Silverton and Stewart both receiving their papers.

TAX LEVIES FOR 1930

In tax levies for the year 1930, Victoria reported a reduction from 41 mills in 1929 to 40.50 this year. Vancouver's tax rate rose slightly, from 41.66 to 43.82, Vernon stayed steady at 42 mills. Kamloops effected a big reduction in its mill rate, from 41 mills to 33. Nanaimo stayed steady at 47 mills. New Westminster shaved off half a mill, from 56.5 to 56 even. North Vancouver enjoyed a one-mill reduction, from 42 to 41 mills. In Oak Bay the tax rate remained at 27 mills. Saanich effected a two-mill drop to 28 mills, while Esquimalt passed the same rate, 28 mills, in both 1929 and this year.

Greenwood, among the cities, had the highest mill rate, at 64 mills, and Courtenay the lowest, at 25, irrespective of improvement taxation, which is in effect at some places and not at others. Seven cities reported liabilities running into the millions in 1929 as follows: Vancouver, $74,266,115; Victoria, $17,670,832; New Westminster, $6,115,552; North Vancouver, $4,411,476; Prince Rupert, $1,993,781; Kamloops, $1,509,606, and Nanaimo, $1,029,911. These figures include total debenture debts, and sundry outstanding debts, exclusive of shortages in sinking funds, where these occur.

RESERVES JUDGMENT IN CASE CHARGING FALSE PRETENCES

The evidence against Douglas Hodgson of obtaining credit under false pretences and also his own statement in his defence was heard in the City Police Court yesterday morning by the acting magistrate, C. J. Prior. The decision of the magistrate was held over until this morning. The evidence went to show that Hodgson had obtained an automobile from a drive-yourself company in the city for the purpose of crossing to the Mainland.

When required to give a deposit in connection with the transaction he had given a cheque on a local bank for $25. This cheque proved inadequate in view of the fact that the account of the accused carried a credit of only a few cents.

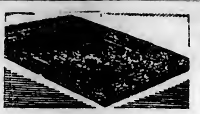

The trip was made to the Mainland as Hodgson said, for the purpose of visiting the friends of his wife near Chilliwack. On the way he and his wife had some trouble financing, according to the examination of the witness by the City Prosecutor Claude L. Harrison, and before they were able to get some money expected, the Provincial Police entered into the picture and the car was returned to Victoria.

Had this not occured the accused said that he would have obtained the money necessary and could have liquidated the debt. He contended that he did not know what there was in the bank when he gave the cheque as he had not for years had any transactions with regard to the account. He said he had no intention of defrauding and regarded the cheque given as a deposit simply to be held.

Man (in department store)—Could you tell me where the bargain counter is?

Floorwalker—Yes, sir. Just let me know exactly what you are looking for, sir.

Man—I'm looking for my wife, darn it!

COURT REFUSES TO GRANT WRIT

Chief Justice Dismisses Application for Second Class Projectionists

THREE HOUSES TO CLOSE

VANCOUVER, Aug. 18.—Refusal by Chief Justice Aulay Morrison of an application by three Vancouver movie houses for a writ of mandamus to compel the issue of a permit to Callan R. Hayter, second-class projectionist, to operate at the Colonial Theatre, and decision of the board of examiners that the theatres must close at midnight Wednesday, are the latest developments in the battle between the amusement resorts and the censor's office.

Moving Picture Censor Joseph Walters granted temporary permits to expire Wednesday midnight, to the Colonial, Columbia and Royal Theatres, following a conference with Attorney-General R. H. Pooley, Saturday.

ON TECHNICALITY

When the theatre proprietors' application for a writ of mandamus was made to Chief Justice Morrison today, it was dismissed on a technicality.

"Written application for a permit should have been made to the board of examiners," the Chief Justice said, "and no such application was made.

D. N. Hossie, counsel for the applicants, declared that Fire Marshal J. A. Thomas, chairman of the board, had refused point-blank to consider an application when Hayter, the projectionist seeking the permit, approached him.

Whether the application had been made in writing or not would have not altered the case, counsel argued, since the fire marshal had refused to have anything to do with it anyway.

"We're not concerned with any quarrel amongst the projectionists," A. H. McNeill, K.C., counsel for the board, declared, holding that an application for a permit should have been made in the proper way, and it would then have been considered on its merits.

Dismissing the application, the Chief Justice declared that he saw no reason why the applicant did not comply with the act and lodge his application in writing.

"Where there was no application," he said, "there could be no refusal. This is a serious matter. This act was designed for the protection of the public. That the fire warden is a member of the board of examiners, suggests the importance of protection."

SIR WILLIAM HORWOOD ASSAULTED ON STREET

Chief Justice of Newfoundland Struck With a Stick by Man Evicted From House

ST. JOHN'S, Nfld., Aug. 18.—Sir William Horwood, Chief Justice of Newfoundland, was assaulted on the street near the courthouse this afternoon by a man who had just been in court to hear an order issued for his eviction from the house he was occupying.

Joseph Burnstein was arrested and charged with assault. It is alleged that Burnstein, who had frequently appeared in court, and who was the subject of the order for eviction, followed the Chief Justice to his chambers, and later to the street, where he attacked Sir William with a stick.

Police interfered before the Chief Justice had suffered any serious injury.

FIFTY YEARS AGO TODAY

(From The Daily British Colonist of August 19, 1880)

The steamer Princess Louise brought down 4,000 cases of Fraser River salmon last night for shipment to England per bark Whitlen.

A landslide of unusual magnitude occurred near Cook's Ferry about three weeks since, particulars of which have not previously come to hand. A huge mass of Shewniken mountain was suddenly observed to be moving, and without a moment's warning thousands of tons of earth and rock were precipitated into the channel of Thompson River. So violent was the subsidence that not only was the course of the river impeded, but a large portion of the flat on the opposite side was covered by the slide.

The committee of the B.C. Protestant Orphans' Home wishes to tender its thanks to the amateurs of H.M. ships Triumph and Rocket, who gave a concert in aid of the funds of the home on the 11th inst., resulting in the handsome contribution of $71.

Communism Holds No Threat, States Chief of Bolivia

General Blanco Galindo Is Implanting a Counteragent by Scientific Measures to Stabilize Working Conditions—Social Problems to Be Solved

By JOHN W WHITE
(Copyright, 1930, by The Chicago Daily News Foreign Service.)

LA PAZ, Bolivia, Aug 18.—If Communism, as scrutiny of the Bolivian scene would indicate, is potent enough to turn the tables against the military Government Junta at the first opportunity, General Carlos Blanco Galindo, Bolivia's new chief executive, is unperturbed and confident of subduing any outcropping of radicalism.

Already the General, who has been in power only a month and a half, ruling provisionally until the January elections, is implanting a counteragent to Communism by scientific measures to stabilize working conditions, he assures The Chicago Daily News correspondent. General Galindo means to concentrate on his country's internal problems above all else, and is curtailing foreign intercourse regarding even such problems as the ancient Chaco controversy with Paraguay.

When I told the General that my investigations hare led me to believe that most critical of the several serious social problems facing the Government was the threat of Communism due to the general depression and the large number of unemployed from the closing of the tin mines, he replied:

"This situation is aggravated by the presence of many agitators from Argentina But the Junta has the situation well in hand. We have arrested several agitators and deported them. Their activities are inimical to the country's welfare. We are on the trail of other agitators, and will deport them as rapidly as they can be arrested.

EMPLOYMENT PLANS

"We plan to alleviate the unemployment situation by establishing a Government Labor Bureau in Oruro, centre of unemployment. There the unemployed will be registered, and then they will be sent to new fields of employment as rapidly as they can be placed, principally in the agricultural zones, pending the renewal of mining activities."

General Galindo's Provisional Government will make no move toward seeking diplomatic recognition of other countries.

"Such recognition would greatly please us," he said to me, "and if foreign governments would investigate us, they would probably find that we are far more honest and honorable than some other Governments with which they are maintaining relations; but the Junta expects to be in power only a few months, and we have far more important problems to face."

THE CHACO BOUNDARY

Because of the short time the Junta expects to remain in office, General Galindo will not undertake negotiations with Paraguay regarding the Chaco boundary, he emphasized, declaring

"We have complied with the Washington protocol by exchanging Ports Boqueron and Venguardia in the Chaco, and our relations with Paraguay are now cordial. I am sure direct negotiations can be carried to a successful finish by the constitutionally established Government that will succeed the Junta.

"We realize that Bolivia is in a very serious situation, and that it will require much hard work and patriotic endeavor to get through its present crisis; but we think we have the battle well begun by having fully recognized the situation, and we confidently expect to win through."

AFTER MEAL EVERY

P. B. FOWLER IS CLUB SPEAKER

Chamber President Addresses Gyros on "International Business"

PSYCHOLOGY IMPORTANT

Business conditions throughout the entire world were described by P. B. Fowler at yesterday's luncheon of the Gyros' Club, which was held in the Empress Hotel. Mr. Fowler pointed out the importance of the human element in general business, explaining that psychology was an all important factor.

Mr. Fowler described international conditions and explained the reasons for the present business depression.

He explained how purchasing on the "easy-pay" system has, in a great measure, contributed to the present condition of affairs. Mr. Fowler also spoke of the decreased consumption in Russia and China and also in Central Europe, pointing out the failure of retail prices of these countries to fall in with wholesale prices.

Mr. Fowler also read extracts from trade bulletins of different countries. "The whole question," he said, "can only be solved by a completely new adjustment between the forces of consumption and production. It is only in this manner that the present deadlock may be overcome."

The speaker also enumerated a number of scientific inventions which had all played their part in bringing about the present crisis.

University Professor Emeritus Passes Away

By PAUL SCOTT
(Copyright, 1930, by The Chicago Daily News Foreign Service.)

PARIS, Aug. 18.—Edouard Paul Baillot, professor emeritus of Northwestern University, Evanston, Ill., died early today at his home in Montmorency, a suburb of Paris, after a long illness.

Only in KRAFT CHEESE...

this rare "Cave-Cured" flavor

TREAT yourself to a taste of Kraft "Cave-cured" flavor tonight if you want to experience a new pleasure in cheese goodness.

In Kraft cheese there's everything you expect, tenderness . . . creamy texture . . . digestibility . . . and now, in addition, the rare, piquant flavor that only "cave-curing" can impart. You'll want this delightful cheese for salads, for slicing with crackers and for dozens of cooking uses. It adds new enjoyment to every dish.

Get it at your grocers. Kraft "Canadian" in the familiar half-pound package and in the famous five-pound loaf.

Look for the new distinctive Kraft foil when you order Kraft cheese cut from the loaf. The name "Kraft" must appear on every slice of the genuine.

KRAFT-PHENIX CHEESE CO. LIMITED

EXCHANGE FOR LIVESTOCK IS URGENT NEED

Clearing Place for Vancouver Island Regarded as Necessity for Producers

CO-OPERATION OF ALL CITIZENS IS NEEDED

Among the raisers of livestock on Vancouver Island there appears to be a growing impression that the time is ripe for the establishment here of a livestock exchange that would fill the duties of a clearing place in the disposal of animals which the raisers are seeking to place on the market. This subject is a live one among the stock raisers of Vancouver Island who are at present in attendance at the Fall Exhibition, and the opinion is expressed that it might be an opportune time now to launch something in this direction.

To do so there would require to be sympathetic co-operation between the business men of the city of Victoria to insure that such an exchange might fulfill the purposes which should be served by it.

This is not a new proposal by any means, but is something along the lines of similar organizations that exist in many of the larger centres and which are making for better returns on the part of the producers of livestock, while at the same time affording the residents of the cities prime quality of meats at proper prices.

DOING GOOD WORK

A few years ago such an exchange was started in Vancouver under the name of the Vancouver Livestock Echange, Limited. Some little difficulty was experienced in the early days in getting the concern known to the producers, but after a little time confidence was established and for several years it has been doing a very laudatory work in finding a market for the livestock commited to its charge.

The fair dealing which has characterized the exchange and the attention given to the shipments made to it of small producers as well as large ones has established a good reputation which has made for the establishment of the greatest confidence in it.

The hearty co-operation of local dealers is of importance in the carrying to success of such an enterprise. In Vancouver this has been accomplished.

Among well-known firms that buy from the exchange, and all of whom are anxious to give the British Columbia products a preference, are P. Burns & Company, Swift's, Pacific Meat Company, David Spencer, Limited, Woodward's, Limited, Hudson's Bay Company, Gainers, Limited, Alberta Meat Company, Dominion Market, British Pork Butchers, Safeway Stores, City Meat Market, H Brown & Sons and Western Meat Company.

STOCK INCREASING

On Vancouver Island and the nearby Gulf Islands there is produced an ever increasing number of animals which should, in the natural order of things, it is pointed out by those interested in the scheme of a local exchange, find a place in the meat stalls of Victoria. The existance of an exchange carried on along the most approved lines connected with this branch of business should be of advantage to the producer, the dealer and the consumer alike.

CAR RUNS WILD INJURING TWO

Miss Smith and Miss Goddard Victims of Unusual Accident at Elk Lake

RESTING NICELY TODAY

Victims of an unusual accident at the Elk Lake athletic grounds Sunday night, Miss Ethel Smith, fourteen, 1024 Tolmie Avenue, and Miss Evelyn Goddard, twenty-three, Tod Inlet, met with injuries which necessitated their removal to St. Joseph's Hospital. Miss Smith suffered a broken collar bone and bruises, while Miss Goddard met with internal injuries. They were resting comfortably at a late hour last night at the hospital.

It was while the two girls were lying on the ground facing the water that a car owned by Thomas Blackwood, 621 Hillside Avenue, and parked a short distance away, suddenly started backwards and ran over them. Mr. Blackwood was swimming at the time, while a friend in the car had fallen asleep. As the car continued its journey down the grade its speed increased and after passing over the girls it crashed into a tree and stopped.

The noise of the impact aroused the attention of the holiday makers, who were horrified when they looked towards the spot and saw the injured girls. An ambulance was summoned immediately and the girls rushed to the hospital. Dr. M. Thomas attended Miss Smith and Dr C. Denton Holmes treated Miss Goddard.

Today's Programme At the Exhibition

8 a.m.—Gates open.
10 a.m.—Judging in horticulture, agriculture and livestock.
2 30 p.m.—Horse racing. Horse show in mid-field.
3 p.m.—Special features in all buildings.
3 p.m.—First performance.
3 p.m. to 4 p.m.—Minstrel show.
3 p.m., 8 p.m., 8 p.m. and 10 p.m.—Boxing and wrestling
Circus—Continuous show from 2 p.m.
Midway in full swing all day.
11 p.m.—Buildings close.

Pontiff to Give Latin Radio Talk

By WILLIAM H STONEMAN
(Copyright, 1930, by The Chicago Daily News Foreign Service.)

ROME, Aug. 18.—It is understood that the Pope's long-awaited radio message to the world will probably be broadcast from the Vatican radio station sometime in November, although it is possible that it may be delayed until Christmas when the occasion will be more fitting than any other time.

In any case, it seems definitely decided that Pope Pius XI will make a discourse of several minutes, speaking in Latin, his words being picked up by relay stations throughout the world and probably repeated in translated form by local stations.

The Vatican radio station is now virtually complete, the microphone before which the holy father will speak being finished. This, of Marconi-Reisz type, is extremely sensitive to all voice modulations. The radio station proper, from which both radiotelegraphic and radiophone messages will be transmitted, was personally designed by Marconi. It is a short wave station, the lengths being twenty or fifty meters, depending upon the distance to be reached and whether it is day or night.

The transmitters are supplied with current from the Vatican power station, which is also to supply the Vatican lighting system. There are two antennas, located on the highest point in the Vatican gardens, near the replica of the Lourdes Grotto.

The turbines for the electrical station have just arrived at the Vatican, and as soon as they are installed the Pope may broadcast his message.

CANADIAN BAR ENDS PARLEY WITH DINNER

Tribute Paid to Privy Council's Work—Nine Honorary Members of Association Named

TORONTO, Aug. 18.—The "valedictory at the bar"—to his his own words—of Premier R. B. Bennett; visualization of a future Canada as the centre of the Empire by Hon. Hugh Guthrie, Minister of Justice; declaration by Chief Justice Hazen, of New Brunswick, that the Union Jack was the flag for Canada; assertion by Hon. N. Rowell that the "monarchy was the real keystone of the Empire"; and expressions of friendship from the judiciary and legal profession of the British Isles, France, and the United States, brought the fifteenth annual meeting of the Canadian Bar Association to a close. Tribute to the work of the Privy Council was paid by several speakers.

It was an occasion of oratory which greeted the guests at the annual dinner at which the Prime Minister presided. From Premier Bennett, Hon. Hugh Guthrie, Sir Douglas Hazen, Col. Alexander Stevenson Blair, of the Law Society of Scotland; Hon. Edward A. Armstrong, of the American Bar Association; Henry Decuguis and Ragnon Isouard, of the Paris Bar; Sir George Etherton, of the English Bar; Sir William Jowitt, Attorney-General of England; Hon. N. W. Rowell, Toronto; Lord Dunedin, senior member of the judicial committee of the Privy Council; Sir John Simon, who headed the Indian Statutory Commission; Sir Roger Gregory, of the Law Society of England, and L. S. St. Laurent, Quebec, successor to the Prime Minister as president of the association, came speeches.

The health of His Majesty the King, the President of the French Republic and the President of the United States was drunk, and towards the close of the function a beautifully engraved rose bowl—a souvenir from the four ancient temples of the English Bar and from the Law Society of England—was presented to the association through Sir John Simon and Sir Roger Gregory. Nine were named honorary members of the Canadian Bar Association—Lord Dunedin, Lord Tomlin, Attorney-General Jowitt, Henri Decuguis, Hon. Mr. Justice Hanna, of the Irish Free State judiciary; Hon. Edward A. Armstrong, James Stevenson Leadbetter, of the Bar of Scotland; Sir Roger Gregory, and William Campbell Johnston, of the Law Society of Scotland.

In his valedictory address Premier Bennett had references for the work of the commissioners of the association on uniformity of legislation in Canada "The Commission on Laws," the Prime Minister declared, "is now providing for legislation that will insure uniformity of statute law and uniformity in other matters in all the provinces of this Dominion; but there is yet much to be done."

CORNS

RELIEF IN 1 MINUTE!

In one minute you won't know you have corns or tender toes—so quick do Dr. Scholl's Zino-pads end pain. The secret is in their soothing, healing medication, and cushioning feature, which *removes the cause*—shoe pressure! No other remedy does this for you. Cutting your corns is dangerous—invites blood-poisoning! Using harsh liquids and plasters often causes acid burn. Zino-pads are *guaranteed safe*. Thin, protective. 35c everywhere.

Dr Scholl's Zino-pads

Put one on—the pain is gone!

TURKO-PERSIAN RELATIONS ARE NOW IMPROVED

Withdrawal of Turkish Forces From Persian Soil Wards Off Crisis

PROBLEMS CREATED BY KURDISH NATIONALISM

By CARROLL BINDER
(Copyright, 1930, by The Chicago Daily News Foreign Service.)

LONDON, Aug. 18.—A crisis has been averted in the Persian-Turkish relations, according to information obtained at the Legations here of the two powers concerned.

When the Persian commander, Jaafar Gholi Khan, reached the Western Department to take up the suppression of the Kurds, he found all the Turkish forces withdrawn from Persian soil, thereby closing what threatened to be a serious incident.

The Persians then gave Reuter's, British news service, a statement denying that the Turks were present on their soil, which amuses London as evidence that the Persians are still faithful to the traditions of Oriental diplomacy despite the professed modernity of the present Shah.

TO REPLACE MINISTER

The Turks also announced that their recalled minister to Teheran would be replaced immediately, thus showing that there is no danger of a rupture of diplomatic relations.

The Persians are noncommital, however, regarding the Turkish proposal of exchanging the Ararat territory for some other part of Turkey in order to squelch the Kurds. Cherished Persian shrines are claimed to be in the Ararat territory and the Persians profess reluctance to discuss their surrender. They promise, however, to control the Kurds in their territory, which, some London experts believe, Persia is sufficiently strong to fulfill.

A local Turk credits former King Amanullah, of Afghanistan, with this betterment of Turko-Persian relations. Meantime, it is reported that the rebellious Kurds are headed toward Irak, which, if true, will bring the British into the present difficulties.

GERMAN ALLEGATIONS

The London press is vexed at the German allegations that the famed Col. T. E. Lawrence stirred up the Kurds as a part of British schemes. Newspapers insist that Colonel Lawrence is still on British soil, serving with an air unit as "Aircraftsman Shaw," and logically argue that the last desire of Great Britain is to see unrest elsewhere at a time when the Indian frontier situation is so acute.

The British cite the efforts of the British commissioner in Irak to preserve order among the Irak Kurds and the pledge by the Irak Premier that his Government will not tolerate Kurdish nationalism aimed against Turkey or Persia. The British realize that the growth of Kurdish nationalism presents serious problems, however.

W. E. NACHTRIEB IS CALLED BY DEATH

Following a brief illness, William Elsworth Nachtrieb, who has been a resident of Victoria for the past thirty-five years, passed away yesterday morning at his home at 2507 Bridge Street.

Mr. Nachtrieb was sixty-six years of age and was born in Bucyrus, Ohio. He entered the tanning industry with Messrs. Bissinger & Co., of San Francisco, and finally became manager of the Victoria branch of that firm.

He joined the Rotary Club in the year 1918, and was chairman of the boys' work committee for some years. He is survived by his widow; two sons, William E. Nachtrieb, of 262 Superior Street, and Howard Nachtrieb, who lives at home; two daughter, Mrs. H. M. Hill, of Reno, Nev.; two brothers, J. J. Nachtrieb, of Berkeley, Cal., and G. H. Nachtrieb, at the family residence, and one sister, Mrs. L. Bannero, of Burlingame, Cal.

The funeral will take place on Wednesday at 2 o'clock, from the Sands Funeral Chapel, and the remains will be laid to rest in Ross Bay Cemetery.

MRS. E. M. SHRAPNEL PASSES TO HER REST

The death occurred early yesterday morning, at the residence, 1578 Clive Drive, of Edith Mary Shrapnel, widow of the late Edward Scrope Shrapnel. Mrs. Shrapnel was born in Bradford-on-Avon, England, eighty-four years ago, coming to Canada about 1880, and residing in this city for the past forty-one years. She leaves to mourn her loss six daughters and one son. The remains are reposing at Hayward's B.C. Funeral Co.'s Chapel, and services will be held tomorrow at 2 o'clock.

Obituary

LAIRD—The remains of Baby Laird, infant son of Mr and Mrs. William Alexander Laird, of Shawnigan Lake, B.C., will be laid to rest this morning, the funeral taking place from Hayward's B.C. Funeral Chapel. Interment will be made in Ross Bay Cemetery.

SMITH—There passed away suddenly in this city, on August 16, Joseph Lawrence Smith, late of Seattle. Mr. Smith was born in Seattle forty-six years ago. The remains were forwarded by Hayward's B.C. Funeral Co. on Sunday afternoon to the above city for interment.

LAVIS—The funeral of Thomas Lavis, who passed away at the Royal Jubilee Hospital on Friday, took place yesterday afternoon at 3 30 o'clock, from the Sands Funeral Chapel. Relatives and a large gathering of friends were in attendance and the casket was covered with many beautiful flowers. Britannia Lodge, No. 72, A.F. & A.M., attended in a body. Rev. Canon F. A. P. Chadwick officiated and the hymns sung were "Forever With the Lord" and "There Is No Night in Heaven." Mr. Honeychurch and Mr Dinsmore sang a duet entitled "The Homeland." Bros. R. Jackson, S. Honeychurch, D. Campbell, S. Kinsey, J. McCrindle and T. Clemenis acted as pallbearers and the remains were laid to rest in the Royal Oak Burial Park, where Wor. Bro. E. W. Hetherington, worshipful master, read the Masonic burial service.

Approximately $100 was raised for the Navy League of Canada, by the concert party of H.M.S. Despatch in their presentation at the Coliseum Theatre, according to information received yesterday from E. G. Alcock, secretary.

Officials of the Navy League were loud in their praise of the assistance given by the party, and were more than delighted with the performance and the results attained

One of the finest concert troupes to show here from visiting British warships, the entertainers from H.M.S. Despatch drew a record crowd. Their programme was full of life all through, and in addition to excellent comedy, included a number of first-class vocal and musical selections. One item of special interest was the display of illuminated club swinging by A. B. Myles. While it would be a difficult task to single out any one entertainer, A. B. Keate, female impersonator, was perhaps the most outstanding and finished performer.

Alaskan Silver, Cross and Blue Foxes

FOR SALE

I have a sample lot of genuine Alaskan Foxes on the Ideal Fur Farm, Helmcken Road, near Victoria, which I will be pleased to show anyone interested in real Alaskan stock. I have taken an option on a farm suitable for fur farming within seven miles of Victoria, and will consider a partner with capital. Anyone interested can make appointment by getting in touch with me at the Fairfield Hotel. Room 27.—A. O. ALEXANDER

CITY COUNCIL SUPPORTED ON UNEMPLOYMENT

Trades and Labor Council Presents Views and Offers Co-operation

MAYOR COMMUNICATING WITH LABOR MINISTER

Offering the fullest co-operation to any measure designed to relieve the unemployment situation in Victoria, a delegation from the Trades and Labor Council attended the regular meeting of the City Council yesterday afternoon to present its views and lend the assistance of that important organization of trade unions in any effort to find work for those of Victoria's citizens who, through the world depression of business, have been idle for some time past.

The members of the council listened attentively to the views presented very ably by V. Midgely and supported by R. Noble. Mr. Midgely outlined the stand of the Trades and Labor Council in connection with unemployment in the city and gave figures indicating the increase in unemployment during the last few months. He said the Trades and Labor Council is ready to act with the council. He did not criticize the council or any business or industrial group for the idleness among workers as he considered the situation one which was occupying the attention of many countries of the world. He specifically asked that no reduction be made in the minimum wages due to an excess of labor. Mr. Midgely's pronouncement was concurred in by his fellow delegate, Mr. Noble.

COUNCIL IS ACTIVE

After hearing the delegates, Mayor Anscomb told the delegation what the council had done in connection with the problem. The mayor read telegrams which had been sent to the Minister of Labor, and the replies received. In view of the proposed special session of Parliament to take place next month, the mayor suggested the whole matter be laid on the table until the session of Parliament, unless anything, unforseen at the moment, should occur. This appeared satisfactory to the delegation. Before closing the matter a resolution was passed extending the thanks of the council to the members of the Trades and Labor Council for their offer of assistance and also commending the delegates for the manner in which they had presented their case before the aldermen.

The session of council, which was convened at 4 o'clock, lasted an hour and routine business was the order of the meeting, consisting mainly of the reading of correspondence and the adoption of committee reports.

A letter was read from John Dean in respect to the co-ordination of the water supply systems of Victoria and enclosing letters from an English firm of engineers on the proposal. The letter was ordered to the city engineer and the water department.

TO REMOVE SQUATTERS

The Pacific International Airways wrote in connection with its agreement and another letter was received from the contractor at the seaplane base seeking information concerning the removal of obstructions at the base so that work can be proceeded with. He will be informed that the matter will be taken up with the harbor master and Public Works Department immediately, with a view to having the obstructions removed.

The application from Moore-Whittington Lumber Company, to erect a sign at the corner of Cook and Mason Streets was refused on the advice of the building inspector. Recommendations from the board of police commissioners referring to the use of a signal by drivers when leaving a curb and another for parallel parking on View Street between Broad and Government were approved.

The council adopted the suggestion of the police commission with reference to the action for damages against Chief Fry and Inspector Boulton to apopint the legal firm of Elliot, Maclean & Shandley to represent the defendants in the action.

The council agreed to a renewal of an agreement between the corporation and the Canadian Northern Pacific for a supply of water. A provision is to be inserted in the contract to the effect that the city will not be liable for failure to supply water due to causes beyond the control of the corporation.

A request to demonstrate the new automatic dial system of telephone in the show window of the city land commissioner's office was granted.

The finance committee's recommendation to purchase $22,000 Province of Alberta Lethbridge Irrigation Scheme 6 per cent first mortgage bonds, due May, 1951, at 112.91, was approved. The bonds will be deposited for sinking fund purposes.

Lady Willingdon Receives News of Sister's Death

OTTAWA, Aug. 18. — The Viscountess Willingdon has been bereaved by the death of her sister, Muriel, Countess De La Warr, in England on Friday, according to an announcement from Government House. Lady De La Marr was born in 1872.

Monday's Total of Paid Admissions Is In Excess of 1929

It is an old saying that the attendance at fairs, shows, circuses and other events where admission is charged, is a fair criterion of the conditions existing in a community. On the opening day of Victoria's annual exhibition yesterday a total of 2,532 persons paid admission to the grounds. On the opening day of 1929 the paid admissions numbered 2,413. This year's figures show an increase of 119 over last year. The figures of attendance and the increase in the number of exhibitors is an indication that Vancouver Island, and Victoria in particular, are progressing steadily in agricultural and industrial development, officials of the British Columbia Agricultural Associatinn say.

City & District

Broken Jaw—Struck by a piece of flying steel while at work yesterday afternoon, Harry Down, B.C. Electric lineman, suffered a fractured jaw. He was rushed to St. Joseph's Hospital and attended by Dr. Ernest Campbell.

Detectives Investigating—Securing entry by breaking in the back door, burglars secured $5 in cash and a small amount of tobacco from Two Jacks Dope, Government Street, over the week-end. Detectivs are investigating.

Two Fire Calls—City fireman took a run to Mount View Apartments at 10.28 o'clock yesterday morning to extinguish a chimney fire. At 11:38 o'clock burning brush and grass at Beacon Hill Park needed attention. No damage resulted.

Injured Head—Struck by a falling pole on which he was working, Frank Pomeroy, an employee of the B.C. Telephone Co., met with injuries to his head at 11.45 o'clock yesterday morning. He was rushed to the Jubilee Hospital in the C. & C. ambulance and attended by Dr. D. W. Graham.

Hurt in Collission—When his car overturned following a collision with another automobile at the intersection of Edwards and Mary Streets, Victoria West, Sunday morning at 11 o'clock, Howard Raynor suffered cuts above the forehead and right ear which required first aid treatment. The other car involved was driven by Beatrice Roberts, 403 Young Street.

For Those Back Home—Alderman H. O. Litchfield has forwarded to The Liverpool Daily Post for publication two photographs and a descriptive article in connection with the arrival of the Ss. Prince David, of the Canadian National Steamships at Victoria recently. Mr. Litchfield and Alderman J. Adam, former residents of Liverpool, were in the photographs. The accompanying article tells of shipping activities in and around the port of Victoria.

Vital Statistics—Births recorded in Victoria in July numbered seventy, according to the monthly report of the medical health officer submitted to the City Council yesterday afternoon. The report also showed thirty-one deaths and thirty-seven marriages. In connection with infectious and communicable diseases, Dr. Felton reported a slight increase in the number of cases of measles. In July there were fifty cases reported, as compared with thirty-two in June. Chicken-pox and mumps both show declines in the number of cases.

Insurance Men Coming—In advance of the arrival of the One Hundred Thousand Club gathering of the Manufacturers' Life Assurance Company, R. E. Dowsett, assistant secretary of the company, is now in Victoria. There are some sixty members of the club meeting here, commencing next Wednesday. Mr. Dowsett is here conferring with the district manager of the company, J. E. Sheratt, and arranging for the reception of the visitors. The meeting will be held in the Empress Hotel, which will be the headquarters of the club during its stay here.

Gives Piano Recital—A large and appreciative audience listened with rapture to Theodore Salmon on Sunday night at the New Thought Temple, 720 1-2 Fort Street, as he gave several pianoforte selections from the modern classics and a few numbers from the romantic school. This was Mr. Salmnn's farewell visit to the temple and his numbers were received with greater enthusiasm than ever. Rev. Lionel C. Kenworthy gave a stirring address, answering the question of "What Can We Believe?" by pointing to the great underlying principles in all religions and to the spiritual laws governing all life.

Survey of Airports—Alderman W. T. Straith, chairman of the industrial committee of the City Council, returned Saturday from a survey of the principal airports of the Pacific Northwest at the request of the council, and will shortly submit a complete report of the operation of aerial stations in connection with the city's proposal to establish a municipal port at Lansdowne Park, now under option to the corporation. Mr. Straith visited Portland, Tacoma, Seattle and Vancouver, and obtained figures of the cost of ports at those places which were all, he says, very much higher than that which Victoria proposes to spend.

CAMBRIDGE BAND DRAWS FULL HOUSE

A capacity house greeted the Cambridge University Band at the service held Sunday evening after church hours in the A.O.F. Hall. The meeting was of an evangelistic nature, Rev. J. Fellowes-Farrow giving an address which was illustrated by pictures on the screen. Messrs. Buxton, Markbey and Thody, the student members of the visiting group, took part. Mr. Fellowes-Farrow intimated that during the next fortnight he would give several illustrated lectures in medical missions and the training for that work which is being given at Livingstonia, in Cambridge, Eng., of which he is the warden. Messrs. Buxton and Markbey will leave on Friday to conduct week-end services at Mayne Island, en route to their Winter's course of study.

OLD LANDMARK TO COME DOWN

Workmen Will Start Thursday to Destroy St. Joseph's Church, Esquimalt

WAS ERECTED IN 1876

Built in 1876 and gracing Esquimalt's skyline for fifty-four years, St. Joseph's Church, Esquimalt Road, will soon be no more. On Thursday morning workmen will go about the task of demolishing the structure, and soon it will be razed to the ground. In its stead, but in an entirely new location and much closer to the city, will rise the first unit of what eventually will be an elaborate church.

Father A. B. W. Wood, rector, was granted a conditional transfer of property at the regular meeting of the Esquimalt Council last night and, with this first step completed, the work of demolition will follow.

The new site runs from Esquimalt Road to the Old Esquimalt Road, and lies between Dominion Road and Head Street, about one mile closer to the city.

Decision to build the new church was reached at a joint meeting of the congregations of St. Joseph's, Esquimalt, and St. Mary's Church, Victoria West, on Sunday night, with Father Wood presiding.

Dedicated to the Queen of Peace, the new church will be the home of the joint congregations and will have as its rector Father Wood.

The structure, on which work will be commenced shortly, will be the provisional church, which it is hoped to replace later by a permanent structure. With the completion of the building, the first unit will be turned into a hall.

A simple but dignified building, the new church will be eighty feet in length and thirty feet wide, and is designed by George Hutchinson.

St. Joseph's Church, Esquimalt, has had five rectors. Father Leterme was the first, while Fathers Nicolaye, Fisser, Silver and Wood served in the above order. Father Wood was rector at the time it was decided to tear down the old church and build a new one. For the past fifty-four years St. Joseph's Church has been the naval and military garrison church.

Clubs and Societies

Chemainus W.B.A.

The Chemainus Review, No. 18, Women's Benefit Association, held a delightful tea at the home of Mrs. Frank Work on Friday. The original plan had been to have tea served out in the garden, but owing to the unpropitious weather tables had to be set in the house. Most beautiful sweet peas decorated the rooms and tables. Among those who patronised the affair were Mrs. H. Smith, Mrs. Nicholls, Mrs. W. Cathcart, Miss E. White, Mrs. Bolderstone, Mrs. J. Cook, Mrs. Murray, Mrs. McInnis, Mrs. Waldon, Mrs. Philips, Miss E. Payne, Mrs. Hutton, Mrs. Stubbs, Mrs Greenhorn, Mrs. Bowden, Mrs. McKey, Mrs. Michell and her daughter Gertrude, Mrs. English, Mrs. G. Jacobson, Mrs. C. Cave, Mrs. A. Work, Mrs. Hallberg.

* * *

Holy Trinity W.A.

The regular meeting of the W.A. of Holy Trinity Church, Sooke, was held on Wednesday afternoon at the home of Mrs. Protheroe. Hon. Mrs. Bowen-Colthurst presided. A satisfactory report of the Summer sale held in Sooke Hall was given by the secretary. A sum of money will be sent to the treasurer of the Diocesan Board of Columbia for the stained glass window fund, also a sum was voted for a supply of hymn books for the church. The concert which is to be held in the near future will be discussed at a special meeting to be held at the home of Mrs. Throup, when a suitable date will be set. The work of painting the church is nearing completion, voluntary assistance being given. Those present at the meeting were Mesdames Colthurst, Cooke, Muir, Throup, Stacey, Protheroe, Locke and Hawkins. Tea was served in the shade of the trees by the hostess, assisted by her daughter, Mrs. W. W. Evans.

Mrs. Dudley Coats Is Bride of M. Field

LONDON, Aug. 18. — Marshall Field III, grandson of the famous Chicago merchant, was married today to Mrs. Dudley Coats, popular London society woman, at Marylebone registry office.

Announcements

Cakes from Masters' Bakery insure satisfaction to hostess and housewife. Fresh and fragrant, made from the very best materials, Masters' cakes have won instant approval through purity and delicious flavor. For wedding, birthday or anniversary the decorative designs are unexcelled anywhere. Ask at our two stores, on Cook and Government.

It seems such a pity that a face otherwise charming and attractive should be marked by disfiguring moles, when they may be removed with perfect safety. There is nothing whatever to be afraid of—Miss Hanman never undertakes anything she is unable to perform—and think how lovely to be free of them! 503 Sayward Bldg.

Your wedding requires the best in printing for your announcements, invitations, etc. Let us show you samples of our work at reasonable prices. The Colonist Job Printing Department. Phone 197.

Returns to Nanaimo

Miss Jennie Pollard, of Nanaimo, who has been visiting her brother-in-law and sister, Mr. and Mrs. J. Merr Duncan, Durban Street, left yesterday for her home, accompanied by Mr. and Mrs. Lewis H. Blakely, of Los Angeles, who are here from the South visiting Mr. and Mrs. Duncan.

WHEN YOU CAN'T GET FRESH MILK—TAKE KLIM!

Because KLIM will give you as much or as little milk as you want, whenever you want it. Simply mix KLIM with water, and you have milk; not a makeshift but real, fresh, dairy milk with ALL THE CREAM, all the nourishment and all the delicious flavour that you long for when you're miles away from the nearest dairy.

KLIM keeps without ice and is most economical to use. Take it along on your camping, boating or motoring trip. Keep a few tins at the summer cottage. Because it's in powdered form, KLIM weighs only about one-fifth as much as the milk it makes. Send 10c for a trial tin.

• • •

Miss Edna Woods, who has been spending the past few weeks on Gooch Island, has returned to her home, First Street.

• • •

Miss Helen Lidgate, Fourth Street, has returned to her home after an extended visit with relatives on the Mainland.

Snow Sherbet Proves Popular at Fair

The "Snow Sherbet" lady is at the exhibition again this year, with her great cone of luscious frozen fruit juices and her crystal bowls of a crushed pineapple, orange, cherry and lemon. With a deft toss of a glass into the cone of fruit snow, to which she adds a ladleful of the juice, she presents to thirsty customers a most delicious and refreshing drink. The invention was her own, and during the five years that she has been coming to the Willows exhibition, she had had many appreciative patrons, all of whom return to again dip into the cooling snow, into which are frozen the natural juices of the most delicious fruits.

Deposits in the British Post Office Savings Bank total over $1,420,000,000.

Dinner and Dance Given For Admiral Haggard and H.M.S. Despatch Officers

His Honor the Lieutenant-Governor and Miss Mackenzie entertained at dinner, followed by a reception and dance at Government House last evening in honor of Vice-Admiral V. H. S. Haggard, C.B., C.M.G., and officers of H.M.S. Despatch. The dinner table was beautifully arranged with pink dahlias and scabious, while shaded candles cast a soft light over the room. The guests were: Vice-Admiral V. H. S. Haggard, C.B., C.M.G.; Capt. F. W Attwood, R.N.; Hon. the Premier and Mrs. Tolmie, the Chief Justice and Mrs J. A. MacDonald Hon. R. H. Pooley and Mrs. Pooley His Worship the Mayor and Mrs. Anscomb, Brigadier and Mrs. J. Sutherland Brown, Commander and Mrs. L. W. Murray, Mr. and Mrs. R. J. Cromie, Miss Helen Fordham Johnson, Miss Betty Ward, Miss K. Knight, Lieut. R. A. B. Edwards, A. M. D. Fairbairn.

For the reception and dance which followed, the ballroom and drawing-room were profusely decorated with Summer flowers in a color scheme of gold and scarlet, golden-glow and scarlet gladioli being arranged very effectively. Major P. Hennessy, Lieut.-Commander A. Hope, Capt. H. M. McGiverin and Capt. W. H. Molson were in attendance, and A. M. D. Fairbairn announced the guests upon their arrival.

Miss Mackenzie looked very charming in a gown of apple green satin, with diamente trimming.

From Vancouver: Col. and Mrs. J. P. Fell, Col. and Mrs. R. Chaplin, Col. and Mrs. Hiam, Col and Mrs. Tobin, Major and Mrs. Montague Furber, Mr. and Mrs. C. Cotterell, General and Mrs. A. D. McRae, Col. and Mrs. A. T. McLean, Mr. and Mrs. George Martin, Mr. and Mrs. S. C. Sweeny, Mr. and Mrs. R. Bell-Irving, Col. and Mrs. Montizambert, Mr. and Mrs. F W. Peters, Major and Mrs. Ross, Mr. and Mrs. Blake Wilson, Mr. and Mrs. M. Blake Wilson, Jr., Mr. and Mrs. L. Baker, Col. and Mrs. Victor Spencer, Mr and Mrs. J. L. Turnbull and Miss Turnbull, Major and Mrs. Fordham-Johnson, Capt. and Mrs. R. W. Murray, Mr. Angus McLeod, Mayor and Mrs Malkin, General and Mrs. Stewart, Mr. and Mrs. E. Hamber, Mr. and Mrs. R. P. Baker, Col. and Mrs. Letson, Mr. and Mrs. G. Kidd, Mr. and Mrs. J. Peterson, Hon. Ian Mackenzie, Mr. Molson, Capt. Pritchard, Capt. Rooke, H. R. Pousette (San Francisco).

Shower Is Held

BRENTWOOD, Aug. 16.—Miss Myrtle Snider entertained on Saturday afternoon at a most delightful miscellaneous shower in honor of Miss Freda Durrance, a bride-elect, whose marriage to Mr. L. Rochon takes place on September 3.

The many beautiful gifts were placed in a gaily bedecked wheelbarrow and concealed in the shrub in the garden, where they were discovered by the guest of honor. After the gifts had been opened, refreshments were served on the lawn by the hostess, assisted by the Misses Gladys Durrance, Shirley Sluggett and Bertha Snider.

Among those present were: Mrs. J. Durrance, Mrs. J. Stewart, Mrs. A. Heyworth, Mrs R. J. Parsell, Mrs. Brandon, Mrs. Snider, Mrs. M. Ludlow, Mrs. D. Clark, Mrs L. Thomson, Mrs. J. W. Sluggett, Mrs. R W. Sluggett, Mrs. C. Butler, Mrs. Evans, Mrs. A. Guy, Mrs. W. Watt, Mrs. E. Rochon, Mrs. W. G. Wallace, Miss Anderson, and the Misses Evelyn Goddard, Anne Parsell, Madeline and Shirley Sluggett, Gladys Durrance, Bertha Snider, Phyllis Meber, Evelyn Snider and Lorna Thomson.

MUSIC IS BROADCAST OVER FAIR GROUNDS BY GIANT VICTROLA

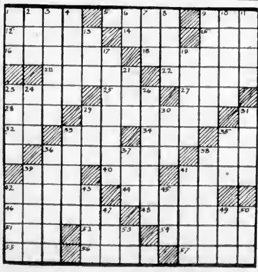

Crowds at the opening day of the Willows' Exhibition were treated to a musical novelty such as has never before been heard in Western Canada. Through the enterprise of Fletcher Bros., local Victor representatives, the world's largest Electrola Victrola was sent here especially for the Provincial Exhibition this week.

While the volume of music from this instrument is astonishingly great, it could be heard over the entire fair ground, yet it is so constructed that the music is perfectly enjoyed no matter how near the instrument one may happen to be. This is the same instrument which created such widespread interest when it was installed at Sunnyside Beach, Toronto's popular resort.

The music played yesterday comprised selections from the Victor record library, featuring popular dance numbers, songs, organ, band and symphony ensembles in which many of the world's most celebrated musical organizations were heard.

The giant Electrola Victrola plays at Fletcher Bros.' handsome exhibit in the Main Building every afternoon and evening this week, with an entire change of programme for each concert.

"COLOBAR"

Canada's Leading Rifle Shot Indorses Our Recommendation

(RECEIVED FROM MAJOR F. RICHARDSON)

Dominion of Canada Rifle Association, Suite 505, Ottawa Electric Bldg., Ottawa.

Harold S Timberlake, Opt.D.
Victoria Optical Co.

Dear Timberlake:

Yna were right when you made me take your choice of "Colobar." Sincerely I have never shot better or with more satisfaction. All my big shoots have been made without strain.

I just thought you would like to know that your handiwork had succeeded.

When I get home I will get you to make a larger surfaced pair.

Again many thanks for your interesting me in "Colobar." I am sure all the team will go in for them,

Sincerely,
(Signed) F. RICHARDSON.

Grains of Wheat and Rice

Shot from Huge Guns

To make them twice as delicious . . . twice as digestible

How exploding 125 million food cells makes Puffed Wheat and Puffed Rice as nourishing as hot cooked cereals.

HAVE you tasted this utterly different kind of cereal . . . Puffed Wheat and Puffed Rice . . . the crispest, crunchiest cereal on the market today?

Puffed Wheat and Puffed Rice are different because they're made differently. Choice full-flavored grains of wheat and rice are sealed in huge bronze guns. Then revolved in fiery ovens. This expands the natural moisture in the millions of tiny food cells. Then the guns are fired. Causing 125 million explosions in every grain.

Every tiny food cell is blasted open. The grains are made as completely digestible as though they had been cooked for hours. Hence Puffed Wheat and Puffed Rice are virtually as nourishing as hot cooked cereals.

These grains "shot from guns" become 8 times normal size. They have all the buttery crispness of fresh toast. They taste like sweet new nut meats. Never before was rich grain nourishment made so delectably good to eat. Order Puffed Wheat and Puffed Rice from your grocer today. The Quaker Oats Company.

Personals, Parties Visitors

His Honor the Lieutenant-Governor and Miss Mackenzie will leave for Vancouver this afternoon, where they will attend the dinner of the British Columbia Hospitals Association. They will return to Victoria tomorrow.

Visit Picture Gallery
Among those who visited the art section of the provincial exhibition at the Willows yesterday afternoon, showing special interest in the Canadian National Gallery pictures, were His Honor the Lieutenant-Governor and Miss Mackenzie, accompanied by Mr. A. M. D. Fairbairn and Capt. Hobart Molson, Miss Betty Ward (Vancouver), Miss Kathleen Knight (Jasper), Miss Helen Fordham-Johnson (Vancouver); Vice-Admiral Haggard, C.B., C.M.G., Captain Edwards, Captain Attwood, Captain Acton, Mr. and Mrs. E. C. Heyward, Mr. and Mrs. Izard, Miss Margaret Izard, Mrs. Charles Parker, Miss Kate Parker, Mr. George Parker, Mr. and Mrs. G. S. McTavish, Mrs. Peden, Miss Ashworth, Mr. F. B. Pemberton, Mr. C. P. Banfield, Miss Taylor, and many others.

Visitor Here
Dr. R. L. Stevenson, of Berkeley, California, who has been teaching at the Summer School in Vancouver for the past few weeks, motored from Nanaimo, spending Friday at his old home in Duncan, and continuing to Victoria, accompanied by his mother and by Mrs. McGregor, of Duncan, who spent the week-end at the Windermere Hotel. Dr. and Mrs. Stevenson left yesterday by the ferry from Sidney, and will return to Berkeley for a short time, later going on to the University of Arizona, where Dr. Stevenson has been newly appointed to a professorship. While in Victoria Dr. and Mrs. Stevenson were the guests of Mr. and Mrs. G. Bjornsfelt, Pemberton Road, and of Mr. and Mrs. J. R. Angus, Earl Street, renewing friendships of many years' standing.

Visitors Entertained
Mrs. J. C. McLennan, of Prince Rupert, is visiting her sister, Mrs. F. S. Clements, of Sasseenos. On Sunday, at the home of Mr. and Mrs. Clements, "Calomet," a reunion of former residents of the northern city took place in honor of the visit of Mrs. McLennan, and also in honor of Miss "Pete" Tremayne and Dr. Richard A. Stiefel, of Detroit, whose marriage takes place shortly. There were present Dr. and Mrs. H. E. Tremayne, Misses Dorothy, "Pete," Frances and Audrey Tremayne; Mr. A. R. Barrow, Mr. and Mrs. O. H. Nelson, Misses Madelene and Gertrude Nelson, Colonel and Mrs. J. H. McMullin, Miss McMullin, and Miss Constance McMullin; Dr. Richard A. Stiefel, Mr. and Mrs. Hugh Philpott, of Vancouver, and Mr. J. Ellis.

Returns Home
Mr. J. R. Simons, of St. Patrick Street, has returned from a ten days' visit to Mayne Island, where he was the guest of Colonel and Lady Constance Fawkes.

At Calgary
Mr. and Mrs. Rupert Wickson and family are enjoying a holiday motor trip to Calgary.

Is Miss Victoria in Canadian Reunion

—Photograph by Witsel.
MISS DOROTHY BAILEY
Daughter of Mr. and Mrs. H. C. Bailey, of Santa Monica, former residents of Victoria, who has been selected as "Miss Victoria" in the Canadian Beauty Contest in connection with the Canadian picnic and reunion of former residents of and visitors from Canada, the British Isles, Australia and New Zealand, held on Sunday, August 17, at Santa Monica, Cal. The affair was under the auspices of the Canadian Society of Southern California, Inc., and the Maple Leaf of California, Inc.

Leaves for Vancouver
Miss Julie Helen Heyneman, of San Francisco, who has been visiting here as a representative of the London headquarters of the English-speaking Union, a branch of which was organized locally yesterday, left by the midnight boat for Vancouver, where she will stay at the Georgia Hotel for a few days.

Returns to Edmonton
Miss A. P. Lawrie, of the staff of the Royal Alexandra Hospital, Edmonton, who has been the guest of Mrs. A. deWolf Moore, Elford Street, for the past few weeks, left on Thursday for her home. En route, Miss Lawrie planned to spend some time in Vancouver and at Lake Louise.

Leaves for California
Mr. Theodore Salmon, San Francisco pianist, left last night for Seattle, after several weeks' visit here, during which he has made many friends. He will sail tomorrow for San Francisco, but hopes to return here next year for another holiday.

Was Recent Visitor
Mr A. Hermanson, Swedish Consul at Winnipeg, and manager there for the Swedish-American Line, was a recent visitor in Victoria, accompanied by Mrs. Hermanson and their two daughters, he was the week-end guest of Mr. and Mrs. G. Bjornsfelt, Pemberton Road.

Afternoon Hostess
Mrs. E. G. Prior, St. Charles Street, was hostess at a tea party yesterday afternoon in honor of Mrs. Cavendish (London), Mrs. H. Oliver (Hongkong), Mrs. N. Williamson (Montreal) and Mrs. R. W Braide (England).

To Arrive From Scotland
Mrs. R. P. McLernan, with her second daughter, Agnes, and two sons, Bobby and James, will return from Glasgow, Scotland, where she has spent the past two years, at the end of this week to take up residence in the city.

Leaving for Vancouver
Mrs. H. R. Moore and Miss Barbara Moore, wife and daughter of Captain Moore, D.S.O., R.N., of H.M.S. Dauntless, are leaving for Vancouver today after a visit to Mr. and Mrs. D. L. Gillespie, Moss Street.

Returns Home
Friends of Mrs. J. F. Errington will be pleased to hear that she has recovered from her illness at the Jubilee Hospital and has returned to her home, 1421 Stadacona Avenue.

At Beach Hotel
Mrs. Horagio Walker, of Los Angeles, has arrived at the Beach Hotel, and will remain for about a month.

Return From Camp
Mr. and Mrs. C. V. Milton, of Cranleigh House School, have returned home after a few weeks at camp.

Johannesburg, South Africa, is adding fifteen buses to its municipal services, bringing the fleet up to fifty.

Women's Work Exhibition Attracts Many Visitors

Needlework, Handicrafts, Quilts and Rugs Are Proof of Talent of Exhibitors—Local Lavender Exhibited—Home Cooking Stall Arranged

Of special interest to women is the fine display of needlework which is to be seen in the Women's Building at the Willows Exhibition, and the very high standard of work won the notice of all those who inspected the various departments yesterday. The task of judging occupied the greater part of the day, and a great improvement in general style of work and its finish was commented upon by the judges. Mrs. Darcus had charge of the Women's Building, and the various departments were attractively arranged so as to show off the work to its best advantage. Fine hand-made laces, crochet work, beautiful cutwork, smocking, knitting, plain and fancy sewing were included in the interesting collection.

OLD LADIES' SECTION

The "old ladies'" section, which comprises work done by women over seventy years of age, revealed that aged eyes had lost little of their keenness, and aged fingers had busily plied the needle, knitting pin or crochet hook, with the result that some particularly fine work was on view. A pair of baby's bootees made by a woman of eighty-nine years was in the collection, and dresses, bedspreads, etc., showed fine sewing and clever design. One of the interesting exhibits was a baby's robe, made in 1870, the property of Mrs. W. I. Land, Burton Road, who had lent it for the exhibition. It is made of linen, with hand-made lace insertion and a quaint lace edging down either seam. Crocheted Afghans are evidently popular this year, for this class had several exhibits, all of bright color combinations, and some lined to give additional warmth. The tatted lace was a noteworthy exhibit, and a baby's knitted jacket, which has won prizes throughout the province, was a particularly beautiful example of lovely knitting. A new idea for crochet was to be seen in the round cushion, into which was worked gay wools in a pretty design. Some charming smocks and a baby's layette of the finest work were also greatly admired. The remarks made by the judge, and which were attached to each exhibit, telling why various articles were so judged, will doubtless prove of value to future exhibitors, for points of suitability of design, color scheme, and other points which are of importance were all taken into consideration in awarding the prizes.

HOME CANNING

The housewife's art was also to be seen in the collection of bottled fruits and vegetables, and the cakes, pies, bread, cookies, etc., were appetizingly arranged and most "professional" in appearance. Home-made candies were also on exhibition, and the art of fine laundering had its place in a special section.

QUILTS ARE ATTRACTIVE

Though not as large as last year, the collection of hand-made quilts is one of the most attractive of the building, and is to be seen upstairs. One could readily imagine the joy of a child in possessing the "alphabet" quilt, with its charming pictures and letters, quaint prints of soft coloring being appliqued with minute stitches. Another nursery quilt was made with attractive appliqued pictures, the quilting being particularly well done. The "grape" design in soft green and mauve coloring was one of the most artistic in the exhibition, and others were made in the old-fashioned "crazy quilt" designs and more conventional block and patchwork patterns. British Columbia wool had been used for some of the down quilts, which were arranged to show off to the best advantage the workmanship and designs.

Hand-made rugs of various kinds were much admired, some being made of braided silk stockings and braided wool, others of the hooked variety, showing some original designs and clever blending of color.

HOME-COOKING TABLE

A table of home-made dainties is to be found in the Women's Building, and under the auspices of the First Baptist Church, Mrs. Bradshaw acting as general convener. Yesterday she was assisted by Mrs. Beveridge. Other conveners during the week will be: Today, Mrs. Galbraith; Wednesday, Mrs. Slater and Mrs. Middleton; Thursday, Mrs. Ed. Middleton; Friday, Mrs. Dinsmore; Saturday, Mrs. Haverstock. Cakes, pies, buns and home-made sweets tempted many purchasers yesterday afternoon.

As a breath from a Summer garden comes the exhibit of Victoria Lavender, prepared by Mrs. Mascall, 1719 Oak Bay Avenue, and arranged in dainty sachets and handkerchief cases. It is specially prepared so that the natural oil of the lavender is retained and is of delicious sweetness.

Wedding Is Celebrated Up-Island

CHEMAINUS, B.C., Aug. 18.—One of the most picturesque weddings to be held in the district was that on Saturday afternoon when the Ven. Archdeacon Laycock united in marriage Elizabeth Joan Olive, youngest daughter of Mr. and Mrs. C. W. Dunne, of "Camp House," Crofton, and Mr. Arthur Shafto Appleby, of Vancouver. Never had the little Church of All Saints, Chemainus River, looked more beautiful, decorated by Mrs. A. Cook, Mrs. Hay and Miss Louise Watson, with masses of gladioli, and filled to overflowing with friends of the bride and groom. Upon the arrival of the bride, Mr. Willett, of Duncan, who presided at the organ, played the Lohengrin wedding march, followed by "The Voice Which Breathed O'er Eden," as, a radiant picture of girlish loveliness, she entered the church on the arm of her father. Her dress of soft white satin was sleeveless, and cut in a low V, back and front, with shirring at the waistline, the long flared skirt somewhat shorter in front. A long tulle veil fell to the ground and with this she wore a beautiful Honiton veil, a family heirloom lent by Mrs. Poole, sister of the bride. Her shower bouquet was of Ophelia roses, pale pink and white carnations and fern.

PRETTY ATTENDANTS

Miss Irene Kerr, of Nelson, was the bridesmaid dressed in a most becoming frock of pale green georgette in Kate Greenaway style, with transparent green hat, bouquet of pink carnations and maidenhair fern, and a crystal necklace, a gift from the bridegroom. Two little nieces of the bride, Jocelyn Williams-Freeman and Sylvia Poole, were fascinating flower girls dressed alike in Kate Greenaway dresses of white lace over white silk, with pink rose buds and white mob caps. They carried pale pink sweet peas and each held a doll dressed in frocks like their own. They also wore crystal necklaces, gifts of the bridegroom.

The groom was supported by his brother, Mr. Bernard Appleby.

RECEPTION HELD

During the ceremony "O Perfect Love" was sung and after the ceremony Mr. Willett played Mendelssohn's wedding march. Camp House had been most attractively decorated for the reception, quantities of gorgeous gladioli from the gardens of Mrs. Matthews, Westholme, being used both in the house and also in baskets on the terrace. Mrs. Dunne, attired in a handsome gown of crepe de Chine with insets of white, and hat to match, assisted the bride in receiving the guests. Following the cutting of the cake, General Gartside-Spaight proposed the health of the bride, this being responded to by the groom. The healths of the bridesmaid and the flower girls were proposed by Mr. Bernard Appleby, and that of the bride's parents by Ven. Archdeacon Laycock.

TO LIVE IN VANCOUVER

Following the reception Mr. and Mrs. Appleby left for Victoria en route to Gossip Island. Later they will make their home in Vancouver. The bride chose for her traveling dress, a green crepe Romaine ensemble, with ecru lace collar and cuffs, an ecru lace and straw hat, green necklace and a red fox fur, the latter a gift from the bridegroom. She carried a handsome fur coat, a gift from her mother.

Among out-of-town guests were the following. Mr. and Mrs. Appleby, Miss Appleby, Messrs. B. and F. Appleby, Mr. and Mrs. Henry Fisher, Mr. and Mrs. Atwell-King, Mrs. Stevenson, Mrs. E M. Mainguy, Lt.-Commander R. Mainguy, Mr. and Mrs. F. Barber-Starkey, the Misses Daphne and Molly Barber-Starkey, Mr. Noel Jones, Mr. H. Lake, Mr. Len Backler, Mr. J. Y Copeman, Mr. H. Good, Mr. Lambert Good, and many others.

Society News From Vancouver

Polo week was a busy week here, not only for the players but also for hostesses and guests. On Tuesday Colonel and Mrs. Chaplin, who had as their guests Major and Mrs. Douglas Macdonald, of Victoria, entertained at a party at their new home on Belmont Avenue. The affair was held in the spacious garden, where the long lawns were dotted with tables and chairs, which lent a charming informality to the gathering. The following night Mrs. J. W. Stewart was hostess at a dinner party at Ardvar. Later in the evening a dance was held at Jericho Country Club. Another dinner party given prior to the dance that night was when Mr. and Mrs. Laird Gordon entertained. Their guests were Colonel and Mrs. H. St. J. Montizambert, Major and Mrs. W. G. Swan, Mrs. R. W. Wood and Mr. E. J. Coyle. Other hosts were Mr. and Mrs. Arthur Hendry and Miss Alice Storrs and Major-General and Mrs. A. D. McRae.

For Miss Pound
Miss Dorothy Pound, who has since left for the East, was the guest of honor when Miss Betty Killam entertained at a buffet luncheon.

From Victoria
Mrs. Gordon Grant, of Victoria, is visiting her son-in-law and daughter, Mr. and Mrs. Kenneth Barr, Point Grey.

Return Home
After spending a week in Bellingham, the guests of Mrs. Larrabee, Mrs. Huntley Green and Mrs. Arthur Ray have returned home.

At Harrison
Mr. and Mrs. Fred Brown and family have left for Harrison Hot Springs, where they will spend the coming fortnight.

At The Ritz
Mrs. Donald Charleson is visiting her mother, Mrs. Walter Taft Hutchins, at The Ritz.

From Seattle
Mr. W. Farris, of Seattle, spent some time here during the week.

Dinner Host
Colonel A. T. Hiam entertained at dinner, honoring Dr. Karl Stevernagel, of Berlin. Guests included Colonel and Mrs. J. P. Fell, Colonel and Mrs. H. F. Tobin, Mrs. J. W. Stewart, Mr. and Mrs. E. W. Hamber, Mr. and Mrs. E. J. McMullen, Mrs. Philip Malkin, Mrs. S. Gzowski, General J. Lindsay and Mr. Lionel Huntington.

For Miss Maron
Miss Maron, of Philadelphia, recently made a trip to Alaska and on her return has been the guest of Mr. and Mrs. A. C. Maron. Mrs. Maron gave a luncheon for her visitor, and so did Mrs. E. P. Davis.

Returns Home
Miss Janet Drysdale, who has been spending the past fortnight in Victoria, has returned home.

At Treasure Island
One of the most delightful Summer homes is that of Mrs. Herbert Bingham at Treasure Island, near Horseshoe Bay, in Howe Sound. On Thursday Mrs. Bingham entertained Mrs. R. G. Macpherson, Mrs. Roy Brown, Mrs. W. J. Read, Mrs. D. J. McLachlan, Mrs. A. G. Creelman, Mrs. F. T. Schooley, Mrs. E. W. Anderson, Mrs. A. H. McNeill, Mrs. J. J. Thompson, Mrs. A. E. Munn and Mrs. Philip B. Tyrwhitt.

Farewell Party
As a farewell to Miss Betty Gordon, who is leaving shortly for Toronto to attend Branksome Hall, Miss Noreen Macaulay entertained at a dance on Friday, when a number of the younger set were present.

Returning Home
Mrs. Tucker Battle, who has been extensively entertained during her visit at the Coast, leaves Monday for New York to join Mr. Battle. En route she will visit her parents, Colonel and Mrs. A. E. Stroude, in Virginia.

Going to England
Miss Marion Robertson, daughter of Mr. and Mrs. Harold B. Robertson, who recently returned from a visit to England, will return there in the near future. She will be accompanied by Miss Margaret Witcomb. Miss Ursula Malkin is also leaving to continue her studies in music in Vienna.

Holds Reception
Mrs. J. R. Angus entertained at a large reception on Thursday in honor of Lady Willison, of Toronto.

Cathedral Scene of Noon Wedding

A quiet wedding was solemnized at Christ Church Cathedral at noon yesterday when Very Rev. Dean Quainton united in matrimony Enid Josephine, second daughter of the late Mr. Bernard George Ruddock and Mrs. Ruddock, Mears Street, and Mr. Edward Cooper, son of Mr. and Mrs. E. Cooper, Oliver Street. The wedding music was played by the organist, Mr. Stanley Bulley. The bride, who was given in marriage by Mr. James Dewar, looked charming in her long sleeveless frock of white georgette with full flared skirt shirred on the hips and uneven hemline. She wore a filmy veil of embroidered net confined to the head with a circlet of orange blossoms and carried a bouquet of Ophelia roses and white carnations tied with white tulle.

Her only attendant was her sister, Miss Jessie Ruddock, who wore a lovely frock of powder blue georgette cut in similar lines to that of the bride, and a large picture hat of shirred net over straw in pale blue and pink with long streamers of ribbon to match, and she carried a sheaf of pink sweet peas tied with pink ribbon. Mr. Ernest Dyson supported the groom.

The bride and groom left immediately after the ceremony for a honeymoon in Oregon and Washington, and on their return in about ten days will make their home on Wilmer Street, where they will hold a postnuptial reception.

The bride chose a smart ensemble for traveling, the princess gown of golden brown flat crepe being finished with ecru collar and cuffs, over which she wore a cloth overcoat with shoes and gloves to match and a French model hat in beige felt. Mr. and Mrs. Cooper were the recipients of many beautiful and useful presents, including a hand case of silver from the staff of the Pantorium, where the bride had been employed, and a silver fruit bowl and candlesticks from the staff of the Canadian Civil Service Commission, of which the groom is a member.

Picnic Play Day Planned Friday At Playgrounds

At a recent meeting of Victoria's playground directors held in the physical director's office at the Y.M.C.A., supervisors in charge of the various parks reported that great progress was being made.

It was decided to hold a picnic playday at each park on Friday. Each child attending is asked to bring a basket lunch. Demonstration of the various phases of the programme carried out during the Summer will be given by the children during the afternoon and all parents are cordially invited to witness it.

THOUSANDS ATTEND OFFICIAL OPENING OF VICTORIA FAIR

Continued from Page 1

Speaking of the relationship between the City Council and the British Columbia Agricultural Association, Mayor Anscomb said the council's duty had been well defined and the progressive development policy had been exemplified through assistance and co-operation in past years. He mentioned especially the recent completion of the new grandstand and race track and explained the manner in which the improvement had been attained, by an exchange of a twelve years' concession of racing for a new stand and track that had cost around $30,000.

NEW BUILDINGS PROPOSED

The future development, he intimated, would depend considerably upon the fate of the by-law to be submitted to the ratepayers at the December elections to authorize the council to expend a sum of money for the erection of two new buildings at the exhibition grounds. He said he had the assurance that the Provincial Government would contribute half the cost, or dollar for dollar with the city of Victoria. He estimated the expenditure would be close to $70,000, but, while improving the grounds, it would also give work in Winter to many of the unemployed. Under the arrangement, the mayor said, the Government would provide half the sinking fund and interest and provisions for the amount had already been included in the estimates.

LIEUTENANT-GOVERNOR

Following the mayor's address the Lieutenant-Governor was introduced to the assemblage. In a speech which carried the greatest optimism for the future of Vancouver Island and the Province of British Columbia, he congratulated the officers and directors of the association for their success in completing the fifty-eighth effort. Mr Bruce's address follows:

"Before declaring this exhibition open it is fitting that we should convey the heartiest of congratulations upon the occasion of this great gathering, to President Munsie and his executive of the exhibition. The signal success attending their efforts this year has been most marked. They have achieved the greatest and the most representative exhibition that has ever been held in Victoria, and they have established a new milestone in the history of the fair.

"I think we owe a very great debt of gratitude to these gentlemen for their unselfish efforts in giving so much of their time and ability. These fairs are of very far-reaching benefits to the growth and progress of our communities and the people who shoulder the responsibility of carrying them on.

"For fifty-eight years this fair has been held in Victoria, and who can measure the benefit that the community has derived? The quality and the number of the pedigree stock which today fills the pens is due in the main part to the show ring. Go and see the livestock for yourselves and remark the high standard that has evolved through the years. Not only does this apply to the stock, but also to the horticultural branches. Especially should we commend the progress made by the women's institutes and the growth and beauty of the collections of work in their exhibits.

INTERNATIONAL ASPECT

"We are very much gratified also at the international aspect that the show is now assuming owing to the many entries being made from south of the border. We are delighted to welcome these exhibits and also those from the Province of Alberta and Eastern points.

"A striking feature is the variety and extent of our industrial exhibits. In this connection it is interesting to note that the same industrial growth is taking place to the same degree throughout Canada, and that, whereas our agricultural growth has been 400 per cent since 1901, our industrial growth has increased 700 per cent. In other words, our industrial growth has far outstripped our agricultural growth.

"This has involved each year an ever increasing importation of agricultural products into the province, until last year it assumed the enormous total of $22,000,000, mainly made up of grains and meats and meat and milk products.

PEACE RIVER BLOCK

"The return of and the opening up and development of the Peace River block is destined to add materially to our agricultural wealth in this province and with direct rail and road communication to the Coast this will enable us to supply our own agricultural needs. It is hoped that this much-needed link between the Peace River district and the seaboard will be ready early in the future.

"We are gratified to have as visitors to the fair this afternoon, Vice-Admiral Haggard, and some of his officers of the Despatch, and we trust that the citizens of Victoria will show their appreciation of the hard work and the enterprise of the fair officials and the exhibitors by turning out during its progress in their thousands.

"I now have much pleasure in declaring the exhibition open."

Following the official opening the Governor was taken on an inspection tour of the various buildings by President Munsie and everywhere he expressed his admiration of the exhibits, particularly the floral display, which, it is said, is one of the best ever seen in a local show.

AN INSPIRING COLLECTION

The exhibition this year is credited with being the best in the history of the association, not only in the increased number of exhibits, but in the generous response from manufacturers, industries and other branches of endeavor in Victoria and the Island in general. The advent of competitors from "the other side of the line" is taken as a tribute to the value of the annual Victoria Fair as a standardized institution and its prestige on the Pacific Coast. The United States competitors are mainly in the livestock section, which has become one of the most important branches of the annual showing.

Every building on the spacious grounds is filled to capacity with exhibits of all descriptions and in some cases the directors found it impossible to grant space to intending exhibitors, so great has been the demand for accommodation. The grounds under the control of the association comprise sixty-five acres and all but a portion used for the parking of autos is at present in use in one way or another.

CROWDS COME EARLY

Long before the time set for the official opening the grounds were commencing to fill with spectators, who found the exhibits nearly all placed. By the noon hour most of the exhibitors had their goods on display and the merry midway tunes were beginning their grind. By the opening hour the ticket takers had clocked a fairly representative crowd for the opening day. As each car arrived from the city bringing scores of sightseers, a special constable was on duty inside the enclosure directing the increasing flow of automobile parties. Towards evening the crowds became greater and when the great flood lights were turned on the exhibition presented an inspiring sight.

Inside the main buildings people marveled at the wonderful displays of home-grown products, manufacturing exhibits, works of art, women's work, the latest creations in the automobile world, and the collections of products from the city and the district, the largest in point of numbers, ever to acquire space within the buildings. It was estimated by the officials of the fair that the exhibits this year exceed last year's by over three hundred. The quality is as good, if not better, than in previous years.

One of the points of interest in the buildings, especially to the agriculturist, is the district exhibition of products for the Tolmie Challenge Cup for annual competition. There are three entries in the exhibit—one from Victoria, one from Richmond and one from the Surrey district. Richmond won first and second places at the Vancouver Exhibition. The displays of local and imported art collections is also one of interest. In the collection is one from the National Art Gallery of Canada containing twenty-four pieces of work by noted Canadian artists. This is on loan to the exhibition for the entire week. A great deal of interest was noted in the work of the school children, crowds flocking to this section during the afternoon and evening.

LIVESTOCK IN PLENTY

In the livestock section there is more interest in evidence than in previous years. What was thought to have been a record last year was placed in eclipse by the big showing in all classes in the present exhibition. Space in the cattle building was at a premium, and extra accommodation had to be acquired for late entries. The competition in all classes is keen, and some excellent specimens of breeds are included in the enormous collection of high-class animals. This section of the annual fair has grown by leaps and bounds during the past few years, indicating the rapid growth of this branch of industry in British Columbia and on the Island.

Previous exhibitors of cattle showing again this year include the following from the Mainland: David Spencer, Ltd., Port Haney, Jerseys; E. Dunville, Chilliwack, Jerseys; Colony Farm, Essondale, Holsteins; Canadian Pacific Railway, Strathmore, Alta., Holsteins; W. Hornby, Armstrong, Guernseys; Captain J. C. Dun-Waters, Fintry, Okanagan, imported Ayrshires; A. E. Wells, Sardis, Ayrshires; O. E. Lewis, Chilliwack, Red Polls; Paul Ranch, Agassiz, Holsteins; John Tarves, Ladner, Shorthorns; A. Wright, Duncan, Jerseys.

Newcomers from the Mainland are: Chilliwack Calf Club with eleven head; B.C. University Farm, imported Ayrshires for exhibit only; Steeves & Gauer, of Lulu Island, Holsteins; McIntyre Ranch, Magrath, Alta., Herefords; Charles Turner, Kilgard, B.C., Herefords; J. Charles Yule, Carstairs, Alta., Beef Shorthorns.

Saanich breeders: Premier S. F. Tolmie, who shows a fine Holstein bull; Captain Gibson, Jerseys; H. E. Burbidge, Jerseys; J. Seath, Jerseys; James Turner, milking Shorthorns; R. Rendle, Holsteins. Newcomers to the show ring from Saanich include Major McDonald and Messrs. Austin, Williams, Miller, and G. Malcolm.

Special mention is made by patrons of the exhibition to the colorful display of flowers placed in exhibition, but not for competition, by the Victoria Horticultural Association. The showing takes up a portion of the main building and, with other exhibits, forms the central attraction.

EGG POOL DISPLAY

A new feature at the fair this year is the display by the British Columbia Egg Pool, under the personal direction of Major J. Brooke. The exhibit is in the poultry building and is being maintained by the Department of Agriculture. The public is invited to visit the exhibit, and all information concerning the operation and benefits of the poultry marketing scheme will be cheerfully explained by the attendants.

Holding a premier position at the exhibition is the poultry show in a special building, and the showing of rabbits, goats, sheep and swine.

A number of entertainment features have been provided by music and other dealers in the principal buildings. Music is carried to the outside by special arrangement of loudspeakers which were set in operation yesterday afternoon. The speakers were equipped by the Northern Electric Co., through the local representatives, and make a pleasing and distinctive improvement.

The B.C. Telephone has a special demonstration at the fair, the new automatic telephone. A working model of a group of four telephones is contained in one of the booths and is in charge of specially instructed operators from the Victoria exchange, who explain in detail the operation of a call from the time the receiver is taken from the hook to the answer at the other end of the line. The model is so arranged that each operation in connection with a single call is seen through glass panels. The new system of automatics is to be installed in Victoria shortly. The demonstration was interesting and instructive.

ALONG THE MIDWAY

The old saying that a fair is never complete without a midway still stands, as evidenced by the crowds which lined the lanes of entertaining and amusing devices during the afternoon and evening. The Browning Shows, which have been playing the Victoria Fair for the past few years, provide a number of the old thrills as well as some new ones. The Ferris wheel, an old thriller, was well patronized. The Lindy coaster provided fun for those who were on and those off. The midway has the usual collection of speculative devices and games of chance, as well as the fortune teller, the snake charmer, Georgia Blossoms who sing and dance, the mystery house, athletic displays by strong men and scores of other places of amusement indicated by brilliant banners. Pink lemonade, the desire of every young one, candy floss under various new names, peanuts, popcorn and the succulent hot dog, as well as a score or more ice cream stands serving on sticks and in cones. Refreshments in galore and "meals at all hours" signs beckon the hungry. And all through the clanking and clanging, the shouting and barking, come the old familiar strains of the new type barrel organ of the merry-go-round, one of the oldest of rides known to the circus and show fraternity. The concessions were well conducted and the balance of the week promises high glee for those who are young and those who are old and want to be young.

No time was lost in getting the judging under way and sharp at 1 o'clock yesterday afternoon a corps of judges attacked the vegetable and agricultural sections and will continue their work steadily, in order to have awards posted for the winning exhibits as early as possible. The judges anticipated a heavy task because of the quality of the exhibits and the possibility of close decisions where points are required.

EVENTS OF THE WEEK

On Wednesday evening, commencing at 8 o'clock, the band of the Fifth British Columbia Coast Brigade will give a concert in the main building. The band is giving its services free to the public. C. A. Raine is the band conductor. A programme of classical and popular numbers will be given.

The children's judging contest of vegetables and flowers will commence at 10.30 today in the main building. Entries for this event will be received up to the time of judging.

On Wednesday afternoon at 3 o'clock there will be a stock parade in the inside oval. In the oval daily will be a demonstration of six-horse teams, the competitors from outside being the Mainland Transfer, of Vancouver; F. Burge, of Albany, Oregon, and A. C. Ruby, of Portland, Oregon. The demonstrations will start at 2.30.

Arrangements have been made for two horse shows, one on Wednesday and one on Thursday nights, commencing at 8 o'clock in the horse show building. Dr. McKay, of Calgary, will judge the shows.

The annual meeting of the British Columbia Agricultural Association will be held Friday night at 8 o'clock at the grounds.

Announcement was made yesterday afternoon that the horse judging would take place today, starting at 10 o'clock. The following is the programme set out by the committee:

10:00 a.m.—Classes 1 to 11, Clyde stallions.

10:10 a.m.—Classes 80 to 86, thoroughbreds.

11:00 a.m.—Classes 6 to 9, Clyde mares.

11:30 a.m.—Classes 18 to 26, Shire mares.

2:30 p.m.—Classes 14 to 24, Shire stallions.

3:00 p.m.—Class 30, six-horse teams.

3:30 p.m.—Classes 53 to 57, agricultural class.

By rearrangement the light and heavy horses in competition at the fair will have different settings. It has been decided to hold a horse show in the Horse Show Buildings on two nights, Wednesday and Thursday, commencing at 8 o'clock. With the exception of thoroughbred classes, all saddle horses, hunters and jumpers, will go through their paces on these two nights. A very attractive two-night show has been drawn up.

The heavier classes of horses will be judged in a ring located at the south end of the infield of the old racetrack. Judging of the thoroughbred and standard bred classes will commence at 10 a.m. on Tuesday morning and will be judged by Dr. McKay, of Calgary. The remainder of the judging in the open, morning and afternoon, and all heavy classes will be judged by J. T. Turner, of Victoria. The six-horse teams in the driving competition will be featured each day about 2 p.m. Wednesday at 3 p.m. brings out the stock parade and at 4 p.m. some classes of the heavies will be judged.

AFRICAN RAILWAY BUSES

Government railways are adding more buses to their extensive highway transportation system. In addition to the 450 vehicles operated over 280 routes, two long-distance services have been started in the Southwest African territory. Last year fifty-one new routes, covering a distance of 2,300 miles, were added, and more are being planned. It is pointed out that in sixty-seven years the railways developed a mileage of nearly 13,000 and in six years the road motor service increased to more than 13,000 miles.

See the Dial Telephone Demonstration

At the Exhibition

August 18 to 23

Visit our booth in the Manufacturers' Building, where a staff of demonstrators will show you how to use the dial telephones which will come into use in Victoria late this year.

Some of the intricate automatic telephone apparatus which is being installed in our central exchange on Blanshard Street in preparation for the new system has been set up in the booth. As you use the dial telephones there you will see this equipment handle your calls without the aid of human hands.

B.C. LAWN BOWLING TEAM WINS FOR CANADA

England Makes 405 in First Innings and Australia 215 for Two Wickets

REID, MOORE DOWN SOUTH AFRICANS IN EASY FASHION

Vancouver Pair Scores 24-10 Victory—Canada and England Capture Two Firsts, While Scotland Takes Rink Event at Lawn Bowling Opening at Empire Games

Phillips Wins High Diving Title; Montreal Swimmer First in Freestyle

HAMILTON, Ont., Aug. 18.—Aquatic sports and lawn bowling held the spotlight at the second day of the British games. A full day's programme of canoe races and lawn bowling competition claimed the divided attention of spectators under the same ideal weather conditions that have favored the games twice since their opening. A stiff breeze along the waterfront that whipped a choppy surface on Hamilton Bay, however, caused a postponement of two of the canoe events—the one-mile war canoe Canadian championship and the intermediate single blade singles.

The Lachine Racing Canoe Club, of Lachine, Quebec, held an unbeatable point advantage over all rivals when the day's competition had ended. The Easterners had gathered in twenty-six points, as against nine for Balmy Beach, of Toronto, and eight for Sudbury and Gananoque. Parkdale, of Toronto, had amassed seven, while the rest were scattered, with Island Aquatic, of Toronto, gaining five, St. Lambert's, Quebec, five, and Grand Trunk, of Montreal, and Ottawa, New Edinburgh, two each. Single blade events only counted in the scoring totals, the events ranking as Canadian championship affairs.

CANADA, ENGLAND EVEN

Canada and England were on even terms in the bowling competition, each having scored two victories, against one loss. The Canadians were successful in the rink and doubles events, while the Mother Country won in the doubles and singles. Scotland, the only other country to post its name on the victory board, came through to win a rink event.

New Zealand succumbed to the Old Country in the bowling doubles this morning by 20-12, while Canada scored a marked win over South Africa, 24-10. The Vancouver pair, A. S. Reid and W. W. Moore, were the winners for the Dominion. The morning singles went to the Mother Country when England triumphed over South Africa, 22-12.

The rinks competition this afternoon saw victories for Scotland and Canada, the Trundlers from the land of the thistle overcoming New Zealand's quarter by 20-11, while the Dominion's representatives, the Hamilton Victorias, skipped by Harry J. Allen, won over England by 27-16. Reid, Vancouver, was unable to follow up his doubles victory in the morning and lost in the afternoon singles to Thomas, of South Africa, by 21-7. The bowling events will be continued tomorrow, both morning and afternoon.

THOUSANDS LINE COURSE

Several thousand persons lined the waterfront today as the aquatic events got under way. From early morning, when the first of the canoe events were held, until far in the afternoon the throngs increased. Interest in mid-afternoon suddenly shifted to the high diving tower, where the Empire diving competitions were held.

Only two entrants appeared for the women's contests, and victory went to Miss Pearl Stoneham, of Montreal, with Miss Helen McCormack, of Toronto, placing but a single point behind her in the judges' scoring.

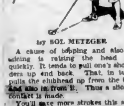

Alfie Phillips, Canadian champion and the Dominion representative at the last Olympic games, repeated his springboard diving victory of Saturday night, by adding the high diving title. Phillips' success came as no surprise.

MONTREALER WINS

Canada's women's swimming stars bowed to those from England in both women's events, but the men representatives of the Dominion annexed for Canada the other two events on tonight's card. England's relay team opened the evening with a victory in the 400-yard event, and Miss Joyce Cooper scored the Old Country's second victory in the 100-yard back stroke for women. Munro Bourne, Canada's sprint star from Montreal, and Jack Aubin, of Ottawa, placed Canada on an equal footing with the Mother Country by winning, respectively, the 100-yard free style and the 200-yard breast stroke.

Tomorrow's programme presents a complete round of competition. From morning till night international and Empire rowing championships will feature the aquatic card, along with the international canoe championships and international yachting. The Canadian women's athletic championships will be held at the stadium in the afternoon, and another card of swimming events at the bathing pool at night.

Raising of Head Causes Slicing

By SOL METZGER

A cause of topping and also of slicing is raising the head too quickly. It tends to pull one's shoulders up and back. That, in turn, pulls the clubhead up from the ball and also in from it. Thus a slice if contact is made.

You'll save more strokes this season keeping your head down than in any other way. Why not try Walter Hagen's stunt with the head? "The Haig" cocks his to the side and looks down at the ball with the left eye.

The reason is plain. You are less likely to raise the head, as you slightly brace the neck to prevent this error occurring. Combine that with a braced left leg and the right elbow in position and you'll find the slice is being cared for to a nicety.

FORDS WILL CLASH WITH ALL-STAR NINE

Garage Baseball League Champs to Meet Picked Squad Tonight in Benefit Game

A team composed of players from the Buicks and Dodges will meet the Fords, Garage Baseball League champions, this evening at the Royal Athletic Park at 6 o'clock in a benefit game for Bob McIlmoyl, caretaker, who was injured by a pitched ball in a recent Garage League fixture.

Walter Battison or Ed. Miles will go to the mound for the all-stars, while the veteran Doc Todd will do the heavy work for the Fords. Following the game a base-running competition will be held for the loop championship. The winner will receive a special prize donated by Whittaker & Revercomb, Limited. Ed. Revercomb will act as timekeeper.

Canada's Rowing Team for Empire Games Given Out

ST. CATHARINES, Ont., Aug. 18.—Canada's rowing team for the British Empire Games has been chosen as follows:

Heavy eights—Leander Rowing Club, Hamilton, Ont.

Fours—Jubilee Rowing Club, Halifax, N.S.

Fours with coxswain — McGill University, Montreal, Que.

Doubles—E. Bole and R. W. Richards, Winnipeg, Man.

Singles sculls—Joe Wright, Jr., and John Durnan, Argonaut Rowing Club, Toronto.

Bernie Schwengers Breaks Course Mark At Comox Golf Club

B. P. "Bernie" Schwengers, Victoria, had his clubs behaving in grand style Sunday, at the Comox Golf Club, when he breezed around the layout in 32, three under par, to establish a new course record. Schwengers displayed his fine round in the morning while playing in a foursome with Thomas Graham, R. Filberg and M. Graham. In the afternoon, while playing with Filberg, Schwengers duplicated his forenoon performance.

BETTY NUTHALL TAKES OPENING MATCH EASILY

English Net Star Defeats Louise McFarlane in Straight Sets

U.S. FAVORITES WIN IN DECISIVE STYLE

FOREST HILLS, N.Y., Aug. 18.—Betty Nuthall led the parade of the favorites through the opening round of the forty-third national women's tennis championship on the turf of the West Side Stadium today.

The English challenger turned back Louise McFarland, of Pasadena, by scores of 6-0, 6-1, in a one-sided encounter that lasted less than half an hour.

Two of Miss Nuthall's leading United States rivals, however, won by scores as decisive as hers. Mrs. Anna Harper, the left-handed San Francisco veteran, who was seeded first among the United States players, crushed Dorine Chase, of Boston, 6-0, 6-1, and Sarah Palfrey, of Brookline, Mass., outplayed Laura Pittenger, of Camden, N.J., 6-1, 6-0.

In the draw for the national championship doubles, which will start tomorrow, the following four teams were seeded among those that will compete: 1, Miss Nuthall and Sarah Palfrey; 2, Edith Cross and Mrs. Harper; 3, Josephine Cruickshank and Marjorie Gladman; 4, Penelope Anderson and Marjorie Morrill. This title was won last year by an English team and Miss Nuthall hopes to take half of it back to England again.

K. C. ALLEN QUALIFIES IN BANFF TOURNEY

Victorian Checks In With 90 in Medal Round for Prince's Trophy

HARGREAVES AND FRASER IN GROUP

BANFF SPRINGS HOTEL, Alta., Aug. 18.—The qualifying round for the Prince of Wales Golf Trophy, premier event of the first annual week of golf at Banff, finds all Canadian provinces that entered having one or more to qualify. Jack Fraser, of Vancouver, turned in the best card, a 77. Qualifiers follow: J. Fraser, Vancouver, 77; J. Hargreaves, Vancouver, 78; W. J. "Bill" Thompson, Toronto, 79; Dave Arnott, Winnipeg, 81; V. W. Hague, Calgary, 83; Dan Kennedy, Winnipeg, 84; O. P. Schaeffer, Chicago, 86; Leon A. Clark, Piedmont, Cal., 87; L. Walliver, Red Deer, Alta., 87; L. C. Steward, Jr., Washington, D.C., 88; O. S. Lyon, Toronto, 88; K. C. Allen, Victoria, 90; P. Christou, Banff, 90; A. B. Robinson, Louisville, Ky., 90; O. H. Steer, Edmonton, 91; G. W. Roenisch, Calgary, 91.

The draw for the championship flight follows:

J. D. Fraser vs. L. Walliver.
O. W. Hague vs. P. Christou.
O. P. Schaeffer vs. O. H. Steer.
W. J. "Billy Thompson vs. L. C. Steward, Jr.
D. Arnott vs. K. C. Allen.
Dan Kennedy vs. A. B. Robinson.
Leon A. Clark vs. G. W. Roenisch.
Jack Hargreaves vs. O. S. Lyon.

REGATTA IS HELD AT GANGES HARBOR

Keen competition was witnessed in the annual regatta held recently at Ganges Harbor, under the auspices of the Ganges Athletic Club. A large crowd attended and the results follow:

Launches, over twenty-five feet, C. Tognobel; over twenty-five feet, L. O. Tolson. Outboard motor race, L. O. Tolson. Hundred yards, club members, Peter de Turczynowicz. Men's rowing, E. Beddis. Men's rowing, fully clothed, club members, L. Mowat. Fifty yards, fifteen and under, M. Mowat. Women's rowing, Nancy Elliott. Two hundred yards, club members, Paul de Turczynowicz. Twenty-five yards, under twelve, D. Parsons. Men's diving, L. Mowat. Fifty yards, girls under fifteen, Peggy Rowan. Fifty yards, boys under seventeen, J. Goldie. Fifty yards, club members, Paul de Turczynowicz. Twenty-five yards, girls under twelve, R. Goodrich. Seahorse race, L. Jenkins. Fifty yards, women, Nancy Elliott. Hundred yards, men, open, Peter de Turczynowicz. Diving, boys under seventeen, C. Mowat. Diving, under twelve, K. Goodrich. Thirty-five backstroke, club members, Peter de Turczynowicz. Diving, women, D. Rowan.

At post 4 mins. Off at 2.42. Time .23½, .50, 1.03½. Weather clear. Track slow. Start good. Won driving.

Tenase, revealing speed and willingness, forced the pace until turning for home, where she came on the outside of the leader, raced the latter into defeat, but was hard pressed by Rag Bag, who began sluggishly but closed fast. Sis Turpin saved ground to eliminate Macushla II. Oregon Mist ran a dull race throughout. Winner entered to be claimed for $500.

Scratched—4202 Springfield, 4228 June Star, (4218) Glad Alice.

4253—SECOND RACE—Purse $300. For maiden two-year-olds. Purse divided: First, $190, second, $60, third, $30, fourth, $1d. FOUR FURLONGS.

Bonnie Day	—	—	$3.82	O. Billerman

At post 6 mins. Off at 3.16. Time .24½, .50½. Weather clear. Track slow. Start ragged. Won driving.

Miss Dick, outfooted from the chute, quickly picked up the leaders nearing the turn off the back stretch but was hard pressed by Flirtiges, who saved ground on the rail and carried the challenge to the wire. Bonny Day just did hold off My Poste. Ruth's Babe was away in a tangle but took after the field. Nanaimo ran extremely wide. Both pulled up nearing the stretch.

Scratched—Plenty Money. Overweights—Miss Dick (2), Bonnie Day (1).

4254—THIRD RACE—Claiming. Purse $300. For four-year-olds and older. Purse divided: First, $190; second, $60, third, $30; fourth, $15. FIVE AND ONE-HALF FURLONGS.

At post 4 mins. Off at 3.44. Time .23½, .50½, 1.12½. Weather clear. Track slow. Start good. Won driving.

Bull Run starting slowly and carried out on the first turn began moving up nearing the turn off the back stretch and uncovering much speed, headed Tatters, who saved ground and forced the leader to the finish. Flatfoot, outpaced and suffering from lack of racing room in the early stages, gradually made up ground. Grand Polly was in close quarters on the far turn. Winner entered to be claimed for $500.

4255—FOURTH RACE—Claiming. Purse $300. Four-year-olds and older. Purse divided: First, $180, second, $60, third, $3d, fourth, $1d. FIVE AND ONE-HALF FURLONGS.

At post ½ min. Off at 5.44. Time .24½, .49½, 1.18½, 1.48. Weather clear. Track slow. Start good. Won driving.

Eagle's Home, breaking well, was quickly in contention and wresting the lead from Starwhim the first time through the home stretch, was hustled to hold off Nelda Jo, who started a vigorous bid on the final turn and was gaining. Missoula Boy, from well back, closed fast. Starwhim tired. Winner entered to be claimed for $800.

Scratched—4300 Flashy. Overweights—Billy Wale (1).

BAT BATTALINO WINS

HARTFORD, Conn., Aug. 18.—Bat Battalino, of Hartford, featherweight champion of the world, tonight won a ten-round decision over Bud Taylor, of Terre Haute, Ind. Battalino's title was not at stake.

Local Terrier Wins Honors in Vancouver

The Scottish terrier Os Grouse o' Balgowine, owned by Mrs. Narlien, Victoria, which has been the object of so much admiration in the dog world since he started his winning career at nine months, added another win to his unbeaten record by capturing first place in his class in the Canada Pacific Exhibition in Vancouver last week.

Contenders for City Golf Title Show Fine Form

BOB Morrison, defending champion, Jack Matson, Art Beasley and Bill Pomeroy all turned in good rounds Sunday at the Uplands Golf Club while practising for the city golf championship which gets under way Sunday with the qualifying round. Matson and Morrison romped around in 73 each, while Pomeroy checked home with a 75 and Beasley a 77. Entries are coming in fast, and a record number is expected when the list closes Friday.

TOWNSEND WINS DECISION OVER VETERAN GLICK

Lightweight Champ of Canada Given Unanimous Verdict by Judges

BROOKLYNITE SHOWS WONDERFUL GAMENESS

TORONTO, Ont., Aug. 18.—Billy Townsend, Canadian lightweight champion from Vancouver, defeated Joe Glick, the Brooklyn pantspresser, in a torrid ten-round bout that featured the Shamrock Athletic Club's boxing show here tonight. The unanimous decision of the three judges in awarding the hard-hitting Pacific Coast blond the decision did not meet with the general approval.

The unusually large crowd booed consistently. Glick's gameness under a terrific barrage of hard rights and lefts had won him a host of admirers.

Glick was undoubtedly the better boxer of the two and early in the bout he opened up a nasty cut over the Canadian champion's left eye. He possessed too much experience for Townsend to land his haymaking right in the early rounds, and after the Vancouver boxer had taken the lead in the first three rounds by use of a jolting straight left to the stomach Glick rallied cleverly and took the fourth by a wide margin.

In the fifth the Brooklyn tailor was outboxing Billy when he landed a swing below the belt and Referee Lou March, Toronto, fined him $100. This seemed to take considerable effectiveness away from Glick and Townsend soon had him in trouble. The American proved a tough customer, however, and rallied splendidly following the Canadian's frequent fusillades of smashing rights and lefts to the stomach.

GLICK GROGGY

In the eighth round the Vancouver boxer finally landed his dynamite-laden right to Glick's jaw and the Brooklynite reeled groggily about the ring, but managed to hang on.

The start of the ninth had the crowd cheering lustily as the Canadian swept in on his opponent seeking to place the knockout punch. Flailing Glick with hard rights to the head it seemed certain the bout would terminate at this stage. The Brooklyn boxer again won the admiration of the crowd, however, by rallying and outboxing Townsend.

Both men fought furiously in the final round with honors about even. The Canadian Press score sheet gave Townsend five rounds, Glick three, while two were even.

TOMMY McBEIGH WINS

Tommy McBeigh, Vancouver flyweight, and Johnny Moran, Pittsburgh, provided the best match of the three six-round preliminaries. The Canadian won the unanimous decision, having a slight margin over the game Smokey City youngster in every round but the first. McBeigh weighed 105 3-4 and Moran 112 1-2.

"RUDY" GRAUER TO ACCOMPANY TEAM ON MANN CUP INVASION

NEW WESTMINSTER, Aug. 18.—"Rudy" Grauer, reeve of Richmond, and a member of a lacrosse family well known on the Lower Mainland, will accompany the New Westminster Salmonbellies on their Eastern trip in quest of the Mann Cup. The president of the British Columbia Lacrosse Association has been accepted as one of the official referees of the tour. He is a brother of Carl Grauer, defence man on "Grumpy" Spring's team. Dan McKenzie, who managed the Olympic team, will also accompany the Salmonbellies.

Jack Wood, injured in one of the soccer playoffs at Winnipeg early in the month, will likely be a member of the lacrosse team after all. Wood's knee is improving and while he will not be able to cover much territory, it is planned to use him at inside home.

Willis Patchell, however, may not go East. His wife recently underwent a serious operation and it is doubtful whether he will be available. Should Mrs. Patchell show improvement and if the Royals enter the finals, the star defence player will leave New Westminster in time to get in on the Toronto series.

EX-QUEEN'S COACH SUFFERS STROKE

BROCKVILLE, Ont., Aug. 18.—Guy Curtis, celebrated Queen's University football and hockey player of the nineties, suffered a paralytic stroke yesterday at Delta, where he has lived since his retirement from athletics.

Nearly 100,000 bicycles with a small motor attached were sold in Germany in the last twelve months.

Aussies in Strong Position in Fifth Test Cricket Match

Antipodeans 190 Runs Behind Home Team With 8 Wickets in Hand—Fairfax Bowls Deadly—Woodfull and Ponsford Make Stand

(Canadian Press Cable)

LONDON, Aug. 18.—Australia were in a happy position at the end of today's play in the cricket test match with England, at the Kennington Oval. With eight wickets in hand they are only 190 runs behind England's first innings total. England made 405, and when stumps were drawn the Cornstalks had put on 215 for the loss of two wickets.

The Antipodeans owed their fine position to the great bowling of A. Fairfax this morning. He had an average for today of three wickets for 22 runs, and his victims included Herbert Sutcliffe and R. E. S. Wyatt. As it was they set up a new record for an English sixth wicket test match partnership with their 170.

The old record had stood since 1908, being made at the Oval by R. H. Spooner and J. T. Tyldesley.

W. M. Woodfull and W. H. Ponsford gave Australia a great start off, hitting up 159 for the first wicket. They were lucky, because O. Duckworth, usually so sound behind the stumps, had an off day and thrice blundered. He missed Woodfull before he had scored half a dozen runs and should have stumped Ponsford when he was 45. None of the chances were difficult. Maurice Tate was the unlucky bowler for two of the errors and his bad luck seemed to dishearten him.

It remained for I. A. R. Peebles to redeem the English attack. He was responsible for the dismissal of both Ponsford and Woodfull. The former he clean bowled, while Woodfull was caught at the wicket.

Ponsford's century came as a surprise after his early escape. However, they failed to dampen his enterprise and he cut, drove and hit to leg with fine precision. His effort was really courageous, as it was learned that in the latter part of his innings he suffered from internal pains and had to be given a stimulant during the tea interval.

Ponsford completely overshadowed Woodfull, who, nevertheless, played a correct game under the circumstances.

The success of Peebles held Don Bradman, Australia's dashing young batsman in check, and he was actually made to look awkward. He played out time with Kippax, but he was most subdued.

Clarence Grimmett, Australia's star bowler, set up a record of twenty-eight wickets taken during a test series in England, beating E. A. Macdonald's twenty-seven in 1921.

Starting out in brilliant sunshine, the game ran into rainy weather during the afternoon, and a halt had to be called owing to a shower, and again owing to bad light.

The attendance figures were estimated to be larger than Saturday's, when over 35,000 packed themselves into the enclosure.

Scores:

England—First Innings

Grantham Can Take Them Both Ways

By AL DEMAREE
(Former Pitcher, New York Giants)

George Grantham, of the Pittsburgh Pirates, is one of the few "turn around" hitters left in baseball. There have been a number in the past and a few present-day ones, Frank Frisch, of the Cards, being one. A "turn around" hitter is one who bats left hand against right hand pitchers and right hand against southpaws.

"When I started out," said Grantham, "I felt that I simply couldn't hit left-handed pitchers, so I switched over to the other side of the plate and went at them right-handed. And I did pretty well, too. I can hit right-handed better than I can left-handed right now, but the trouble is I can't get hold of the ball so well. And besides, it mixes me all up in taking my stride to first base. I bat left-handed mainly to get the use of my speed. When I shift over to the other side of the plate I lose a step.

"But even now I make the shift once in a while for luck. When a southpaw has my number and I know it, I feel that I've got nothing to lose, so I shift to the right side of the plate and see what happens."

COOPER CAPTURES $10,000 TOURNEY

Chicago Professional Checks In With Total of 280 to Head Home Select Field of Golfers

By PAUL NICKELSON
Associated Press Sports Writer.

ST. PAUL, Aug. 18.—Once again "Light Horse" Harry Cooper, comet on the fairways, has definitely established himself as a power to be reckoned with in the realm of golf.

The diminutive Chicago professional, one of the game's great stars of yesterday, stepped up another rung on the comeback ladder yesterday by conquering a brilliant field with par-shattering golf to win St. Paul's first $10,000 open championship over the wind-tossed Keller Country Club course.

To accomplish his triumph, Cooper toured the 72-hole stretch in 280 strokes, eight under par, and three strokes better than his closest rival, Tony Manero, of New York. It was one of the smartest cards the game has ever known.

A sensational 31, five strokes under par, on the second nine holes of his third round, pushed the dashing caballero over the top. He took a 37 on the outward trip of the round for an 18-hole of 68 strokes that gave him a one-stroke lead over Manero, which he stretched two more strokes with a fine 70, two better than par, on his final round.

Cooper's four rounds were 69-73-68-70.

Horton Smith finished third with a 285 total. The renowned New York professional finished the three-quarter mark seven strokes behind Cooper, but ended with a 68 that brought him the $1,500 third place money. Manero's score netted him $2,000.

HAGEN IS FOURTH

Walter Hagen landed fourth with a 286 score.

Gene Sarazen, New York professional, who established a course record with a 67 on his first round only to fall a victim of the wind and loose putts, finished in fifth place deadlock with Charles Lacey, the young Briton from Clementon, N.J., who upset the National open field at Interlachen by tying Bobby Jones at the end of the second round. Each scored 288.

Johnny Goodman, Omaha amateur who conquered Bobby in the first round of the 1929 National Amateur, led the amateurs and tied Tommy Armour, of Detroit, Western Open champion, for fifth with 289.

Other prize winning totals were: Al Espinosa, Chicago, 292; Harold McSpaden, Bethel, Kansas, 293; Johnny Farrell, New York, and Ed Dudley, Wilmington, Del., 294; Sonny Rouse, Chicago, 295; Bill Mehlhorn, 296, and Johnny Dawson, Chicago, 297.

Virtually all of the leaders today were en route to Detroit for the Western Open championships this week.

Big Bill Tilden Shows Gameness At Newport Meet

NEWPORT, R.I., Aug. 18.—Big Bill Tilden, suffering from injuries that made every step a painful one, today called upon his great wealth of tennis experience to turn back Ellsworth Vines, rising young Californian, in the veteran's first match in defence of his Newport Casino invitation singles championship.

This match was the most thrilling encounter of the thirty-six first and second round matches that were completed before an early evening shower put a stop to the play. The small opening day gallery saw the seven times national champion, who had been top seeded, limp through a fierce twenty-four game battle with the cool youngster before overcoming him by margins of 5-7 and 8-3.

Marcel Rainville, Montreal, defeated Howard Voshell, New York, 12-10, 6-4 in a second round match.

Nearly 100,000 motorcycles were registered in Italy in the last twelve months.

WARSINA RETURNS RECORD STRAIGHT PRICE

Sons of Canada Take Stranglehold on City Baseball Pennant

Rank Outsider Wins Sixth Event to Pay $345 for Nose Ducat

Rewards $106 to Place Ticket-Holders—Price Is Largest in History of B.C. Racing—Close Finishes Thrill Crowd

All record straight and place prices for British racing went into discard yesterday at the new Willows layout, when Warsina breezed home a winner in the sixth race to return the staggering price of $345.40 for a $2 nose ducat, $106.95 for a second place pasteboard. The previous mark was set here about five years ago when Trulane returned $206 for a win ticket.

When Warsina's prices went up something like a volcanic eruption took place among the crowd in the stands. Wild shrieks of joy came from the few who had the nerve to think that Warsina would even be close to the field of nine, while others gasped for breath and almost passed out.

The winner was the longest shot on the board and there were only five $2 nose bets placed on him, and two $3 combination tickets, which brought the total straight to $12. One woman had $2 on the small entry's nose "just because she liked the jockey's colors."

$467 ACROSS BOARD

Altogether, win, place and show there was about $50 bet on Warsina, and a $6 combination ticket would have brought the handsome return of $467.15. Jockey Anderson brought home the rank outsider.

Several close finishes featured the card, and four were decided by a head or less. In the first, second, third and fifth events, the crowd was held in suspense, while the numbers were being hoisted. Probably one of the greatest finishes of the whole Island racing season was when Lady Spain eked out a decision over River Maid. These two came thundering down the last fifty yards like a team, with the former getting the call by a nose.

Jockey Pevic led the riders by bringing home two winners and two seconds. D. Neal, Fredericks, Craigmyle, Anderson and Palaez also shared winning mounts.

A great deal of comment was heard from the fans about the amplifiers, which have been installed in the grandstand. These are hooked up with the central music dispensing depot and popular numbers are continuously on the air.

TENSAS WINS BY EYELASH

Tensas took a thrilling stretch duel from Rag Bag and Sis Turpin in the opening race over five furlongs. The winner came along on the inside and managed to get the decision by the narrowest of margins from the favorite, Rag Bag. Tensas was out in front rounding the turn for home, after picking up and beating the pace setter, Bremerwald, into submission. Sis Turpin was in close contention all the route and closed strongly. The race was one of the most thrilling of Island racing to date. The winner paid $20.40 straight.

The favorite, Miss Dick, won the dash for babies over four furlongs. The winner took command on the stretch and had enough to stay off the challenge of Flirtigig, who finished second. Bonnie Day was third. The second choice, General Leggett, was well up in the early racing, but failed to stand the pace set by the leaders. Ruth's Babe failed to break and Nanaimo ran very wide on the turn and had to be taken up.

BULL RUN SHOWS SPEED

Bull Run, under a good ride by Fredericks, copped the third race in a hair-raising finish with the second choice, Tatters. Bull Run, after opening up a good lead on the turn, had enough to stay off the great challenge of Tatters to win by a nose. Flat Foot, the favorite, was third, and Frank S. fourth. For about half the distance in this race six horses ran like a team.

Jockey Pevic brought home his second winner of the day when he piloted Nannie Francis in front in the fourth race. Norton was second and Queen Marie third. The winner, always in close contention, went on top at the head of the stretch and was easily best. Norton was a good second, while Queen Marie just beat out the favorite, Moon Child, in copping show berth. The latter, after a slow break, improved her position throughout.

Jockey Craigmyle gave Lady Spain a fine ride in winning the fifth race. Craigmyle rated the Lyall entry behind the leaders until the turn, then moved up to take the lead. River Maid closed a lot of ground in copping second money and might have been best. Silk Train opened up a wide lead in the early racing, but could not hold it. Cali G., the favorite, lost his chance when he was pinched off at the head of the back stretch.

WARSINA ERUPTS

Something like a bombshell exploded when Jockey Anderson brought Warsina, the small entry, home a winner in the sixth race

EXPLANATION OF SATURDAY'S CARTOON

Rotten Row Is One of the Most Desirable Places in London—"Rotten Row" is an English corruption of the French "Route du Roi" ("The King's Road"). It is a fashionable equestrian and pedestrian thoroughfare in Hyde Park, London, which was in former days used by the Plantagenet kings.

Green Cotton Grows in Danville, Ark.—Lewis Brothers, of Danville, Ark., grow green cotton. A small portion of it was submitted to me by them, with verification that it was colored green in its natural state.

EXPLANATION FOR SUNDAY'S RIPLEY CARTOON

St. Hillaire, Creator of Navigation, Never Saw the Sea—Marig St. Hillaire, the blind French monk, who never saw the sea and yet, to this day is accepted as an authority on navigation, gave the world the Saint Hillaire method of establishing the ship's position by computation. The method is one of many credited to St. Hillaire, which mariners use today.

Paels and Mainzer Rolled a Barrel of Wine 500 Miles—On June 64, 1930, Josef Puets and O. Mainzer arrived in Berlin rolling a 1,000-litre barrel of wine. They rolled the barrel from Bernkastel, in the Rhineland, a distance of approximately 500 miles, covering the distance in seventy days. They were presented with a silver wine cup by the wine merchants of Berlin. These cask makers performed this amazing feat to call attention to the patriotic sentiments of Rhineland occupied by foreign troops.

GEHRIG HAS BIG DAY WITH WILLOW

Yankee First Baseman Poles Out Three Hits to Raise Average to .391—Herman Gains

Pounding out three hits, including his thirty-fifth home run of the season, Lou Gehrig again led the batting parade of baseball's big six yesterday. The second successive day of hard hitting by the Yankee's first baseman boosted his batting average to .391.

Two hits in four times at the plate sent Babe Herman's average up one point to .402, but it was thirteen points short of the mark of the leader, Bill Terry, who was idle. As Gehrig tacked on three points he moved into a tie for third place with Chuck Klein, who went hitless and fell down to .391. Simmons' average remained at .380, while Ruth added a point with one hit in two times up.

STANDING

	G.	A.B	H.	R.	Pts
Terry, Giants	114	469	113	104	414

Cubs Wallop Phillies To Increase National Lead as Robins Lose

Hack Wilson Hits 42nd Homer as Chicago Downs Philadelphia, 17-3—Pirates Nose Out Brooklyn—Yanks and Athletics Win

CHICAGO, Aug. 18.—The Cubs added another game to their lead over Brooklyn in the National League pennant race today and a half game over the idle New York Giants, by walloping Philadelphia 17-6. Malone held the Phillies to eight hits, while Hansen and Phillips yielded seventeen to Cubs' bats.

Hack Wilson crashed out his forty-second home run of the season today and needs only one more to tie the National League record set by Klein, of the Phillies, last year. The blow came in the eighth inning at the expense of Phillips and was part of a six-run assault.

	R.	H.	E.
Philadelphia	6	8	6
Chicago	17	17	3

Batteries: Hansen, Phillips and Renso; Malone and Hartnett.

Pirates Nose Out Robins

PITTSBURGH, Aug. 18.—Dick Bartell's single in the ninth, with the bases loaded, gave the Pittsburgh Pirates a 4-3 victory over the Brooklyn Robins today. Wright tied the score for Brooklyn in the first half of the ninth with a home run.

	R.	H.	E.
Brooklyn	3	6	0
Pittsburgh	4	6	1

Batteries: Clark, Luque and Lopez; Brame and Hemsley.

AMERICAN LEAGUE

NEW YORK, Aug. 18.—The New York Yankees fell on White Sox pitchers for sixteen hits and an 11-4 victory today. Pennock was hit hard but kept the Sox' hits well scattered. Gehrig hit his thirty-fifth home run.

	R.	H.	E.
Chicago	4	12	0
New York	11	16	1

Batteries: Braxton, Walsh and Tate, Berg; Pennock and Bengough.

A's Rally to Win

PHILADELPHIA, Aug. 18.—The Athletics put on an eight-inning rally today after Cochrane hit a home run and defeated the St. of the BrownsGa LisLeaguoWan Louis Browns, 6 to 4. Kress, of the Browns, also had a homer.

	R.	H.	E.
St. Louis	4	8	0
Philadelphia	6	11	1

Batteries: Stewart, Collins and Ferrell; Earnshaw and Cochrane.

Senators Down Detroit

WASHINGTON, Aug. 18.—Washington took the final game of the series from Detroit, 6-4, in a fast game today.

	R.	H.	E.
Detroit	4	8	0
Washington	6	11	3

Batteries: Hogsett and Hayworth; Hadley and Ruel.

Cleveland at Boston, postponed, rain.

SUNDAY'S RESULTS

American League

Cleveland, 6-6; Boston, 6-0.
New York, 8-1; Chicago, 7-7. (First game, ten innings; second game, five innings.)
Detroit, 10; Washington, 1.

National League

Chicago, 5; Philadelphia, 4.
Brooklyn, 6; Pittsburgh, 0.
Boston, 4-0; Cincinnati, 6-6. (Second game, thirteen innings.)
New York, 12-4; St. Louis, 4-14.

Coast League

Hollywood, 11-6; Seattle, 1-2.
Oakland, 8-4; Mission, 2-2.
San Francisco, 14-4; Portland, 0-5.
Los Angeles, 9-7; Sacramento, 6-0.

International League

Reading, 7-4; Buffalo, 6-5.
Jersey City, 2-4; Rochester, 2-1. (First game, twelve innings.)
Baltimore, 2-7; Toronto, 1-2. (First game twelve innings.)
Montreal, 8-5; Newark, 2-2. (First game, twelve innings.)

BASEBALL MEETING

The regular monthly meeting of the Victoria Senior Amateur Baseball League will be held tomorrow evening at the Y.M.C.A. at 8 o'clock. All clubs are asked to have representatives present, and members of the board of governors are requested to attend.

SOFTBALL FIXTURES

Games scheduled this week in the Victoria and District Softball League are as follows:

TONIGHT

Hustlers vs. Oak Bay—Upper diamond, Central Park. Umpire, Bob Whyte.

THURSDAY

Poodle Dog Cup

North Saanich Service Club vs. winners Saanich "A" vs. McDowell & Mann.—Upper diamond, Central Park. Umpire, L. Saxton.

Hillcrest vs. winners Navy "A" vs. Plimley & Ritchie.—Lower diamond, Central Park. Umpire, Bob Whyte.

FRIDAY

Peden Cup

McDowell & Mann vs. winners Hustlers vs. Oak Bay.—Upper diamond, Central Park. Umpire, E. Stock.

Score Decisive Win Over Elks in Third Fixture of Series

Canadians Play Fine Ball Behind Pitching of Jack Noble in 11-1 Victory—Antlered Tribe Guilty of Several Miscues—Fourth Game Tomorrow

SONS of Canada took a stranglehold on the city baseball championship last night when they trounced the Elks 11-1 in the second game of the play-offs at the Royal Athletic Park. The fourth game will be played tomorrow evening and a win for the Canadians will give them the pennant and the right to face Vancouver in the provincial series.

Norm Forbes, star moundsman, who was the big noise in bringing the antlered tribe through the preliminary series with the Jokers, went to the rubber in last night's fixture a tired chucker and, although he was nicked for eleven runs and seven hits, he deserves great credit for the way he tried to silence the heavy artillery of the Sons. Five costly errors were committed by the Elks at critical moments.

SECOND VICTORY

Jack Noble registered his second victory and helped to contribute to his own win with a circuit drive over the netting in the last frame. Noble was given good support by his teammates and coasted home to victory.

The Canadians started the fireworks in the first frame when they sent two runners across the plate. Colin Campbell's two-bagger, with Bacon and Falconer on, being responsible. Things went along all right until the fourth canto, when the Sons scored four more runs on two hits, a like number of errors and three walks. Throughout this inning Forbes had difficulty in finding the plate, while his infield was wobbly behind him.

Two more boners permitted the winners to check in with another tally in the sixth. Bunching three safeties, the Elks scored their lone run in their half of the inning when McKenzie crossed the rubber.

Heavy slugging, including a homer by Noble, gave the Sons another four runs in the last stanza. With two out, Roy Robinson went to bat for Barr in the Elks' half, and he connected with one of Noble's offerings for a nice three-bagger to right field. However, he died there when McKenzie grounded out to end the game.

Colin Campbell, of the Sons, batted perfectly, getting three hits, including a double, out of three trips to the plate.

VICTORIA ELEVEN DEFEATS DESPATCH

Scores 121-101 Victory Over Battleship Cricketers in Exhibition Match

Featured by fine last wicket stands by Grant and Watson, the Victoria Cricket Club scored a great win over a squad representing H.M.S. Despatch, Sunday, at the Work Point Barracks, 121-101. Grant scored thirty-three, not out, while Watson chalked up nineteen. E. A. Pottage, of the battleship, was high scorer with thirty-five runs to his credit.

The scores:

Sexton	1	1	6

REMARKS

Electrical Artificer Pottage (35) and Lt. Stephenson (29) were high scorers for the Navy. A feature of the game was the fine last wicket stand made by Grant (33, not out), and Watson (16) for Victoria.

OLD COUNTRY CRICKET

LONDON, Aug. 18.—Closing scores in English cricket today were:

Middlesex, 284 and 81 runs for no wickets, Northants, 203.

Sussex, 232 and 18 for eight wickets; Essex, 252.

Somerset, 488 for nine wickets, declared; Hants, 144 for four wickets.

Lancs., 254 and 148; Kent, 616 (Woolley, 103).

Glamorgan, 260 and 120 for six wickets; Derby, 237.

At Cheltenham, Gloucester, 335; Leicester, 144, followed on, 111 for four wickets.

Warwick, 243; Surrey, 394 (Sandham, 204, Paine, five wickets for 36 runs.)

Gar Wood Makes Over 90 M.P.H. With America IX

DETROIT, Mich., Aug. 18.—Gar Wood, who will defend the Harmsworth Speedboat Trophy against the aspirations of Miss Marion (Betty) Carstairs, of England, on August 30 and September 1, drove his Miss America IX at a speed above ninety miles an hour at Algomac yesterday. He plans to make further tests.

DUNCAN, Aug. 18.—The Victoria Jokers took both ends of a softball double-header at Evans' Park yesterday, by scores of 10-1 and 6-4, from the local team.

QUAINTON'S ELEVEN WILL TOUR ISLAND

Cricket Squad Headed by Local Clergyman to Start Tour of Island Tomorrow

For the third successive year, Dean Quainton will take a cricket eleven for a tour of the Island. The squad will leave tomorrow morning from the deanery at 8.30 o'clock.

The first game of the tour will be played tomorrow afternoon at Nanaimo. Cumberland will be the next stop, where the locals will perform Thursday afternoon. Courtenay will be the scene of a match Friday afternoon, while a combined eleven from Cumberland and Courtenay will provide the opposition Saturday afternoon.

Return matches will be played at Cumberland and Courtenay, respectively. At Campbell River, where the residents have taken a great interest in the game this season, the Dean's squad will play an exhibition on Wednesday, August 27. The team is expected to arrive back home on August 29.

The following will make the journey: Rev. P. Comley, Eden Quainton, C. Pillar, Eric Quainton, Eric Cox, A. Reid, W. Alexander, R. Povnta, T. Halkett, W. Reade, L. Hinton and Dean Quainton.

TIDEN WINS IN NEWPORT TOURNEY

NEWPORT, R.I., Aug. 18.—Big Till Tilden, handicapped by a hip injury suffered last week, drew deep on his tennis lore to defeat Ellsworth Vines, promising young California player, 9-7, 6-6, here today, in one of the second round matches in the 14th annual Newport Casino invitation tournament.

The first of the foreign delegation to go into action, L. A. Godfree, veteran leader of the British five-man team, bowed to Harrison Coggeshall, Des Moines, 6-6, 6-8, in the first round.

BROADCAST BRIEFS OF THE AIR

An orchestral concert, played in London, England, will be rebroadcast throughout the United States by N.B.C. tomorrow between 1:30 and 1:45 o'clock (P.S.T.) if plans are successful.

Western stations scheduled to release the programme from abroad are: KGO, Oakland; KHQ, Spokane; KOMO, Seattle; KOW, Portland; KPO, San Francisco, and KFI, Los Angeles.

A thirty-minute concert by the United States Marine Band, directed by Capt. Taylor Branson, will be broadcast from Washington, D.C., over KVI, Seattle, and the Columbia Broadcasting network at 5 p.m. tomorrow afternoon.

Of particular appeal to sports enthusiasts, but of general interest to all, because of the wide fame of the personalities introduced, are the interviews which Grantland Rice presents during the Coca Cola programmes, another of which comes to N.B.C. auditors tomorrow evening from 6.30 to 7 o'clock over KOMO. Leonard Joy's all-string orchestra and Chester Gaylord, vocal soloist, provide a musical setting for these sportcasts.

Four American travelers, headed by Bruce Lytton, will be principals in the "East of Cairo" dramatic episode to be broadcast by N.B.C. tomorrow afternoon between 4 and 4:30 o'clock. A background of Oriental music will be provided under the direction of Sven von Hallberg. The programme will be released in the West by KOMO, Seattle.

DROUGHT TAKES HUGE TOLL OF WILD LIFE

Depletion of Game and Fish Throughout United States Will Be Felt for Years

NEW YORK, Aug. 18.—Drought and forest fires have taken an enormous toll of wild life and fish throughout the United States, according to reports reaching the American Game Protective Association with national headquarters here. The depletion of game and fish, it is believed, will be felt for years.

Birds and beasts, fish and fowl have suffered alike from both causes. The large number of forest fires destroyed countless numbers of wild folk. Ashes and burned timber falling into lakes, streams and swamps formed a deadly kind of lye and poisoned fish life.

The drought lowered water levels of streams and lakes, in many cases drying them up, leaving the fish dead on the hard-baked bottoms.

FISH DECIMATED

"The finny tribes have already been decimated and destroyed to a degree that is incalculable," an announcement of the United States Bureau of Fisheries at Washington declares. And the seekers of fish for sport and food will be ruefully aware of the losses for many seasons to come.

"All of the cold-water game fish, such as trout, began to show signs of the stress weeks ago," Mr. Lewis Radclyffe, Deputy Commissioner of the Bureau, said. "As the temperature of their brooks and streams ran up, there were wholesale endeavors to rescue these fish and place them in streams where they might live.

"The actual dropping of water levels in lakes and rivers everywhere has played havoc with other fish tribes," Mr. Radclyffe said.

Black bass, an essentially warm-water fish, and many other species died in water thought to be deprived by the excessive heat of its normal content of oxygen. Motor boats were kept going in many lakes throughout the country to keep the water stirred up, thus creating more oxygen. Their propellers were rigged half out of water so that the revolving blades thrust oxygen of the air into the water. Millions of fish, it is reported, could be seen gasping for breath on the surface of lakes. The warmer water, too, advanced the rapid growth of algae, which requires a high content of oxygen, thus taking an increased amount of oxygen from the water.

Although the dry nesting and brooding seasons of early Spring and Summer favored most wild life, the continued drought is causing distress and death among many species, it is reported. The lack of water and the excessive heat killed many of the babies of the wilds.

ALMOST UNIVERSAL

These conditions obtained in nearly every state in the Union. It will be some time before state game commissioners, the United States Bureau of Biological Survey, and the United States Bureau of Fisheries can determine an approximate toll taken of wild life and fish. Indications are it is stupendous.

"Because of these events, it is all the more imperative for all of us to devote every effort to conserve the decimated ranks and schools of our wild life and fish," Carlos Avery, president of the American Game Protective Association, said. "Alarming as the situation is," Mr. Avery continued, "we can not only conserve what we have left, but we can restore the losses if the public will turn to and help their state game and fish commissions.

"Tie up your dogs, pen up your house cats; for both take enormous toll daily of wild life, and then ask your commission to tell what to do to restore the wild folk. Everyone's help is needed; you can practice environmental control or artificial propogation of both, and help in many other ways. Now is the time to stay well within all bag and creel limits. Give the wild folk a chance," he concluded.

FIFTY YEARS OF CONSTANT ENTERPRISE

THE PILOT DOESN'T WORRY

Fifty below in the Arctic night—and a plane down, with a defective spark plug and an empty tank.

The spark plug can be replaced, but that won't help without gasoline to turn the motor—and the nearest "town" is a few Eskimos and a trading post across the lake at Blackfish Point.

But the pilot doesn't worry. He knows there is a cache of Imperial Gasoline at Blackfish, and someone there to help him.

The great wealth of Canada's north is being found from the air many years before it could be reached afoot, because men are willing to adventure and supplies are there when they are needed.

These supplies come from the Imperial Oil Refineries. By ship up through Hudson Strait into the Bay, by rail beyond the Pas, by paddle wheeler down the Peace and MacKenzie Rivers they go to distributing points. In winter, dog teams and sleds drag them further into the wilderness.

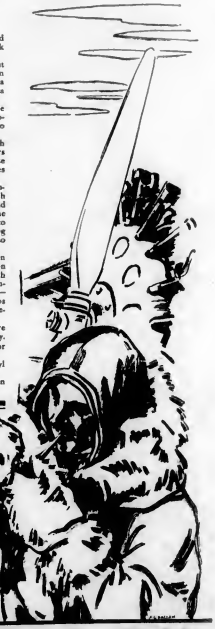

For fifty years Imperial Oil has been meeting the new needs of transportation and industry. Because it has met each need with enterprise and energy, Imperial has become a great company—serving every corner of Canada—its ships on the Atlantic and Pacific—its pipelines in the tropics.

Fifty years of constant enterprise are in the products Imperial Oil sells today.

Marvelube is Imperial's finest motor oil.

Imperial 3-Star and Imperial Ethyl are its best gasolines.

Which means that nothing finer can be put in your car.

PARKS BODY IS AN ACTIVE UNIT

Mrs. J. A. Wilson, Ottawa, Re-elected President National Parks Ass'n

PROTEST IS REGISTERED

By A. O. WHEELER, F.R.G.S.

The general annual meeting of the Canadian National Parks Association was held at the Alpine Club of Canada's camp at Maligne Lake on August 13. In absence of the president, Mrs. J. A. Wilson, of Ottawa, the Western vice-president, took the chair.

The executive secretary, Major W. J. S. Walker, of Calgary, gave a statement of the status of the association and of the work it had done in the interests of the national parks. The association is in need of membership to help fight spoliation of parks by commercial interests; ten thousand bulletins had been distributed; sixty-eight associations, clubs and other organizations had taken associate membership, representing 205,000 people and situated in all parts of Canada. Even the job press boys of The Calgary Albertan had collected 210 among themselves to add to the funds and so assist the cause.

Officers for the ensuing year are as follows: President, Mrs. J. A. Wilson, of Ottawa, re-elected; Eastern vice-president, J. D. Patterson, of Woodstock, Ont.; Central vice-president, H. E. Sampson, K.C., Regina; Western vice-president, Hon. Randolph Bruce, Lieutenant-Governor of British Columbia, Victoria; secretary, W. J. S. Walker, Calgary; treasurer, Andrew S. Sibbald, Saskatoon. Executive council: Mrs. A. O. Bagley, Vancouver; J. W. Davidson, Calgary; Colonel W. W. Foster, D.S.O., Vancouver; Mrs. Gordon Hewitt, Canning, N.S.; Colonel F. C. Bell, C.M.G., Vancouver; Dr. H. E. Bulyea, Edmonton; A. E. Craddock, Vancouver; A. A. McCoubrey, Winnipeg, and A. O. Wheeler, Sidney, B.C.

REGISTER PROTEST

In connection with the reported proposal to cut out Lake Minnewanka from the Banff National Park and give it to the Calgary Power Company, the following resolution was passed unanimously: "The Canadian National Parks Association views with amazement the report that the Lake Minnewanka area is to be eliminated from the Banff National Park as a solution of the local unemployment problem.

"The erection of a steam power plant to utilize the natural gas now going to waste would not only give employment to a large number of men, but would result in dividends being paid to the numerous holders of stock in the local oil companies.

"European experience has been that the scientific development of coal, of which Alberta has a vast and at present an almost dormant supply, leads to busy manufacturing centres around the coal fields, providing permanent and not seasonal employment.

"We trust that the feasibilities of utilizing waste gas or coal will be investigated before an area which was the cause of Canada's first national park will be turned over for commercial exploitation."

Mr. Sampson remarked that efforts must be made to prevent this portion of the park being taken away. Mr. Sibbald said that a large part of the Banff park had already been taken away. The Lake Minnewanka area would cut off more. Fire and game protection for Banff would thus be removed and one of the chief attractions of the park—one for which it had been created—would be lost. The parks were the property of all of the people and belonged as much to Saskatchewan as to Alberta. The people of Saskatchewan would resent the Lake Minnewanka area being taken away from Banff park.

It was moved and seconded that copies of the resolution be sent to all members of Parliament and generally circulated.

Dr. Bulyea wanted to know why power transmission could not be made direct from the gas wells like hydro-electric. Mr. Walker thought it would be feasible to pipe gas from Turney Valley. There were coal fields behind Turner Valley and when we wake up we shall use them for power transmission all over the province, he said.

Prelate Injured in Auto Accident

CARDINAL ROULEAU

Archbishop of Quebec, received a dislocated shoulder in an automobile accident at St. Henri de Levis, Que., on Monday. The car crashed into a ditch when a punctured tire caused the driver to lose control. G. E. Cote, Quebec, and his secretary, Abbe Bernier, who accompanied the cardinal, were both injured.

A BOON TO GOLFERS

There is usually a tendency to stiffness on the second day after the game of golf—this is particularly so at the beginning of the season . . . and unless you safeguard yourself against this tendency, you are liable to experience considerable discomfort for several days.

Anticipate this stiffness by giving yourself a thorough rub-down immediately after the game with Absorbine, Jr. This famous antiseptic liniment will arouse circulation, break up congestion and bring your muscles into proper condition again.

Keep a bottle of Absorbine, Jr., always handy in your locker at the golf club . . . and use it freely after your shower . . . it will soothe and refresh sore, overworked muscles and tired, aching feet. Absorbine, Jr., is not greasy and does not stain the skin. At all druggist's—$1.25 per bottle. 134

BRANDS ADVERTISING BY RADIO AS MENACE

Tells Institute of Engineers Broadcast Programmes Will Lead to Government Regulation

TORONTO, Aug. 18.—Launching an attack on the use of radio as means of "blatant" and direct advertising, Dr. Lee De Forest, delivering the welcoming address to delegates attending the annual convention of the Institute of Radio Engineers, which opened here today, said:

"In my inaugural address last January I sought to point out a very real danger to the fullest usefulness and enjoyment which radio has power to confer, a menace steadily growing greater, more truthless, more deserving of suspicion and more generally detested—use of the broadcast for direct and blatant advertising—in larger and longer doses. Subsequent observation and active inquiry has convinced me that the warning to the radio industry then sounded was not a needless fear.

"We engineers, dependent on radio for our livelihood, have ample ground for emphatic protest. But there are higher, less selfish considerations which may well inspire a fear in our minds—the thought that short-sighted avarice is at work to curtail the usefulness, the beneficence of radio, in the home, in the school, as means of entertainment, of education, of uplift generally. Unless this evil is voluntarily cured (and without earnest organized protest it won't be cured), we are headed straight for Government regulation, with taxation, possibly censorship, and all the evils and all the benefits of Government control."

COLWOOD

A special meeting of the Colwood Women's Institute will be held tomorrow at 7:30 o'clock in the institute room.

TREAT that corn this new way

Banish it *for life*. Follow Blue-jay, the easy, painless, 3-day treatment for corns, with a new Protect-O-Pad and keep it from stealing back. A trim, oval guard . . . hollow-centered . . . velvet-soft, yet tough . . . a Protect-O-Pad covers and shields the sore spot until sensitive tissues recover normal tone. Stops blisters and coming corns and calluses. At all drug counters *now*. Blue-jays 35 cents. Protect-O-Pads 35 cents.

DELEGATES NAMED FOR ANNUAL PARLEY

Reeve Elrick and Councillor Lockley to Represent Esquimalt at Municipalities Meeting

Reeve James Elrick and Councillor Alex Lockley were named as delegates to the annual convention of the Union of British Columbia Municipalities at Kelowna on the latter part of this month and early in September, at last night's meeting of the Esquimalt Council.

A letter was read from the Automobile Club of British Columbia, Victoria Branch, asking that some action be taken with reference to the dangerous condition of the road at Macauley Street on Esquimalt Road. After a short discussion it was decided that the council as a whole and the municipal engineer will visit the point on Wednesday morning at 10 o'clock to discuss the advisability of making some alterations.

The council by unanimous vote decided to make a donation of $50 to the Victorian Order of Nurses.

Junior Auxiliary Holds Fete at Port Alberni

PORT ALBERNI, Aug. 18.—A delightful garden fete was held by the Port Alberni Junior Hospital Auxiliary on Friday at the home of Mrs. J. B. Wood, who had kindly loaned her beautiful grounds and home for the occasion. Although the weather was dull the affair proved to be a success in every way, and a large number of persons throughout the district attended.

Mrs. J. B. Wood and Mrs. Gordon Campbell, president, acted as hostesses, while Mrs. Dawson Turner was in charge of the novelty stall. The bridge tables for afternoon and evening were taken care of by Miss Freda Hilton, the prize going to Mr. Elmer Glaspie.

Miss Blanche Wood served the daintily arranged tea, while Mrs. Royston Hill, Miss Helen MacDonald and Miss Christina Ross were on the supper committee. Other conveners were Miss Ellen Wood and Miss Bernice Manning, candy stall; Miss Nan McCranor, punch bowl; Miss Stella Howitt, ice cream stall.

Clock golf proved to be a great attraction and was taken care of by Miss Betty Hilton. Mr. Fred Patton, holding the lowest score, won the prize. The nearest guess to the number of beans contained in a jar was 1,060, won by Miss Eileen Plummer, while the lucky number for the bridge lamp drawing was won by Mr. Louie Blysack.

Fortunes were told by Mrs. Jack Spratt, whose stall was more than popular throughout the day, while Miss Margaret Emde and Mrs. Green rendered several solos.

In the evening dancing was enjoyed, the music being supplied by Mr. D. Dootson's Victrola, which had been kindly loaned. The Misses Frances Strain, Arlee Wood, Thelma Donnelly and Betty Pineo, dressed in Oriental costumes which were in keeping with the other decorations, assisted in selling home-made candy and passing out the punch.

Among those present were Mr. and Mrs. Newell Wright, Mr. and Mrs. D. McColl, Mr. and Mrs. H. P. Strain, Mr. and Mrs. W. A. Alexander, Mr. and Mrs. L. A. Hanna, Mr. and Mrs. A. H. West, Mr. and Mrs. Royston Hill, Mr. and Mrs. Elmer Grant, Mrs. O. T. Hilton, Mrs. P. Manning, Mrs. A. MacDonald, Mrs. Emde, Mrs. Renwick (Union Bay), Mrs. D. R. Kelly, Mrs. C. A. McNaughton, Mrs. H. Pattinson, Mrs. Trimble (Victoria), Mrs. Colin Martin, Mrs. F. G. Bacon, Mrs. A. Freming, Mrs. Stuart Carter, Mrs. Roy Hanna, Mrs. William Ackland, Mrs. A. W. Neill, Mrs. A. O. MacFie, Mrs. D. R. Porter, Mrs. H. M. Hodgson, Mrs. Hambrook, Mrs. J. R. Motion, Mrs. Morton, Mrs. J. MacDonald, Mrs. Mollard, Mrs. M. Proctor, Miss Georgina Curran, Miss Mary Grierson, Miss Eileen Plummer, Miss Anne Wood, Miss Maureen Hilton, Miss Margaret Emde, Miss Walker (Cumberland), Miss Lowe, Miss Jean McDonald, Miss Grant (Sproat Lake), Miss M. MacKenzie, Miss J. Strict, Miss Anne Burke, Miss Dorothy Proctor, Fred Patton, Carl Mulver, Carl Tideman, "Scottie" McKenzie, W. Flynn, R. Toms, Russell Turner, Dick Hilton, H. Johnson, and many others.

Brownies' Picnic

CHEMAINUS, Aug. 18.—The Chemainus Brownies' picnic held on Mrs. Fraser's beach was a great success, about thirteen Brownies attending. Leaving at 10 a.m. they spent the day swimming, boating and digging in the sands, starting for home again at 7 p.m. The Humbird Cup for the best all-round Brownie for the year was presented to May Robinson. Those present were Mrs. George Neal, Brown Owl, Misses Enid and Coralie Fraser, Misses Kathleen and Violet Porter, Mrs. H. Dobinson, Mrs. Fraser, and Vera. Of the Brownies there were Patsy English, Leona and Rosie Cruell, Virginia Humbird, Eileen and Gladys Work, Jacqueline and Margaret Eberle, Margaret Work, Jean Andrews, May Robinson, Betty Aiken, Florence Clarke.

Judging Results at Provincial Exhibition

ART SECTION

Water Colors, Crayons, Etc.

Portraits or figures, open—Constance U. Bonner.

Still life, fruit, flowers, etc., from Nature—Marguerite Mulligan.

Pen and ink drawing, freehand—Allan Lifton.

Portrait in crayon or pastel—Adolphe Rochon.

Architectural drawing—P. O. Holland.

Commercial Art

Book illustrations, open — Mary Baiss.

Posters—Molly Seymour Briggs.

Lettering—Molly Seymour Briggs.

Oil Colors, Original, Amateurs

Design, decorate an equilateral triangle, with any natural form—1, Joy Dempsey; 2, Bella Craig.

Design, geometrical, in color—1, Gerald Chaston; 2, Carron B. Jameson.

Ink lettering, school poster, 12 x 9, capital letters—2, Bella Craig.

Ink lettering, four lines poetry, capital letters—2, June MacKillican.

Product map of British Columbia, 12 x 15—1, Bella Craig; 2, Margaret Critchley.

Product map of Canada, 12 x 15—1, Margaret Critchley; 2, Bella Craig.

Pen and ink sketch, any subject—1, Richard Watson.

Penmanship, four sentences — 1, Doris Lockley; 2, Irene Sainsbury.

Water color, any subject—1, Joy Savage; 2, Carron B. Jameson.

Six to Nine Years of Age

Border, with simple curves — 1, Betty Scott; 2, Joyce Lennartz.

Drawing, crayon, nature subject—1, David Franklin.

Drawing, brush, mass — 2, Joyce Lennartz.

Penmanship, four sentences — 1, Joyce Lennartz; 2, Jessie Pollock.

Plasticine, flat modeling—1, David Franklin; 2, Stanley Peden.

Paper cut and arranged to make a picture — 1, Joyce Lennartz; 2, David Franklin.

MANUAL TRAINING

Best original model and drawing—1, Louis Durant.

PLANTS AND FLOWERS

Bouquet, spray, lady's, 2 varieties—1, Mrs. A. W. Green; 2, Mrs. E. M. Darcus.

Dahlias, show, 6 varieties, 1 of each, named—1, Albert Smith.

Dahlias, cactus, 6 varieties, 1 of each, named—1, Albert Smith; 2, James S. Clark.

Dahlias, pompon, 3 varieties, 1 of each, named—1, Albert Smith; 2, James A. Clark.

Dahlias, collection, 15 varieties, 1 of each, named—1, Leonard Gould; 2, Albert Smith; 2, E. D. E. Stewart.

Delphiniums, 6 spikes—1, E. R. Harness; 2, Mrs. E. W. Darcus.

Vase of dahlias—1, R. A. Nicholson; 2, J. McRoberts.

Pansies, 6 varieties, 2 of each—1, R. A. Nicholson; 2, Angus McKay.

Roses, 6 varieties, 1 of each—1, R. A. Nicholson; 2, W. G. Simpson.

Violas, 3 varieties, 3 of each—1, Angus McKay; 2, J. Naysmith.

Bowl of roses—1, Mrs. Atwood.

Gladioli, 6 varieties, 3 each—1, Angus McKay; 2, Albert Smith; 3, Mrs. G. O. Howell.

Basket of primulinus hybrid gladioli, 2 or more varieties—1, Albert Smith; 2, E. M. Whyte; 3, Mrs. G. C. Howell.

Annuals, collection of 6 varieties, 1 bunch each—1, F. T. Rawlins; 2, Dr. A. G. Price; 3, J. Naysmith.

Perennials, 1 bunch each variety, 6 varieties, named—1, Angus McKay; 2, Mrs. A. R. Harness.

Sweet peas, 12 varieties, 6 distinct colors, 6 stems each—1, J. A. Hibberson.

Sweet peas, 8 varieties, 6 distinct colors, 6 stems each—1, J. A. Hibberson; 2, F. T. Rawlins.

Sweet peas, 6 varieties, 3 distinct colors, 6 stems each—1, J. A. Hibberson; 2, F. T. Rawlins.

Bunch sweet peas, not more than 30 stems, any variety — 1, J. A. Hibberson; 2, F. T. Rawlins; 3, W. J. Edwards.

Vase of carnations — 1, F. T. Rawlins; 2, Angus McKay.

Chrysanthemums, outdoor, 6 varieties, 2 sprays each—1, Angus McKay.

Chrysanthemums, single, 3 stems—1, Albert Smith; 2, J. Naysmith.

Asters, 4 colors, 3 blooms each—1, Mrs. B. Fagerberg; 2, E. D. E. Stewart.

Vase of asters, 12 blooms—1, J. Naysmith; 2, F. T. Rawlins; 3, A. L. McMullen.

Stocks, 2 colors, 2 spikes each—1, J. Naysmith; 2, James S. Clark, 3, J. McRoberts.

Vase of salpiglosis, 6 stalks—1, J. Naysmith; 2, Dr. A. G. Price; 3, Albert Smith.

Vase of lilies—1, Angus McKay; 2, George F. Scholefield; 2, Mrs. W. W. Groos.

Antirrhinum, 3 varieties, 3 blooms each—1, J. Naysmith; 2, Albert Smith; 3, Mrs. A. R. Harness.

Penstemon, 2 varieties, 3 blooms each—1, J. Naysmith; 2, Mrs. A. R. Harness.

Phlox Drummondi, 2 varieties, 2 of each—1, Mrs. E. O. Mayers; 2, J. Naysmith.

SAYS KING OF EGYPT AND PREMIER SIDKY ARE PLANNING COUP

LONDON, Aug. 18.—King Fuad, of Egypt, and Premier Sidky Pasha were said in an article contributed to The Daily Mail yesterday to be planning a coup d'etat that would make Fuad an absolute monarch with a restricted Parliament.

The King and the Premier, according to the writer, have drafted a complete new constitution, which the King is to sign on Tuesday. The constitution will be operative immediately and entail the dissolution of the present Parliament with its heavy Wafdist majority.

The plan is said to include drastic revision of the Egyptian electoral law.

The writer in The Mail says that the most remarkable feature of this sensational plan is that the British Government, though it must be fully informed of the proposed changes, is ignoring them on the grounds that they do not concern Great Britain.

Pupils Entertained

SOOKE, Aug. 18.—The pianoforte pupils of Mrs. Florence Muir Acreman were entertained at her home on Tuesday afternoon. Those present were the Misses Violet Helgesen, Lillian Graignic, Jean Thornber, Doree Francis, Helen Welsh, Doris Thomson, Victor Syrett and Douglas Brownsey. Refreshments were served and the students enjoyed musical games and contests.

Ecuador expects a bumper coffee crop this year.

At The Playhouses

"THE DAWN PATROL" IS EPIC OF THE AIR

Capitol Now Staging Thrilling Story of British Flyers in Early War Years

A John Monk Saunders story has been done into a dramatic screen epic by Richard Barthelmess, and it opened yesterday at the Capitol Theatre, where it will play all this week. It is a First National-Vitaphone production called "The Dawn Patrol," and, as its name might imply, it narrates the tense and thrilling story of a group of British flyers in the early years of the World War, whose courage and bravado in facing overwhelming odds created a condition unique in the entire conflict.

Saunders is the author of "Wings," "Legion of the Condemned," and other air stories. The director of "The Dawn Patrol" is Howard Hawks, who is himself a licenced pilot, and has a large following as an author and director.

AMUSEMENTS

On the Screen

Capitol—Richard Barthelmess in "The Dawn Patrol.

Columbia—"The Phantom of the Opera,'" starring Lon Chaney.

Coliseum—"Devil's Harbor," featuring Lupe Valez.

Dominion—Ruth Chatterton in "The Lady of Scandal."

Playhouse—"A Royal Romance," with William Collier, Jr., and Pauline Starke.

Crystal Garden — Swimming and Dancing.

RUTH CHATTERTON MAKES ANOTHER HIT

Wanderful Character Study Keeps Dominion Audiences Between Laughter and Tears

Ruth Chatterton scores another hit in "The Lady of Scandal," which opened last night at the Dominion Theatre.

As Elsie Hillary, the actress who forces her way into snobbish London society, Miss Chatterton gives a penetrating characterisation which moves between laughter and tears.

First-rate work is also done by the supporting cast, which includes Basil Rathbone, Ralph Forbes, Fred Kerr, MacKenzie Ward, Nance O'Neil, Cyril Chadwick, Robert Bolder, Moon Carroll and Effie Ellsler.

PLAYHOUSE THEATRE Picturesque settings are a feature of "A Royal Romance," the Columbia all-talking comedy-drama of love and intrigue showing at the Playhouse Theatre today. William Collier, Jr., and Pauline Starke play the leading roles, and the supporting cast includes Clarence Muse, Ann Brody, Betty Boyd, Eugenie Besserer and Ulrich Haupt.

COLISEUM THEATRE One of the first all-talking productions to be filmed on location entirely out of doors is "Devil's Harbor," the romantic drama starring Lupe Velez, and now showing at the Coliseum Theatre. "Devil's Harbor" is said to offer Lupe Velez the greatest opportunity of her screen career, presenting her in the part of a high-spirited young modern, a descendant of the great pirate chief, Sir Henry Morgan. Around this theme is developed a story rich in incident and local color.

COLUMBIA THEATRE Huge settings and spectacular photography in natural colors—beautiful music, excellent singing and gripping dialogue—gorgeous fetes and the great Paris Opera House—dim, tortuous cellars—eerie happenings — shrieks —thrills—these are the impressions made by "The Phantom of the Opera," now being shown at the Columbia Theatre, starring Lon Chaney.

OTTAWA SENDS ART TREASURES TO EXHIBITION

Collection of Twenty-Four National Gallery Paintings Shown at Willows

ALL SCHOOLS ARE WELL REPRESENTED

Canadian National Gallery art treasures have a real national significance when they pass into circulation as they have been permitted to do during the last few years. For instance, the occasional display in Victoria of such pictures as have been sent this year from Ottawa for the Provincial Exhibition at the Willows will do infinitely more to stimulate interest in pictures and give the younger artists some standard of taste than the quadrupling of an absolutely immobile collection in some remote Canadian city could do.

The collection numbers twenty-four water colors, pastels and oils. No gallery in the world exists where every picture pleases every critic, and there is the usual division of opinion about the respective merits of these paintings, too. But no one will deny them the merit of individual distinction. Even the least prepossessing has a strength of personality which distinguishes it from the average amateur effort. One cannot turn lightly away from any one of them, and in recognising this one has found, perhaps, the explanation and justification for many a picture which at first flush repels rather than attracts.

Leaping immediately into the eye as a thing of radiant fresh beauty is Lorna Reid's "Wind Flower," a picture in oils of a child with wind-blown copper-colored hair, nondescript green dress and bare legs, standing among swaying grasses at the edge of a bluff, a bit of childish loveliness, animation and mysticism under the tossed clouds. There is a magnificent outdoor atmosphere, a fine breadth and freedom, in this, and the tumultous sweetness of youth is rarely better portrayed.

At the extreme opposite end of the same wall is another arrestingly fine work, Robert Harris' "Mon Vieux Modele," a splendid character study expressed with the magnificent technique of an earlier school. The old face, rugged in line, earnest in expression, is finely modeled, and the skin tones as well as the richly colored cope have a luminosity which is unusual.

FRENCH IN SPIRIT

Paul Peel, a Canadian whose art became French both in spirit and technique, is represented by a genre picture entitled "Mother Love." This fine canvas, the biggest in the collection, shows a barefooted fisherwife, her red hands temporarily idle on her aproned lap while she pauses in her netmaking to lean lovingly over the wicker basket where her baby lies. The finely modeled features have tenderness of expression, and the draughtsmanship, the composition, the painting of skin texture, are admirable. Everything, even to the momentarily idle hands, is strongly expressive, and the sentiment is heightened by repetition in the little group of a mother cat and her kittens lapping milk out of a saucer at the woman's feet.

"Affy," by Ernest Fosbery, A.R.C.A., is a charming enough study of a girl with a Pekin blue hat and dark coat. More important than the details of her dress is the girl herself. The expression is vital and has a soft animation, brightness and vivacity which are very pleasing.

Still among the older school of artists is T. Mower Martin's "The Moose Country," which, although painted by an Eastern Canadian, has a Western look. Sombre greens, browns, and dull reds paint in the trees and long grass which fringe the stream. Wet, low-hanging clouds enhance this sombreness.

Among the new school one notices Manly Macdonald's vigorously painted "Fishermen, Lake Ontario," strong, rugged, full of action, the figures clad in heavy working oilskins. There is a sturdy beauty in this, and attractive coloring, and it has the distinction of being one of the few paintings of industry in the exhibition.

Lawren Harris' "Snow" is another of the big canvases. Critics differ as to the justification for the blue, mauve and green coloring which is used in depicting the heavy snow which flows and drips, as snow so often seems to do, from the branches of the trees. The sun has caught the trees on the other side of the river and turned them into pure gold. This touch is a striking feature of the picture.

TYPICAL SUBJECT

In G. A. Reid's "Vacant Lots" the subject is less pleasing than the treatment, although the former is typical of many a small Canadian town. William Brymner, who ranks among the seniors of the Canadian school, is represented by "Evening," an oil canvas in very low tones, showing a dark avenue of trees under a nonluminous sky. Dusk nearly hides the soft grey of some old walls at the right.

Prudence Heward's "Anna," also belongs definitely to the new Canadian school. It represents three-dimensional things, but is completely two-dimensional in effect. The drawing is accurate, intelligent, free, but no attempt is made in this portrait either to model the features or give them expression. The coloring is in sharply-defined masses, and the whole effect is clean-cut, definite, unatmospheric.

Several snow pictures other than those mentioned are in the group. One is C. W. Simpson's big "Winter in the Harbor," which shows ice-bound ships, with frosted masts and icicle-hung bulwarks, lying at their wharves, lifeless-seeming in the thin blue Winter haze. The pallor and coldness of Winter are cleverly pictured here.

A. Y. Jackson's "Morning After Sleet" is warm by comparison, rosy lights playing among the snows, although the birch trees are visible against the whiteness only because of their black-ringed bark. This has pleasing composition and atmosphere.

Among the mountain pictures W. P. Weston's "Mount Temple" is the most striking, boldly interpreting the magnificent proportions of a mountain which sends a defiant white crest into the sunlight, while the surrounding valley is plunged in the purple gloom of night. Aggressively definite, strong and assured, this is one of the most arresting of the new school representatives.

Arthur Lismer's "The Guide's House" is a spatter of golden leaves and blue sky above a hut in the woods; the dappled delicacy of the surroundings making a delicate contrast to the sturdy lines of the shack.

One of the richest bits of modern color is James Edward Harvey Macdonald's "Cattle by the Creek," which, to be appreciated, must be seen from well back. It then becomes a strikingly fine canvas of sleek cattle resting at noon among the deep shadows on the brink of a quiet pool. The treatment of the subject is bold, daring and brilliant. Once the right focus is found the composition becomes delightfully pleasing.

Charles Jefferys' "Time" is a contrast of things impregnable and unenduring; a great boulder of brown rock and a slim pine defined in silhouette against a rosy sky with rather round clouds.

After these more broadly treated subjects it is almost exciting to find Frederick Challener's "Wild Steeds of the Prairie," with tiny little figures of galloping horses. The sense of big dimension comes in the sweep of sky and plain. T. W Dodd's "Winter" is another of the smaller oils, showing a road by a river running in dissolving snows.

A GEM

One of the gems of the collection is a water color, L. R. O'Brien's "Marine." Without attempting to say much in detail, it conveys a wonderful picture of luminous and silvery atmosphere, the sky of the kind where one can easily imagine another side to the clouds, and the ships "painted ships on a painted sea," with sails of shell-like delicacy.

Just beside this is another water color from the National Gallery, Daniel Fowler's "Street in Edinburgh," which recalls some of the picturesque life of the old streets beneath the lop-sided houses. This is now quite old-fashioned in style, but has charm nevertheless.

ATTRIBUTES VICTORY IN SHOOT AT OTTAWA TO COLOBAR LENSES

Close upon the heels of the announcement of Major Richardson's sensational victory in the Governor-General's match at Ottawa, Harold S. Timberlake, of the Victoria Optical Company, received a letter from Canada's premier rifle shot, attributing in no uncertain terms a large proportion of the success to absolute freedom from eye strain, gained through Mr. Timberlake's recommendation of the "Colobar" lenses in glasses adapted to his needs. When Major Richardson, Victoria resident, led the field with a total of 245 points at five ranges, this veteran shot wrested the trophy from 140 contestants, the triumphant culmination of a long record of splendid scores.

In the letter written to Mr. Timberlake he speaks of the "Colobar" lenses as instrumental in his success. "You were right," he wrote, "when you made me take your choice of 'Colobar.' Sincerely, I have never shot better and with such satisfaction. All my big shoots were made without strain."

When one considers that Major Richardson's score at the final range, when the natural eye strain is greatest, gave seven straight bulls in fifteen shots, and the last shot on score sped true to the centre of the black disc, more than half a mile away, it is ample testimony to the efficacy of the "Colobar" lens.

BROMLEY FLIES PLANE TO JAPANESE AIR BASE

TOKIO, Japan, Aug 19.—Harold Bromley and Harold Gatty, Tacoma aviators, today flew their monoplane from the beach at Yokohama, where it was assembled, to the naval air base at Kasumigaura, near Tokio. They said they hope to take off on their nonstop transpacific flight to Tacoma within the next few days.

SUGGESTION IS DENIED

LONDON, Aug. 18.—Rt. Hon. Lord Thomson, Secretary of State for Air, today officially denied the suggestion contained in certain newspapers that it is proposed to send the dirigible R-100 back to Canada in September to bring Mr Bennett, the Canadian Prime Minister, and the Canadian delegation, to London to attend the Imperial Conference.

PROTECTION MONEY PAYMENTS CHARGED

Gov't Witness in Seattle Trial Alleges Dry Officers Received Bribes From Olmstead

SEATTLE, Aug. 18.—Efforts to strike at the backbone of the Government's case against Roy O. Lyle and four of his former associates in the prohibition office here by destroying the credibility of the star witness began in Federal Court here today.

No sooner had Alfred M. Hubbard, former rum runner and dry agent, who accused his former superiors of conniving with rum runners in wholesale corruption and bribery, been turned over to the defence for cross-examination, than A. R. Hilen, defence counsel, sought to prove that Hubbard was an imposter and liar.

Hubbard concluded his direct examination by the Government by summing alleged payment of protection money by organised bootlegging rings to three of the defendants.

More than $1,000 were paid Lyle, William M. Whitney, Lyle's former assistant prohibition administrator, and Earl Corwin, chief field agent, in 1925, 1926 and 1927, Hubbard testified.

Whitney was said by the witness to have received between $50,000 and $60,000; Corwin between $20,000 and $25,000, and Lyle $20,000. Hubbard listed protection money payments of almost $200,000 from Roy Olmsted, former rum king of the Pacific Northwest and other liquor runners.

Hubbard said he knew of no protection payments being made to O. T. McKinney, former assistant United States attorney and one of the defendants. R. L. Fryant, former dry agent and deputy sheriff, and the fifth defendant was said by Hubbard to have received only small payments.

RAINS BRING MUCH NEEDED RELIEF TO DROUGHT DISTRICTS

CHICAGO, Aug. 18.—Millions of dollars fell over Central United States yesterday in the form of widespread rains.

Fairly general precipitation, added to the scattered showers of the last few days, brought much-needed relief to many drought-stricken areas, freshening up pasture land and giving corn a new lease on life.

More scattered showers are expected by the Weather Bureau to fall tomorrow over the Western plains as well as in the Southern States.

Following the lead of her mother, who was one of the first members of the Aberdeen Aero Club, of Scotland, Miss Isabel Scott-Elliott has just been granted a licence as a private pilot, and is preparing to apply for a mechanic's licence, as well as helping her younger sister to learn to fly.

The New Hired Man-

ON the modern Canadian farm is a new hired man, one who does the hardest chores, toils 24 hours a day if necessary, never gets tired, requires no board or lodgings, and works for a few dollars a month.

This highly efficient help is the "electric hired man." To an ever increasing extent he has been responsible for solving the problem of farm labor, augmenting net income and revitalizing one of Canada's basic industries.

The electric hired man does such irksome chores as pumping water, sawing wood, running the churn, chopping the feed and milking the cows. Saves the crops, too, by threshing the grain, grinding, husking and shredding. And at the same time this electric hired man is working in the farmhouse helping with the cooking, washing and ironing!

Power lines extending up and down the concession lines of Canada have made the electric hired man available to thousands of farms. And time after time it has been proved that the initial investment pays handsome dividends in operating revenue.

For the electrification of our farms Canadian General Electric Company manufactures all the necessary equipment, including generators which harness the waterfalls . . transformers which make power transmission over long distances economical . . wire, cable and line supplies . . and motors which perform such valuable work on the farm at such little cost.

World's Most Luxurious Passenger Ship to Dock Here on Friday Morning

Due to arrive at Rithet Piers early Friday morning, and heralded as the world's most luxurious ship, the Empress of Japan, 670 feet long, 84 feet wide, and 41 feet deep, embodies the latest in passenger ship design. Created by famous British architects, specially for the class of travelers met with between Hongkong, Shanghai, Kobe, Manila and Honolulu, her equipment includes every known accessory to comfort. Lounges, smoking rooms, drawing-rooms, ballrooms and the long gallery of the ship all show the influence of the East and will no doubt intrigue the Occidental traveler.

On the bridge of the new Empress, when she docks will be Com. Samuel Robinson, O.B.E., R.N.R., of Empress of Australia fame, who was honored by His Majesty the King for his rescue work following the Japanese earthquake and fire of 1924, and who was fifth officer of the first Empress of Japan in 1895, her chief officer in 1899 and her commander in 1908. Other officers who served on the present liner's predecessor also will be aboard the ship. Capt. A. J. Holland, R.N.R., the staff captain, commanded the old Empress of Japan when she made her last appearance here before being scrapped in 1922; Earnest Syder, who occupied the same office on the old ship back in 1903, is the chief purser; James Lamb, chief engineer, who served the former ship in the same capacity, and also second, third and fourth engineer at different times, is in charge of the engine-room; Thomas J. Bridges, once chief steward of the old pride of the Pacific, is serving in a like capacity on the new blue ribbon ship, and L. M. Goddard, who held the rank as well as others on the original Empress of Japan, is the chief officer.

When in 1891, the Canadian Pacific took delivery of three white Empress liners, forerunners of the present imposing fleet now embracing the 16,000-ton Empress of Asia and Empress of Russia, the 21,517-ton Empress of Canada, and the new 26,000-ton Empress of Japan, seafaring men shook doubtful heads and declared that such ships were "ahead of their time."

"They were faster than they needed to be," the old salts said, and presented such unheard of luxuries as de luxe suites, wherein handsome bedsteads replaced the traditional sea-bunks general in other lines, an illusion which white-uniformed stewards and deck officers helped to enhance, the ships resembling more closely trim, white yachts than the ocean-going liners that they really were.

Thus the Empress of India, sold to the Maharajah of Gwalior, and renamed by him the Loyalty and presented to the British War Office for use as a hospital ship; the Empress of China, lost off the Japanese coast in 1911 after being storm-driven on a reef, the queen of them all; and the Empress of Japan, which virtually died in service, ushered in a new era of speed and luxury on the Pacific when delivered by the Naval Armaments, Limited, of Barrow-on-Furness, to the Canadian Pacific in 1891.

Now thirty-nine years later comes the new Empress of Japan, launched on December 17 last at the yards of the Fairfield Company on the Clyde. Externally, the new Empress is a creation of flashing beauty, the hull and towering superstructure being of gleaming white. A ribbon of blue beads the main deck, and, above all, are a trio of giant funnels painted buff. Restful, spacious appointments characterize the interior of the ship, all designed for comfort during warm Pacific days and nights.

With a sea speed of twenty-one knots an hour, this latest addition to the Canadian Pacific fleet will be able to make a twelve-hour stay in Honolulu, and still complete the Victoria-Yokohama crossing in well under the usual ten days.

Seven passenger decks, including a wide promenade on which the gymnasium is situated, offer facilities for abundant outdoor recreation. A far cry, indeed, from the ships of the 1890's, which were "ahead of their time," to this new ship of 1930, which is also ahead of its time, but which Canadian Pacific officials, including the chairman and president, Mr. E. W. Beatty, confidently expect will be justified in the rapidly growing commercial intercourse between Canada and the Orient.

FAST PACIFIC SHIPS FOR U.S. MAIL LINES

Dollar Company Out to Capture Speed Records With Twenty-One Knot Vessels

SAN FRANCISCO, Aug. 18.—American shipping will make a bid for Pacific speed supremacy when the Dollar Line places in service the first of two twenty-one-knot turbo-electric liners, which will cross westbound in the round-the-world service of the company. The first vessel will be ready in the Summer of 1931. A new era of swiftness and luxury on the Pacific has been opened by Japanese and British flag lines, but ships flying Old Glory soon will be turned out of American shipyards by American labor to capture speed records now held by foreign flag lines in the Pacific trade.

Giant Beacon to Honor Memory of Great Navigator

WASHINGTON, Aug. 18.—A great "cross-roads of the air," marked by a giant beacon light, is to honor the spirit of Columbus at Santo Domingo, oldest of new world cities. Designs for the land and water airport will be submitted to an international jury of architects next May 15. The project is sponsored by the twenty-one American nations.

The jury, Raymond Hood, representing North America; Horacio Acosta, Latin America, and Eitel Saarinen, Europe, will judge the models. Designs are to cover construction of the memorial lighthouse, a chapel and library, the necessary land and water approaches, and the airport at an estimated construction cost of $1,500,000.

The models were selected in a preliminary contest sponsored by the Pan-American Union, from a field of one hundred and thirty-five artists from forty-six countries. The winner of the second competition will be awarded $10,000.

"Rastus, why are you so late this morning?"

"Well, boss, it was this way. When Ah looked into the glass this mo'nin', Ah couldn't see mahse'f, so Ah figgers I must hab gone to wuk. Dog-gone eff'n it wasn't two hours befoah Ah found out de glass had dropped out of de frame. He, He!"

Naval Vessels Leave Port for Mainland City

MAKING the rounds yesterday, naval officers of the visiting ships from the West Indies said their adieus to Victoria friends. With Vice-Admiral V. H. S. Haggard, C.B., C.M.G., aboard, H.M.S. Despatch, flagship of the Eighth Cruiser Squadron, in company with H.M.C.S. Vancouver, will leave Esquimalt Harbor this morning at 8:30 o'clock. The ships will be joined off the harbor by H.M.S. Dauntless, returning from a cruise in Alaska waters, when the three vessels will proceed in company to Vancouver, where the Despatch and Dauntless will remain for the next five days. They will not return to Esquimalt, proceeding to their base at Bermuda after leaving Vancouver.

French Islands New Base for Rum-Runners

BRINGING into force of the new Canadian liquor export law, which put a stopper on Canadian-American border rum-running, has brought into being, according to reports, a new oasis for thirsty America and new significance to the French Islands of St. Pierre and Miquelon, just off the Coast of Newfoundland. It is reported that these islands now carry on the bulk of the liquor trade in the United States. Above are shown views of these islands, (1) Harbor of Miquelon, twin brother of St. Pierre, (2) delivering milk by dog team in St. Pierre; (3) drying capelin, a fish much like smelt, at Ile aux Chien, one of the French group, showing that there are other occupations.

PRESIDENT OF ISLAND SENATE ABOARD LINER

Official Party Will Discuss Philippine Independence Question at Washington

EXPECT NEW SHIP TO BREAK RECORD

VANCOUVER, Aug. 18.—Among the passengers due to arrive in Victoria August 22 on the New Canadian Pacific flagship "Empress of Japan," now on her first voyage from the Orient to Victoria and Vancouver are Hon. Manuel Quezon, president of The Philippine Senate, and a party of fifteen other Philippine Government officials. According to advices received at Vancouver from Manila by J. J. Forster, steamship general passenger agent.

While the personnel of Mr. Quezon's party is not known here as yet, it is understood the group comprises an official delegation from the Philippines, which will proceed from Victoria via Seattle to Washington to discuss the question of Philippine independence, a subject which figured largely during the last session of Congress.

The Empress of Japan, new 26,000-ton speed queen of the Pacific, sailed from Yokohama last Thursday with a total of 550 passengers, and is due to reach William Head quarantine station early on the morning of Friday, August 22.

If the Empress of Japan reaches the quarantine station before 11:50 o'clock Friday morning, she will eclipse the transpacific speed record of eight days, ten hours and fifty-three minutes from the 4,179-knot course from Yokohama to Race Rocks held by her sister ship, the 22,000-ton liner Empress of Canada. The new vessel is under command of Capt. Samuel Robinson, R.N.R., C.B.E., who commanded the Empress of Australia in the rescue of thousands of imperiled persons during the earthquake and tidal wave disaster at Yokohama in 1923, and was honored by H.M. the King for his part in the incident.

EXCURSION BOAT DUE

The Ss. Dorothy Alexander, Pacific Steamship Company, will arrive at Rithet Piers this afternoon at 3 o'clock from Seattle, and will leave three hours later for Alaska, with all her accommodation taken. Among the passengers making the round trip on the Dorothy are Mr. and Mrs. H. B. Brittan, of San Francisco, where Mr. Brittan is the general passenger agent of the Pacific Steamship Company.

GASOLINE WAS SPILLED WHEN TANKS DROPPED

Ton Weight Tore Through Fabric of Great Dirigible at Mooring

DROPPING CYLINDERS MADE A LARGE RENT

LONDON, Aug. 18.—It was rather a joke to have the R-100 moor in triumph after completing her splendid voyage to Canada and back, and then drop two tanks of gasoline as she did at Cardington Saturday night. It would have been a tragedy had anyone been standing below. However, this is most improbable, for the area under the ship is carefully guarded. As it was, all the blood spilt was several hundred gallons of gasoline, which dyed the soil of Cardington.

The engine fuel is carried in cylinders, the size of large barrels, slung under the backbone of the ship by bands known as spiders. It was from these cylinders the fuel had to be pumped to the service tank during the voyage. One of these spiders gave way, perhaps worn thin at the fastening point by vibration. The first cylinder went plunk to earth 200 feet below, and before the splash was over a second spider parted and plunk came another cylinder out of the sky.

These tanks are below the backbone of the ship, but within the fabric covering. The fabric is tough, but the ton weight went through it like a depth bomb and the dropping cylinders made a large rent. Had the accident happened at sea it would not have been fatal. The R-100 would have lost only about one-third or less of her fuel, as she carries more than twice enough for a normal voyage. The rent in the fabric might have been embarrassing in a gale, but it could have been repaired in flight quickly and efficiently from within.

LIQUOR SHIP WAS GIVEN CLEARANCE

WINDSOR, Ont., Aug. 18.—The steamer Vedas, which was seized by Canadian preventive officers in Lake Erie, Friday, has been given a clearance from Windsor. John H. Marshall, at whose dock the boat was moored, said he learned that the Vedas was "given a clean bill of health" by the customs after the preventive service had investigated charges that 3,000 cases of beer had been unloaded by the crew into a speedboat, near the Sister group of islands in Lake Erie. The Vedas carries approximately fifteen thousand cases of beer.

Yukon and Atlin Mails

Mails for the Yukon and Atlin will be dispatched from Vancouver and Seattle during the month of August as follows:
Princess Louise—Vancouver, 8 p.m., August 2.
Princess Alice — Vancouver, 8 a.m., August 6.
Princess Charlotte—Vancouver, 8 p.m., August 8.

Mail intended for transmission via New York must be so marked.
When forwarded by air mail over United States lines, mail sent via New York can be posted two days later than the dates indicated above.

Honorary Testimonial Is Presented to Conductor By Minister of Pensions

OTTAWA, Ont., Aug. 17.—With special comment on the service to humanity involved in the act, Colonel The Hon. Murray MacLaren, C.M.G., Minister of Pensions and National Health, today, at noon, presented the honorary testimonial of the Royal Canadian Humane Association to Clarence M. Leach, passenger conductor of the Canadian Pacific Railway, for prompt action and presence of mind in the rescue of Claire McDougall from drowning in the Rideau Canal at Ottawa on June 22, 1930.

In making the presentation, Dr. MacLaren recalled the circumstances of the event and praised the courage and promptitude exhibited by Mr. Leach. He spoke of the work of the Royal Canadian Humane Association and of the St. John's Ambulance Association in encouraging the development of these qualities among the citizenship of the country as a contribution of a high order to the welfare of the Dominion. He congratulated Conductor Leach on his service and said that he would be very proud to have won the distinction which had been conferred on the recipient of the parchment.

The presentation was made at the office of the minister, and was attended by Colonel A. Horgetts, director-general of the St. John's Ambulance Association; J. P. Hughes, C.P.R. superintendent at Ottawa; John A. Amyot, C.M.G., Deputy Minister, and other departmental officials.

Mr. Leach has been in the service of the Canadian Pacific Railway for twenty-eight years. This is not the first occasion on which he has won recognition for saving life. In 1913, he was awarded ten merit marks by the company for first aid to an injured sectionman, and for the same action was granted honorable mention by the St. John's Ambulance Association. On this occasion, also, he received a special letter of commendation from Mr. David McNichol, then vice-president of the company.

Northern River Fishermen Have Successful Year

ADDRESSING the Rotary Club at Prince Rupert, Fred Mathers, northern representative of the B.C. Packers, stated that the earnings of the fishermen on the Skeena would amount to $1,000,000 this season, and labor employed there would be paid $200,000 while on the Nass River the fishermen would receive $70,000, and labor would get $45,000, making a total in the neighborhood of $1,300,000. Some of this money had already been spent, Mr. Mathers pointed out, but there was yet over $500,000 to be paid out by the canners at the close of the season, some at the end of last week, the balance at the end of the present week.

AIRPLANE COMMUTING TO BE COMMONPLACE

Airport Authority Predicts Wide Use of Small Planes by Business Executives

SYRACUSE, N.Y., Aug. 18.—Daily air commuting of executives between their country homes and business offices in the larger metropolitan centres, such as New York, Detroit, Chicago, St. Louis, San Francisco and other major cities will be a commonplace occurrence before the end of the next five years, is the prediction made by H. S. Crouse, president of the Crouse-Hinds Company, this city, and noted authority on airport lighting.

Mr. Crouse adds it is his belief that distances to be blown in such commuting service will range as high as 150 miles from metropolitan centres, and that to adequately accommodate such commuters we will see the development of special airports directly within city limits, where small planes can land and take-off in limited areas. For this purpose he sees the active concentration of many airplane manufacturers on the further design of construction of small enclosed sport planes, combining great speed with ease in handling.

Service for such suburban air travel will be both private and commercial, he believes. "Many of the present-day younger executives," he adds, "will themselves learn to fly as the popularity of air travel grows, while in other instances we may expect to see the rise of regular air transport companies specializing in the operation of such suburban air lines between cities and far outlying residential districts."

MOTORSHIP COLBURRA NOT SERIOUSLY HURT

VANCOUVER, Aug. 18.—After being held on a reef south of Swanson Bay, 100 miles south of Prince Rupert, for several hours, the motorship Colburra, of the Pacific Steamship Company, of Seattle, was refloated and proceeded north to Ketchikan, Alaska. It is reported that the vessel was not seriously damaged. She ran on the reef during a heavy fog early this morning, while en route from Seattle.

PORTLAND ENDURANCE MONOPLANE IS DOWN

PORTLAND, Ore., Aug. 18.—Because of an intermittent air lock in gas lines and trouble experienced in taking oil aboard, the endurance monoplane "On to Oregon," piloted by the three Rankin brothers, landed on Rankin Airport at 1:25 o'clock this afternoon, about twenty-four hours after they took off yesterday.

Bean—Oh, gee! I forgot.
Dean—Forgot what?
Bean—I forgot to remember not to forget to tell you to remember—not to forget to tell me not to forget something I forgot.
Dean—What did you forget
Bean—I forgot what I forgot. But I forgot something I remember that I forgot to remember to tell you not to forget to remember to tell me not to forget what I forgot to remember—if I forget it.

A kind-hearted old gentleman saw a little boy trying to reach a doorbell. He rang the bell for him, then said "What now, my little man?"
"Run like blazes," cried the urchin, "that's what I'm going to do!"

FIRE PARTLY BURNS WEST COAST SHEDS

C.P.R. Wharf Saved by Firemen as Freight Structure Goes Up in Flames

The C.P.R. wharf freight sheds here were partially destroyed by fire early yesterday afternoon. The alarm was given about 2 p.m., and when the fire engines arrived the roof was a mass of flames. While there was not a great deal of danger of the fire spreading to adjoining property, owing to the sheds being fairly well isolated, there was a great possibility of the wharf itself catching fire, and the firemen made an added effort to prevent any damage to this structure.

Owing to the dry condition of the shed, which is of frame structure, quite a fight was waged to get the fire under control. Fortunately, the various consignees of freight had picked up their orders on Saturday, so that there was very little freight in the shed. One shipment outward bound from Brackman-Ker, consisting of flour and feed, was destroyed. A few hours after the fire the Princess Maquinna arrived with a large shipment of freight and supplies. The local agent had made arrangements to handle this and had several freight cars placed on the tracks on the wharf, into which the shipments from the Maquinna were placed. These cars will act as a temporary warehouse until the freight shed is reconstructed. It is thought the fire started through someone carelessly dropping a cigarette or a lighted match.

London will have a number of new skyscrapers.

VICTORIA to SEATTLE
VIA EDMONDS
AUTO FERRY STEAMER
City of Victoria
DAILY SCHEDULE
Leave VICTORIA 5 P.M.
Arrive EDMONDS 9 P.M.
Leave VICTORIA 1 A.M.

FINANCE - COMMERCE - MARKETS

Bear Raid on Stock Prices Fails to Achieve Success; Firm Resistance Offered

NEW YORK, Aug. 18.—Reactionary commodity markets encouraged the bear faction to apply further pressure to the stock market today, but again the market was found to have been hammered down about as far as it could go.

Stocks sold off sharply for a time in the morning, and a few individual issues developed acute weakness, but no general public liquidation could be shaken loose. Share prices rose almost as quickly as they fell when shorts tried to buy back their stocks. The market closely followed the pattern of Saturday. Most of the activity originated with floor traders, and the day's transactions aggregated only 1,413,610 shares.

The price index of ninety leading shares showed a net loss for the day of less than a point. The amusement shares were selected by bears as a vulnerable spot and a few issues in this group declined easily, but they regained about half their loss before the finish.

Powerful bear pressure was directed against Radio Corporation common, during the morning, and it sold off about three points, but the stock was well taken by brokers connected with its market sponsors and regained all but a point of its loss.

Columbia Gramophone was depressed three points to a new low at 13 1-8 and recovered a point. General Theatres Equipment sagged two points to a new low.

American Telephone, General Electric and United States Steel closed about steady. Such stocks as Coca Cola, Eastman, Hershey Chocolate, Western Union, Safeway Stores and Sears Roebuck lost two to three. United Aircraft was sent up three points in a large turnover. Earnings for the year are estimated at a little better than $2 a share. Standard Gas, Jewel Tea and Johns-Manville rose about two. Curtiss Publishing and Ingersoll Rand jumped seven in a small turnover.

The listed bond market moved irregularly today in a quiet and colorless session.

Railroad issues were in fair demand at close to their best prices of the year. Utilities were firm and the continued inquiry for investment issues brought out other lists of bonds in this group with several climbing to new 1930 peaks.

Changes in the foreign list were small and of a divergent nature, with the price level little disturbed.

Whitney Says Market Test Results Well

(Branson, Brown & Co., Ltd.)

NEW YORK, Aug. 18.—Whitney, of the Wall Street Financial Bureau, says: If yesterday's session is to be considered as one of the days included in the period of market testing which has been pointed out as the possibility held forth by the present week, then at least one day of the period has acquitted itself most honorably. While no actual progress has been made on the upside—nor was it expected that there would be—the market has certainly given a good account of itself in the face of a complete absence of encouraging news over the week-end, and, during the day, such factors as lower commodities all the way down the line of wheat, corn, cotton rye, oats, etc., further weakness in copper and inferences that Fall automobile sales will be made at lower prices than those in the Spring.

If we are not getting a market which is going up on good deals, we are at least getting one which does not go down on bad news, with all precedent showing that the latter invariably runs just ahead of the former.

In the meantime, those backgrounds factors pointed out yesterday as favoring, if not creating, a business recovery, continue to have new additions to their ranks with the sum total of them certainly representing an ideal situation for business to turn in. The latest additions consist of July figures on savings banks deposits and life insurance writings. In each case it is shown that the month of July registered the rather unusual performance of showing sizeable increases in both figures.

What is perhaps a more important addition, in that it is more directly related to the market, is the index of the purchases of "other than Government securities" by the New York City members of the Federal Reserve System. This index reveals that since the middle of March, this year, there has been a steady climb in holdings from approximately $800,000,000 to approximately $1,030,000,000, an increase of $230,000,000.

What is of perhaps still greater importance is that starting at this low point, representing practically the average of 1929 holdings, this index has first exceeded the peak of 1928 and in the last two weeks exceeded the peak of 1929. This buying in 1927 was done during a minor business decline during that year on the correctly anticipated basis that business recovery would at a later date make possible the sale of the securities so bought, with the entire operations proving of immense value in a stabilization programme.

I believe the present buying has back of it some purpose and an anticipation of the future business trend and that there is no more reason why the correctness of the minor buying in the minor business recession of 1927 should not be successfully repeated in the major buying which has just transpired.

FUNDAMENTAL FACTS ARE INDICATIVE OF BUSINESS RECOVERY

(Christy, Hall & Co., Ltd.)

General interest in the current state and future prospects for business is always active but it is especially so when a certain trend, up or down, has clearly defined itself and has continued for some time, and when the cyclical rules of past history indicate that the trend should reverse itself at no distant date.

That is the current situation and all eyes are scanning the horizon for the first signs of the upward turn in business and industry. The depression began just a little over a year ago and since the normal or average duration of past business depressions has been from ten to eighteen months there is more than a basic reason for anticipating at least some recovery during the Fall period. Pursuing farther the comparison with past history, it does not appear that business has gone quite so far down as in previous depressions, but when the indexes for July are compiled and plotted it seems probable that we shall have touched the normal "lows" for a model period of cyclical business lethargy. From the standpoint, therefore, of both time and extent, our current industrial slump has run true to form, and if it is to continue so, the months of September or October at the latest, should see the barometers rising once more.

The old cyclical rule tells us that construction project figures lead the parade of industry. Building turned downward toward the close of 1928, well ahead of steels, motors and other important lines. It is most logical to anticipate that building figures will also turn up in advance and be followed later by the rest of the industries. That is why the decided upturns of June may be most significant and are certainly encouraging.

Taking a broad view of the entire situation it appears that we have passed the low point in 1930 industrial production. We may look forward certainly to a seasonal recovery this Fall and even if such gains are not fully held the real turn in our cycle should not be so very far off.

NEW YORK SUGAR

NEW YORK, Aug 18.—Raw sugar was quiet and unchanged early today. No sales were reported, with duty frees nearby offered at 3.18 and Cuban at 3.20.

Refined sugar was unchanged at 4.50 for fine granulated, with demand limited to nearby only.

WHEAT MARKET TURNS HEAVIER

Trading Is Largely Local in Character—Longs Are Unloading

COARSE GRAINS WEAK

(Branson, Brown & Co., Ltd.)

WINNIPEG, Aug. 18.—Liverpool wheat prices more than following our decline on Saturday, a very small export business over the week-end, favorable weather for harvesting operations in Western Canada, and good rains over the Middle-West in the United States, which brought relief to the livestock situation, were the chief features in the grain markets today, and as a result prices broke sharply, getting under the close on Saturday. The market acted very heavy, but Chicago was a little firmer than Winnipeg and this caused early sellers of shorts to cover, resulting in slight upturns, all of which were difficult to hold.

Trade was largely local in character, longs were unloading, displaying little confidence in their position despite the low level of prices. The buying came through commission houses on resting orders and against the daily bids. Chicago finally weakened during the last thirty minutes, but offerings in the local market were not heavy and prices held around the low marks made earlier in the day.

The demand for cash wheat was quite moderate; offerings were light, and spreads were about unchanged. Export sales were confined to a few scattered loads over the week-end, and no new business came in during the day. Millers reported a little better inquiry for flour with a little export business working.

European weather is reported a bit more favorable. Russian offerings are becoming more pressing. Harvest is becoming more general in the Canadian West and early threshing returns in all three provinces are up to expectations. The Canadian visible supply decreased 1,377,000 bushels, while the United States visible increased 8,519,000 bushels. We would confine purchases to the setbacks. Wheat futures closed 3⅛ to 2⅜ lower.

Coarse grain markets were very weak throughout the day and were more or less following the break in corn and wheat. Cash market dull and trade appears to be confined to odd cars of low grade oats and barley for domestic use, export business being nil.

Flax was dull and sharply lower, demand quiet, with no interest being shown. Liverpool due ⅛ to ⅜ lower, based on Winnipeg.

Money at Work

Earning—Saving—Investing

The right way to create a—

FORTUNE

... for tune is usually the man who produces, and he usually produces some great service to mankind.

There are fortunes made by pure, unadulterated luck, but they are so few and far between that it is a waste of time for the average man to work or long for them.

The business world will reward any man who can step out and produce something worth while that other people want. Usually the man who makes a large fortune in the business world produces some unusual service.

For instance, Ford produced cheap transportation. Other men built railroads which made various parts of the country prosperous through the interchange of trade. Still other men brought out ideas of merchandising which gave the people what they desired and at reduced prices.

All of these men made large fortunes, yet mankind made more than they did, because the service was more valuable to the world than any one fortune could be.

The logical way to "get rich quick" is to produce something which will benefit the world so much that it will give you a fortune in exchange for your service.

News Topics

Eastern financial journals arriving here this week contain reviews of the six months' C.P.R. earnings report which confirm statements made in this column. After observing that a decline of something less than $7,000,000 is shown in the net earnings for the half year, the Montreal correspondent of The Financial Post goes on to say that this "does not truly reflect business conditions in Canada today; rather is it a reflection of an abnormal situation in the marketing of the 1929 grain crop," and that with the crop of 1930 marketed along more regular lines "earnings should advance during the Fall months and show substantial gains over similar returns for 1929."

Canadian Pacific's liquid position has been maintained. At the end of 1929 current assets totaled $114,298,160, of which cash amounted to $59,656,708.

Reports of several leading companies in Canada show increased sales as compared with those of last year. Galt Brass Company's business increased by $97,395. Fourteen new lines of goods were added which were not placed on the market until 1930. Melchers reports that its sales compare favorably with those of the same date a year ago. Belding-Corticelli's export trade shows considerable improvement. Imperial Oil sales of gasoline are up 4 per cent for the first six months of 1930.

Possibly the best salary contract in the world is that under which Sir H. W. A. Deterding carries on as head of the Royal Dutch Shell group. He draws £300 a year on a life contract signed thirty years ago, according to Business Week, and is not permitted to receive any bonus. But under the contract he does receive 3 per cent of the net profits of the original company and of all its subsequent subsidiaries. This commission amounts today to some $5,000,000 a year.

Winnipeg Electric Company, parent organization of the Northwestern Power Company, reports rapid progress on the Seven Sisters Falls development and that recently 200 additional men have been taken on the payroll, bringing the total force to 1,114. The monthly wage bill is now $160,000 and from the beginning of operations to the end of July wages paid amounted to $1,500,000, while the total expenditure on all items amounted to $6,000,000.

CANADA LEADS WORLD IN SUPPLYING TIRES AND TUBES TO INDIA

(B.C. Bond Corporation, Ltd.)

Canada took first place in supplying India with automobile tires and tubes, according to the Indian trade figures recently published for the fiscal year ended March 31, 1930. The Dominion exported 144,394 covers valued at 5,686,000 rupees, an increase over the previous year of 108,000 tires or 4,843,378 rupees. Inner tubes to the value of 1,234,774 rupees were shipped. The rupee, at par of exchange, is equivalent to 36c Canadian currency.

Thus, the Goodyear Tire & Rubber Company of Canada finds India a very important market for its products. Their sales have, however, suffered curtailment as a result of Ghandi's boycott of British goods.

The president of the company recently informed stockholders that Goodyear had the highest percentage of available dealers' business since establishment and had maintained position in the car manufacturers' sales. The company now has a daily output of 7,500 tires and the same number of tubes. Announcement was made of the opening on June 5, 1930, of extension at St. Hyacinthe, Que., of the plant of Goodyear Cotton Company, Limited, a subsidiary, which is at full production, operating twenty-two hours a day.

BRANDRAM-HENDERSON ADD TO EXPERT STAFF

In a recent interview George Henderson, of Brandram-Henderson, announces that the technical staff of the company has been augmented by the appointment of V. C. Bidlack, B.Sc., to the position of chemical superintendent. Mr. Bidlack, who has achieved a high reputation as a successful paint, varnish and lacquer technologist and formulator, will be located at the Montreal factories.

FUR FARMING INDUSTRY

The report on the fur farms of Canada, 1928, just issued, shows the rapid expansion of this industry. There were in Canada in the year under review, 4,326 fur farms and the kinds of furbearers raised in captivity include silver, cross, red, blue and white fox, mink, raccoon, skunk, marten, fisher, coyote, badger, lynx, muskrat and beaver. The total value of the furbearing animals on the farms at the end of the year amounted to $16,401,453 and the revenue derived during the year by the fur farmers from the sale of live fur-bearing animals and pelts was $6,226,446. The value of the pelts sold from fur farms, viz., $2,380,026, represents 12 1-3 per cent of the total value of the raw fur production of the Dominion for the season.

A list of the operators of the fur farms is issued as an appendix to the report.

Copies of the report may be obtained on application to the Dominion Bureau of Statistics, at Ottawa.

CHICAGO GRAIN PRICES DECLINE

Export Demand Is Light—Commission Houses Buy on Drops

FORAGE CROPS IMPROVE

(B.C. Bond Corporation, Ltd.)

CHICAGO, Aug. 18.—Lower prices in wheat today were the result of weak cables, depressed market at Winnipeg and also a slow export demand. Larger receipts in the Northwest also caused some selling, although reports from Minneapolis that there was a splendid demand for wheat in spite of the heavy arrivals. On the decline there was good business by commission houses with some short covering. Winnipeg reported a slow export demand and reports did not indicate much business was being done. However, clearances continue liberal and from all indications the Summer export business in Winter wheats has been the best in several years. Foreign advices confirm deterioration in crops as result of unfavorable weather, and there is said to be little export wheat likely to be available except from Russia and Rumania, from any European country this coming season. Russia is offering enough wheat to unsettle the markets to some extent, but it is doubtful if total shipments from that country offset to any degree the smaller crop in France alone. Primary arrivals 4,967,000 bushels Spring wheat arrivals swelling the total. Visible supply increased 8,518,000 bushels against increase 13,355,000 bushels a year ago. A trading market is indicated, but on the setbacks look for good buying.

Corn: The general rainfall put a damper on bullish activities in corn early, but on the declines, with December off nearly 10c from the recent high point, there was good buying. The buying on declines was commission local operators selling early. The general view of the corn situation is that rains will not change for the better adverse conditions caused by heat damage in July, but they will help pastures and forage crops. Nat. C. Murray estimates crop in seven surplus states as of August 15 at 91,000,000 bushels less than the Government August report estimated the same states. Receipts quite liberal. The country offerings were moderate and outside markets reported overbidding Chicago. Visible decreased 398,000 bushels.

Oats were weak in line with other grains but had a fair demand on the decline. Visible increased 3,830,000 bushels.

Rye sold off with wheat. Cash rye was a little weaker relatively and there is no great demand for domestic or foreign accounts.

BUSINESS SITUATION IN U.S.A. AND CANADA

The business situation across the border, to a considerable extent, might be taken to be the business situation in Canada, also, if it were not for the fact that we are governed not only in a very practical and monetary sense, but to a much greater degree in the psychological sense by the influence of our agricultural production, and, in particular, the Western wheat and other cereal crops.

At the moment, prospects are not unfavorable, says The Financial Post. The severe drought in the United States that affected seriously their corn and wheat crops has been the chief factor in the notable advance in values, which has probably more than offset the damage done to Canada by the drought here. Certainly when the increased valuation of the carryover of the 1929 crop is taken into consideration, it is doubtful if the country has been the loser, as a whole, by the drought. It is too early to be definite on that point and before this is published further damage in the West may have occurred, or further adjustments in prices, that will alter the situation, making it more favorable, or more unfavorable. At the moment a crop of between 340,000,000 and 390,000,000 bushels of wheat is forecast.

In Canada we must wait on the wheat crop before determining definitely if business has reached the bottom.

CALGARY OIL NEWS

(Miller, Court & Co., Ltd.)

CALGARY, Aug. 18.—McLeod No. 5 was drilling over the week-end in formation usually found overlying the Dalhousie Sands, according to George H. Cloakey, managing director of the company. The well had reached 4,580 feet.

McLeod No. 1 was fishing for cleaning tools while No. 3 was filling caving. Both these producers are being conditioned for larger production.

Turner Valley's two latest producers were attracting considerable attention over the week-end.

Dalhousie No. 7, midway between the central producing zone and the famous Home area, was on test. The well is reported to have a flow in excess of 15,000,000 cubic feet.

Associated No. 2, on the western flank of section 20, in which the Home wells are located, had not been placed on a separator at last report. The gas was still blowing debris from the hole with indications that the flow might be clear to run through the separator in a day or so. The volume at this well is somewhat less than the Dalhousie No. 7 flow.

Calmont No. 7 will be drilled deeper into the lime for greater production, according to P. C. Birks, acting manager director. Drilling will likely be resumed toward the end of this week. Equipment will be transferred from Calmont No. 1, which has completed cementing in a cavity some distance from the bottom of the hole.

Calmont No. 4 was drilling steadily in the lower portion of the poker chip sales, expecting to reach the limestone momentarily.

SIR HENRY THORNTON CONFERS AT OTTAWA

OTTAWA, Aug. 18.—Sir Henry Thornton, president of the Canadian National Railways, conferred this morning with Hon. Dr. R. J. Manion, Minister of Railways and Canals, for the first time since the latter's appointment. Sir Henry described the conference as purely routine in character and had no announcement to make. He leaves tonight for Montreal.

GROSS EARNINGS OF UTILITIES INCREASE

Gross earnings of ninety-five United States public utility systems operating gas, electric light, heat and power, and traction properties, increased 3.28 per cent in June, compared with the corresponding month last year, according to the Federal Department of Commerce. June gross were put in 189,000 against 183,000 in June last year. Net earnings were $83,000,000 against $79,000,000, a gain of 5.06 per cent.

C.N.R. CROP REPORT

WINNIPEG, Aug. 18.—The Hum of harvest machinery can now be heard from the international boundary north as far as Swan River in Manitoba, Paddockwood in Saskatchewan and Athabaska in Alberta, but harvest will not commence in the Peace River country until next week. Reports of hot, dry weather, which brought grains along to maturity too fast, come from some districts, while one or two others state heavy rain has lodged grain and will make cutting difficult. A few scattered points received hail damage, and in Manitoba and Eastern Saskatchewan some of the grain already in bins shows evidence of rust damage by the sample being below No. 1 Northern and the kernel not pleasantly plump, according to the weekly report of the Canadian National Railways.

The Peace River has expected clear, warm weather. Crops are ripening fast and cutting will be general within the next ten days, with crop prospects first class.

Cattle receipts have been heavier while hog receipts have decreased, as the cattle trade is purely local at present. The heavy receipts have forced prices to lower levels. Farmers having plenty of feed and suitable accommodation will not lose money by purchasing some light stocker cattle at present prices.

To Profit Through Advancing Prices

Regular review of his holdings is, of course, a part of the routine service rendered the investor by the Bond Department. We believe, however, that a careful special analysis is particularly desirable at this time. Bond prices are advancing, but not all issues on upward at the same time. It is our counsel to clients to allow us to make a special review of their holdings and to revalue them in the light of today's conditions. We will be pleased to make similar confidential studies for any investor who cares to submit a list of his securities.

INITIAL WHEAT PRICE OF POOL IS AGREED ON

Bankers and Pool Managers Settle Upon 70 Cents as Figure

INFORMATION IS FROM UNOFFICIAL SOURCES

WINNIPEG, Aug. 18.—The Winnipeg Tribune today publishes the following

"The initial Wheat Pool payment on the 1930 Western crop will likely be seventy cents a bushel."

Although the announcement from the pool management will not be made until Tuesday or Wednesday, it was learned from unofficial sources today that the central selling agency of the organization and the banks had agreed on this figure. There are some conditions attached, but for the moment they are not definitely known.

"They are to be the subject of further discussions at a meeting of the pool's and the banks' representatives."

MINING CORPORATION OPERATES PROFITABLY

Half-Yearly Report States That Despite Low Metal Prices Mine Is Doing Well

(Mebarey, Roe & Co., Ltd.)

The Mining Corporation of Canada, Ltd., in its half-yearly report to shareholders, reports conditions which have been more or less anticipated. The announcement that there remains in sight enough silver and cobalt to keep the Frontier property in operation for at least six months will be welcomed.

It is evident that operations at the Base Metals property in British Columbia are entirely satisfactory at this time. Sudbury work has been somewhat disappointing. The official report reads as follows:

"As indicated in the last report, the tonnage from the Townsite, City, Buffalo and McKinley Darragh properties was reduced to approximately a half by selective mining, with a corresponding increase in the grade to meet the decreasing price of silver. There still remains some high-grade ore in the Cobalt Lake fault and in the Buffalo Mines, which can be mined at a profit. The production for the quarter was 146,843 ounces; the mill heads averaged 27.98 ounces per ton.

EXCEEDS EXPECTATIONS

"The production from the Frontier has exceeded expectations. The surface shoot in the Watson vein proved to be wider and richer than in the back of the stope. The mining of cobalt ore, low in silver content, is proving profitable at the present prices for that metal.

"There remains enough silver and cobalt ore in sight to continue operations for about six months. Production for the quarter amounted to 100,127 ounces of silver and 57,349 pounds of cobalt.

"At the Quemont, diamond drilling was started in the middle of June from stations cut east and west of the dyke and north of the fault. A total of 786 feet has been drilled. While no ore has been encountered, the formation is favorable, and in places shows interesting alteration and brecciation.

"In Sudbury, the drilling at Foster Lake showed the ore to be of small extent and erratic in values. This work has been stopped. One drill is in operation at the present time doing assessment work.

OPERATION PROFITABLE

"Development work on both East and West Monarch ore bodies was carried on without interruption during the period. Results of this work in both grade and tonnage of ore developed have been highly satisfactory, and advance is being continued south on both ore bodies in excellent grade ore. No work was undertaken during the period on the Kicking Horse ore body. Production was maintained at the normal rate, approximately 25,000 tons having been milled during the period.

"In spite of abnormally low prices for lead, zinc and silver, profitable operation of the property is being maintained, and important additions are being made to ore reserves."

Investment by Mail

For the past twenty years we have made a special study of all problems bearing on investment by mail, during which time our investment-by-mail service has been developed to the satisfaction of a wide-spread clientele. ¶ Investors, no matter where located and irrespective of the amount of the investment involved, are cordially invited to avail themselves of this service.

Our current issue of Diversified Recommendations, which is one feature of the service, is now ready for mailing. We shall be glad to send you a copy.

BIG MISSOURI FEATURES DAY

More Than 12,000 Shares Change Hands—Final Sales at 66

HOME OIL ENDS AT $2.25

VANCOUVER, Aug. 18.—Light trading prevailed on the Vancouver Stock Exchange today. Prices early in the session weakened, but in some instances recovered in the afternoon. Home Oil sold down to a low of $2.12, but recovered somewhat in the late trading when sales were made at $2.20 with a small lot going at $2.25. Last sales of A.P. Consolidated brought 45, 3 down from Saturday's 48 high.

In the mining section Big Missouri continued to lead, more than 12,500 shares changing hands at prices ranging from 63 to 66, final sales being made at the latter quotation. Pend Oreille sold at 85 and Snowflake at 5 cents.

NEW CONSTRUCTION MATERIAL IS TESTED

Cement Alloy Is Vastly Lighter Than Concrete — Fireproof, Waterproof and Strong

Fire, load and water tests, conducted by Prof. Albin H. Beyer, of the Department of Civil Engineering, Columbia University, on a new building material, disclosed that the new compound, after being subjected for four hours to temperatures averaging 1,804 degrees Fahrenheit, recorded an increase in surface temperature of no more than eleven degrees, it was announced yesterday.

The new material is composed primarily of Portland cement and concrete, with the addition of lime and a small quantity of aluminum powder and soda. When poured out in a semi-liquid form, the aluminum powder generates hydrogen in the liquid mass, causing the compound to rise like bread to two or three times its original volume. A layer of liquid floor-filling two inches deep will rise within an hour to a height of five inches or more, drying rapidly as it expands.

The new material is from 66 to 75 per cent lighter than concrete, and so hard that a weight of 370 pounds to the square inch leaves no impression on its surface, according to the announcement. The tests were conducted for the Bureau of Buildings of the City of New York and the State Department of Labor at the fire-testing station maintained by Columbia University at Greenpoint, L.I., on a floor made of this material, half of which was four and one-half inches and the other half ten and one-half inches thick, with a half-inch Portland cement mortar finish.

To stimulate actual building conditions the floor was subjected to a load of 150 pounds to the square inch. Since the maximum temperature in a burning building of modern fireproof construction has been found to reach an average of around 1,700 degrees Fahrenheit, the temperature of the furnace directly under the flooring was kept above that figure for more than four hours, at one time reaching 1,910 degrees. At the end of the fourth hour the hottest surface temperature recorded on the thicker half of the floor marked an increase of eleven degrees.

Theoretically, the announcement said, office staffs could have worked at their desks during the four hours in a building constructed of the new substance with no intimation that a destructive blaze hot enough to melt silver and copper was raging only twelve inches below them.

CRUDE COUNTERFEITS

OTTAWA, Aug. 18.—Counterfeit Bank of Nova Scotia ten dollar bills are being circulated in Canada, according to a warning issued by the postoffice department. The spurious money is described as follows:

"The counterfeit is a photographic copy of the front of the genuine note issue of January 2, 1929, serial letter 'M.' In appearance it is darker blue and is quite blurred. The numbers, which are crudely executed, are about the same height but wider and the figures on one counterfeit already presented take up slightly more space than on the genuine bill. In size one of the fictitious notes presented is about one-sixteenth of an inch smaller than the genuine, while another is the correct size. The paper is rather greasy and has a shiny finish."

VANCOUVER WHEAT

CONSOLIDATED DIVIDENDS TO BE CONTINUED

Low Metal Prices Cut Profits but Situation Is Provided For

RESERVES CREATED TO MEET JUST SUCH CASE

MONTREAL, Aug. 18.—Sharp decline is shown in the earnings of Consolidated Mining and Smelting Company of Canada for the six months ended June 30, as compared with the same period of 1929, according to the report issued today. The report states that the drop is attributable entirely to the depression in metal prices.

For the six months' period gross profits amounted to $3,596,080, which contrasts with gross profits of $7,433,331 in the corresponding period last year.

The report states that the company's large contingent reserves were set up to take care of just such an abnormal situation as the present one, which the directors viewed as temporary. The directors thereupon favored the continuance of the payment of the usual dividends and bonuses unless, of course, metal prices should become wholly demoralized, something not likely to develop.

ALASKA SALMON PACK SLIGHTLY DECREASED

Total Is About 300,000 Cases Less Than Last Year — Carryover Has Nearly Doubled

Initial figures on the current pack of Alaska salmon are revealed in The Business Outlook, released by the Wells Fargo Bank & Union Trust. It states:

"The 1930 pack of Alaska salmon is tentatively estimated at 4,500,000 cases, about an average pack, and compared with 4,799,000 cases in 1929. Carryover as of July 1 was reported at 1,236,000 cases, against 640,000 a year ago. The cheaper pink and chum varieties will make up the bulk of the pack this year, because of an exceptionally small catch of the higher-priced red varieties. Accordingly, opening prices on pinks and chums were set at 30 per cent less than a year ago, while prices for red salmon were 17 per cent higher than a year ago."

MONTREAL, Aug. 18.—The gross earnings of the Canadian National Railways for the week ending August 14, 1930, were $4,443,682, as compared with $5,187,669 for the corresponding period of 1929, a decrease of $743,987.

SOUND AUCTION and CONTRACT

South	1 ♣	3 ♦	Pass
West	Pass	Pass	Pass
North	2 ♠	6 ♦	
East	Pass	Pass	

Auction Bidding

	1st Rd.	2nd Rd.
South	1 ♣	2 ♦
West	Pass	Pass
North	1 N.-T.	Pass
East	Pass	Pass

The fact that a two-suited hand, when played with that suit which partner can best support as trump, is worth as a rule two tricks more than if played at No Trump, is too often ignored when the holding of the second suit is insignificant as to high cards.

The above deal if bid by partners as North and South, who did not recognise the principles of the two-suiter and the forcing take-out, would be likely to prove very unremunerative. If in response to North's forcing take-out of two Spades, South should ignore his Diamonds and rebid Clubs to assure a five-card suit, the hand would very likely be played at three No Trump, with poor results at Contract, as a readily biddable Slam would be missed. If both the principle of the two-suiter and the forcing take-out were ignored by South, the hand would be played at a bid of two Spades, with the prospect of losing even a game.

SALIENT POINTS OF THE BIDDING

Contract: South opens the bidding with one Club. West, not quite strong enough to show his five-card Spade suit, passes. North, with four and a quarter quick tricks in hand divided among the three suits other than Clubs, makes the forcing bid of two Spades, his ranking four-card suit. East passes and South shows his five-card Diamond suit, which is of an extremely secondary nature. West passes and North bids six Diamonds, for even though South's bid may have been an absolute minimum, the chances for a slam appear to be better than even. East, South and West pass.

Auction: South opens the bidding with one Club. West passes and North bids one No Trump, since he has the other three suits stopped as well as high quick trick value. East passes and South shows his secondary Diamond suit, just as in Contract. His bid of two Diamonds concludes the bidding.

THE PLAY

In spite of the fact that North has bid Spades, West opens his fourth best card of that suit, since he will be leading through declared strength rather than up to it, as would be the case if he should open his four-card Club suit.

The Dummy going down, South can see that he should lose not more than one trick. If he finds the King of Diamonds in West's hand, the Small Slam is assured, and a Grand Slam is possible if the Club suit can be established or the hand ruffed out.

Accordingly he takes the trick with King in Dummy, and in order to take the Diamond finesse, plays the Ace and another Heart. The second round of Hearts is trumped with the three in South's hand, after which the four of Diamonds is led. The King of Diamonds played by West is practically marked as a singleton, reducing the probability of setting up the Club suit, hence the effort is directed toward cross-ruffing the hand.

The trick is taken with the Ace of Diamonds and the last Heart is led from North's hand. This is trumped in Dummy and the Jack falling, the indications are that West originally held five Spades, four Clubs, three Hearts and one Diamond. Had he held four Hearts, the lead of that suit as an opening lead would have been preferable to the Spade which had already been adversely bid.

A small Spade is led from South's hand and taken by the Ace in Dummy. The three of Spades is led, and, East realizing that the hand can be ruffed out if South is allowed to trump this trick low, plays the eight of Diamonds, which South over-trumps with the Jack.

No matter whether the reading of West's hand was correct or not, but one trick can now be lost; namely, the ten of Spades, and if the reading as to the number of West's cards is correct, there is a squeeze already established.

Accordingly South leads two rounds of Diamonds reducing North hand to the following:

♠ 10
♦ 6
♣ 9 7

East's hand may be neglected.
South's hand consists of ♣ A K 8 6
West's hand consists of ♠ Q; ♣ Q 10 5

North leads the six of Diamonds upon which South discards the six of Clubs. West must now discard either his Queen of Spades, making North's ten good, or discard a club. No matter which he does, North and South make a Grand Slam.

Heads Government in Nova Scotia

HON. G. S. HARRINGTON

Who was called upon to head the Government of Nova Scotia after the resignation of Hon. E. N. Rhodes, now Minister of Fisheries in the Federal Cabinet.

WORK PROCEEDING ON SASKATCHEWAN BRANCH OF CANADIAN PACIFIC

WINNIPEG, Aug. 18.—Following the granting of a charter at the last session of the Federal House to the Canadian Pacific Railway for a line from Duval, Sask., easterly, the company has proceeded with the work, according to T. C. MacNabb, engineer of construction. Engineers are now engaged in the task of discovering the most economic location for this important branch line.

The field work is not yet completed and it is too early to state definitely the exact location of the line.

The department, however, announces the investigation is most satisfactory and expects that a branch line highly useful in the territory involved can be economically built.

NEW INSURANCE

At a recent sales convention of over 400 managers and agents of the Excelsior Life Insurance Company, President Alex. Fasken, K.C., announced that the Excelsior Life had, at the end of July, passed the $100,000,000 mark of insurance in force, with assets now over $16,500,000.

New business written during the first seven months of 1930 was 54.5 per cent greater than during the first seven months of 1929, and a corresponding increase is anticipated during the remaining months of the year.

C.P.R. EARNINGS

MONTREAL, Aug. 18. — Traffic earnings of the Canadian Pacific Railway for the week ending August 14 were $3,277,000, as compared with $3,780,000 for the corresponding period of 1929.

REPORT SHOWS ITALY'S TRADE MUCH REDUCED

Imports Decline 31 Per Cent During First Seven Months —Exports Diminish Also

ADVERSE BALANCE OF TRADE IS LESSENED

By WILLIAM H. STONEMAN
(Copyright, 1930, by The Chicago Daily News Foreign Service.)

ROME, Aug. 18.—Italy's foreign trade decreased nearly 20 per cent between the first seven months of 1929 and the first seven months of this year, it is revealed by figures issued by the Director of Customs.

Trade in July this year, compared with that in July, 1929, shows a virtual drop of 30 per cent, exports having fallen 28 per cent and imports 31 per cent.

Italian newspapers, nevertheless, printing only the figures without percentages, acclaim the fact that imports have dropped more than the exports, the difference in the trade deficits for July last year and this year being approximately $100,000.

The trade deficit for the first seven months this year amounted to approximately $168,000,000.

WOMAN KILLED WHEN CAR SKIDS ON GRAVEL ROAD NEAR CHILLIWACK

CHILLIWACK, Aug. 18. — Mrs. Thomas Kenyon, fifty, on her way by motor from her home in Paris, Ont., to Vancouver, was fatally injured when the car which her husband was driving overturned in gravel on the Yale Road east of Rosedale late Saturday afternoon.

Mr. and Mrs. Kenyon were accompanied by their young son, two men friends and Miss Ernestine Ryder, of Rosedale, who had spent the past two years in Paris and was returning home.

Mrs. Kenyon's chest was crushed, and she suffered internal injuries. She died in Chilliwack Hospital Saturday evening. The young son suffered slight cuts in the head. The others escaped without serious injury.

DECISION DEFERRED ON VANCOUVER'S REQUEST FOR PROVINCIAL GRANT

VANCOUVER, Aug. 18.—Pending a conference between Prime Minister R. B. Bennett and Premier S. F. Tolmie on the unemployment question, the Provincial Government has deferred decision on the city's request for $100,000 to cover a portion of the amount expended by the city on relief for the first half of this year.

Notification to this effect has been received by Mayor W. H. Malkin in a communication from Premier Tolmie.

The Premier informs the mayor that he has been in touch with Hon. R. B. Bennett and has been informed that unemployment relief plans are advancing. To discuss the question as it applies to British Columbia, Premier Tolmie has left for the East.

Summer Dullness

Midsummer usually brings a period of market dullness. This year unfavorable conditions have aggravated the situation. Investors are away and often let their funds accumulate. This very dullness, however, frequently offers opportunities to acquire sound securities at lower prices than is possible when the Fall brings a renewed demand for high-grade investments. We invite inquiries by mail from investors who are away or who live out of town.

The Daily Colonist

RATES FOR CLASSIFIED OR WANT ADVERTISEMENTS

One and one-half cents a word each insertion; nine cents a word a week, with a minimum of ten words; cash with order. No advertisement accepted for less than twenty-five cents.

Death and Funeral Notices, $1.00 first insertion, $1.00 for each additional insertion. Marriages, Cards of Thanks and In Memoriam Notices, $1.50 per insertion.

Birth Notices, $1.00 per insertion.

Business or Professional Cards of two lines or under, $2.50 per month. Additional space at $1.00 per line per month.

Advertisers who desire may have replies addressed to a box at The Colonist and forwarded to their private address. A charge of ten cents is made for mailing replies. In this case add three words ("Box ..., Colonist") to the count for the number of words.

Out-of-town readers of our advertisements ask advertisers to give address as well as phone numbers, as it is not always possible to communicate through the phone.

To insure insertion Classified Ads should reach The Colonist before 10 p.m. on the day previous to publication.

Classified Ads for The Sunday Colonist will be accepted up to 10 p.m. on Saturdays.

The Colonist will not be responsible for more than one incorrect insertion of any advertisement ordered for more than one issue.

Any claim for rebate on account of errors or omissions must be made within thirty days from the date of the same, otherwise the claim will not be allowed.

The Colonist service is available every day from 8 a.m. to 10 p.m., excepting Sundays. Just call 11.

1 BIRTHS

WARD—On August 16, to Mr. and Mrs. W. H. Ward, Davis Street, Saanich, a daughter, at the home of Mrs. Bean, 640 Wildwood Avenue.

RUSSELL—At the Royal Jubilee Hospital, on August 18, to Mr. and Mrs. M. Russell (nee Altenburger), 10A Reed Street, a son.

RODSTRON—At the Royal Jubilee Hospital, on August 18, to Mr. and Mrs. P. Rodstrom, Eberle, Saanich, a daughter.

2 DEATHS

SHRAPNEL—There passed away at an early hour yesterday morning, at the family residence, Edith Mary Shrapnel, aged eighty-four years; born in Bradford-on-Avon, England, and a resident of this city for the past forty-one years. The late Mrs. Shrapnel was the widow of Edward Scrope Shrapnel. There remain to mourn her loss six daughters and one son.

The remains are reposing at Hayward's B.C. Funeral Chapel, and funeral services will be conducted on Wednesday afternoon, August 20, at 2 o'clock. Interment will be made in the family plot at Ross Bay Cemetery.

3 MARRIAGES

ANDREWS - ATKINSON — On Saturday, August 16, by Rev. A. deB. Owen, John Percival, eldest son of Mr. and Mrs. P. L. Andrews, 430 Niagara Street, to Lena Gladys, only daughter of Mr. and Mrs. O. Atkinson, Ralph Street, Saanich.

4 CARD OF THANKS

Dear Friends,—May we take this opportunity of expressing our sincere thanks and gratitude for your extreme kindness during our recent sad bereavement in the loss of a loving wife and mother, your kind sympathy, beautiful floral tributes and the knowledge that my late wife was held in such high esteem.

Again with sincere thanks to you all,
Yours very sincerely,
Mr. O. Newbold and Family.

5 IN MEMORIAM

WHALLEY—A tribute to the memory of my comrade, William Whalley, who passed on August 19, 1926, at Samfield, B.C.

There is no death
Never the Spirit was,
It shall cease to be never

GOVERNMENT LIQUOR ACT
Notice of Application for Beer Licence

NOTICE is hereby given that on the 2nd day of September next, the undersigned intends to apply to the Liquor Control Board for a licence in respect of premises being part of the building known as the Six-Mile House, situated on the Island Highway, Parson's Bridge, upon the lands described as part of Section 13, Esquimalt District, in the Province of British Columbia, for the sale of beer by the glass, or by the open bottle, for consumption on the premises. Title No. 19499 F.

Dated this 2nd day of August, A.D. 1930.
JAMES PRICE,
Applicant.

LAND REGISTRY ACT

In the Matter of Lots 8, 3d, 11 and 12, Block "Y," Victoria City, Map 233-A.

PROOF having been filed in my office of the loss of Certificate of Title No. 7365-F to the above-mentioned land in the name of Lemon, Gonnason & Company, Limited, and bearing date the 23rd day of October, 1913, I hereby give notice of my intention, at the expiration of one calendar month from the first publication hereof, to issue to the said Company a Provisional Certificate of Title in lieu of such lost Certificate.

Any person having any information with reference to such lost Certificate of Title is requested to communicate with the undersigned.

Dated at the Land Registry Office, Victoria, B.C., this 28th day of July, 1930.
N. J. CRANE,
Registrar,
Victoria Land Registration District.

VICTORIA BOY IS MASTER OF MATSON SHIP

Rescuer of Passengers and Crew of Tahiti Born Here

FATHER WAS CAPTAIN OF STEAMER DANUBE

Master of the Matson liner Ventura, which ship speeded to the rescue of the sinking Tahiti in the South Pacific, and was instrumental in taking off the passengers and crew before she went to the bottom, was Capt. William R. Meyer, a native son of Victoria. Captain Meyer grew up in the city, attending the old Collegiate School and the Victoria High School, later going East to complete his education, and subsequently entering the service of the Canadian Pacific Steamship Company, and was aboard the Empress of China when she was wrecked on the China Coast. He has been master of the Ventura for the past six years, having been first officer of the ship for some time previously. The Ventura operates between San Francisco, Sydney and way ports in the South Seas.

Captain Meyer's father was a well known master mariner, who sailed out of this port for a great many years, among his commands being that of the Ss. Danube, belonging to the old Canadian Pacific Navigation Company. His mother is at present visiting in the city, renewing old acquaintances. She reluctantly talked of her son's achievements yesterday, and stated that he would consider the part he had played as being all in the day's work and in line with a sailor's duty to render aid to ships, their passengers and crews when in peril on the sea.

LOCAL FLYERS BRING CANADIAN PLANE FOR SIGHTSEEING TRIPS

Flying a Fleet biplane, an all-Canadian manufactured machine, H. G. Madden, 1265 Roslyn Road, and Pilot P. M. McGregor, 2120 Granite Street, arrived at Lansdowne air field yesterday afternoon. The plane is the one used in connection with special stunts at the Vancouver Exhibition, which closed Saturday.

Present plans are for the plane, owner and pilot to stay here for one week, but if conditions warrant, headquarters will be established here instead of at Vancouver. Pilot McGregor who has had considerable commercial flying experience, will make daily sightseeing trips over the city during the week's stay here, conducting an air taxi service from the Lansdowne field.

"WRESTLING AS IT SHOULD BE"

Sports Editor.

Sir,—I feel that I really must write a few words of praise for the really wonderful exhibition of wrestling put up by Desmond Anderson and Jack McLaughlin at the Tillicum Club last Saturday night. They deserved all the applause they received, as it was a really clever, clean, sportsmanlike contest, with honors fairly even. It was very different from the crude methods of some of these foreigners that have been here recently, who not only break all the laws of the game, but refuse to obey the referee and hit him and push him away. In fact, they are not wrestlers at all; they are nothing but rough and tumble fighters. The conduct of Harry Demetral and Karasick on Saturday night was disgusting to anyone who likes clean sport to say the least, and could not compare with Anderson and McLaughlin. It is to be hoped these two men will stick to their present style. It is a credit to them, and they will always have the public with them, and will be respected, which will be of great value to them as time goes along. Everyone likes a clean sport, no matter in what line of sport it is, and these two are the best seen here yet. Thank you, Editor, for the small space allowed me.

H. A. BROWNING.
Washington Avenue, Aug. 17, 1930,
Victoria, B.C.

GOVERNMENT LIQUOR ACT
(AUGUST 11, 1930)

NOTICE OF APPLICATION FOR BEER LICENCE

Notice is hereby given that on the 11th day of September next, the undersigned intends to apply to the Liquor Control Board for a licence in respect of premises known as Mill Bay Inn, situated on the Island Highway, and described as Lot 47, Malahat District, for the sale of beer by the glass or open bottle for consumption on the premises. Title No. 58780-G.

Dated at Victoria, B.C., this 11th day of August, 1930.
JESSIE RUTH OUNTINS-HURST.

LAND REGISTRY ACT

In the Matter of Lots 6 and 4 of Lots 4d and 42, of Smilan 6, Victoria City, Plan 750.

PROOF having been filed in this office of the loss of Certificate of Title No. 31683-G to the above-mentioned land in the name of Frederick William Fawcett and bearing date the 5th day of November, 1909, I hereby give notice of my intention, at the expiration of one calendar month from the first publication hereof, to issue to the said Frederick William Fawcett a Provisional Certificate of Title in lieu of such lost Certificate.

Any person having any information with reference to such lost Certificate of Title is requested to communicate with the undersigned.

Dated at the Land Registry Office, Victoria, B.C., this 28th day of July, 1930.
N. J. CRANE,
Registrar,
Victoria Land Registration District.

NOTICE

Notice is hereby given that on and after August 1st, 1930, lands in the Railway Belt and Peace River Block recently retransferred to the Province by the Dominion, come under the administration and land laws of the Province.

It is the desire of the Government to foster settlement in conformity with these regulations, and furnish all available information to assist this end, but no consideration will be given persons squatting upon or entering into occupation of such lands without authority.

N. CATHCART,
Deputy Minister of Lands.

NOTICE

To Whom It May Concern:

I, IVER DOUGLAS A. SEELEY, will not be responsible for any debts incurred by my wife, Annie Mary Seeley.

RANK OUTSIDER WINS SIXTH EVENT TO PAY $345 FOR NOSE DUCAT

Continued from Page 11

over a mile and seventy yards. On the Job was second and Tennessee third. Warsina came with a burst of speed on the turn to home and took the decision by a length. On the Job closed strongly but could not get by the winner, who had the rail position. Tennessee took third money in a hard drive with Will Ward. Shasta Bishop, the pace setter for three-quarters of the way, folded up on the stretch and finished last. Fourteen Sixty, the favorite, was never a contender, while Russell Gardner, the second choice, finished well down the list. Warsina paid $345.40 to win, $106.95 to place and $14.80 to show, or $467.15 for a $6 combination ticket.

Eagle's Home won the closing event over a mile and seventy yards. Nelda Jo was second and Missoula Boy third. The winner went on top on the last turn to home and won by two lengths. Nelda Jo was an easy second, while Missoula Boy just lasted to beat Star Whim in taking the show berth.

First race—Claiming; purse $300; for three-year-olds and older; five furlongs:
Tanasa (D. Neal) $20.40 $8.85 $4.95
Rag Rag (Pevic) 3.70 2.10
Sis Terpie (Kelly) 4.00
Time, 1:03 1-5. Also ran: Macushla II, Bremerwald, Wickawack, Jim Rogan, Margaret Buchanan, Oregon Mist, Oregon Rose.

Second race—Claiming; purse $300, for two-year-olds; four furlongs:
Miss Dick (Pevic) $6.90 $4.20 $3.60
Flirtiecy (Schmitz) 4.60 3.80
Bonnie Das (Kelly) 5.40
Time, :50 3-5. Also ran: My Poste, General Leggett, Linger Longer, Super Fashion, Irish Gold, Ruth's Babe, Nanaimo.

Third race—Claiming; purse $300, for four-year-olds and older, five and one-half furlongs:
Bull Sen (Fredericks) $4.70 $3.75 $2.40
Tatters (Pevic) 3.50 3.30
Flat Foot (Palses) 3.80
Time, 1:10 3-5. Also ran: Grand Falls, The Falconer, Gold Chain, Escolane, St. Martins, Frank 4, Mr. Charlie.

Fourth race—Claiming; purse $300; for four-year-olds and older, five and one-half furlongs:
Nannie Frances (Pevic) $4.45 $2.90 $2.50
Norton (Ohipoine) 4.00 4.35
Queen Marie (Pelsm) 3.50
Time, 1:10. Also ran: Moonchild, Nanie, Miss Jennings, Viklon, Gransson, Inviston, Smart Horse.

Fifth race—Claiming; purse $300; for three-year-olds and older; six furlongs and thirty yards:
Lady Spain (Craigmyle) $7.45 $4.10 $3.00
River Maid (Schmitz) 4.50 4.80
Silk Trolo (O. Bee) 3.25
Time, 1:10. Also ran: Call O., Rosamond, Salty.

Sixth race—Claiming; purse $300, for three-year-olds and older; one mile and seventy yards:
Warsina (Anderson) $345.40 $106.95 $14.80
On the Job (Nelly) 5.80 4.00
Tennessee (Palses) 4.20
Time, 1:45 3-5. Also ran: Will Ward, Shasta Bishop, Mib McGee, True Shot, Fourteen Sixty, Russell Gardner.

Seventh race—Claiming; purse $300; for three-year-olds and older; one mile and seventy yards:
Eagle's Home (Palses) $2.45 $4.60 $3.05
Nelda Jo (Fredericks) 5.85 1.20
Missoula Boy (Anderson) 5.70
Time, 1:45. Also ran: Starwhim, Billy Wals, Gas Welch, Brian Kent, Valley Joe, Shadow Spark.

OVERNIGHT ENTRIES

FIRST RACE—Claiming; purse $300; three-year-olds and older; five and one-half furlongs (14).

ELECTION IN BROMLEY REVEALS PARTY SPLIT

Beaverbrook and Rothermere Factions Show Opposition by Contesting Seat—Vote Sept. 2

LONDON, Aug. 18.—The Conservative voters in the Bromley by-election, which takes place September 2, may be forgiven for harboring some perplexity regarding the merits of the Conservative and United Empire party candidatures in the light of a speech delivered this evening by E. A. Campbell, the regular Conservative nominee.

The Beaverbrook newspapers have been studiously ignoring the candidature of V. C. Redmond, a former Queensland, Australia, state member of the Legislature. He runs under the United Empire party label and the Rothermere press has been boosting him with big headlines. It evidently took the present by-election to disclose the split between the Lords Beaverbrook and Rothermere over policy.

Tonight Mr. Campbell praised Lord Beaverbrook highly, saying he had done untold good by educating the public to the possibilities of Empire trade. Mr. Campbell wanted the electors to realize that Mr. Redwood was the candidate of Rothermere's United Empire party, not of Beaverbrook's United Empire Crusaders.

He described Mr. Redwood as a political "gate crasher" put up by the local branch of the United Empire party, and he questioned whether the branch was destined to obtain any financial support from Lord Rothermere.

"They are already sending around the hat for the subscriptions," added Mr. Campbell.

DROUGHT RELIEF PLANS PROGRESS

U.S. Secretary of Agriculture Says Corner Turned by Recent Rains

VIRGINIA OFFERS AID

WASHINGTON, Aug. 18.—Recent rains in drought areas today led Secretary Hyde to say he believed the "corner had been turned." At the same time, word came from the White House that President Hoover expects to name his national organization for relief work this week.

The President has been awaiting the shaping of state relief committees before designating the national organization, but reports from the states have convinced him he can name its members before the week is out.

The Virginia drought relief committee, the first state group to be named, conferred with Government officials today and proposed that the estimated 75,000,000 bushels of wheat held by the Grain Stabilization Corporation be made available to stricken farmers for livestock feed. The group was headed by Harry F. Byrd, former governor.

This, Byrd contended, would help toward increasing the price of wheat and would benefit farmers who need feed for stock.

Burgess Bedtime Stories

A Misleading Name

By THORNTON W. BURGESS

A name quite often may deceive;
Be sure you know what you believe.
—Old Mother Nature.

Peter Rabbit was all excited. But he was soon to be still more excited. He had made the acquaintance of Egret the Great White Heron. Egret had told him that he had a handsomer cousin, who also dressed wholly in white—Snowy Egret, also called the Little White Egret. Also, Egret had said that there was still another of the Heron cousins who dressed in white, and that when he had come up from the sunny South, some of these white cousins had come with him. He had parted from them at the mouth of the Laughing Brook where it entered the Great River.

"I do wish," said Peter, "that those white cousins of yours would come up here to the Smiling Pool. How I should like to see them!"

Hardly were the words out of Peter's mouth when Jerry Muskrat squeaked, "Look, Peter, look over toward the Big River."

Peter looked. Winging their way straight toward the Smiling Pool came three big birds that Peter recognized at once as Herons. And they were white, all white. At least, that is the way it seemed as Peter looked up at them.

"Here come my cousins now," said Egret. "You'll have a chance to become acquainted with them. Each of the visitors in turn dropped his long legs and alighted on the edge of the Smiling Pool near where Egret was standing. There they stood with their necks stretched up after the fashion of all Herons when they alight. Peter fairly gasped, for it was a wonderful sight to see four such big birds all in white. Peter noticed at once that Egret was the biggest. Also he saw that the three new arrivals had black bills, while the bill of Egret was yellow. He also noticed that the legs were rather greenish. Now that they were so close, he saw that two of the three had a few bluish markings, which would not be seen at a greater distance.

"These are my cousins, the Little Blue Herons," said Egret to Peter and Jerry.

"Who did you say they were?" Jerry Muskrat asked; and his face wore a puzzled look.

"Look, Peter, look, over toward the Big River!"

"Little Blue Herons," replied Egret.

Jerry rubbed his eyes and pretended there was something the matter with them. "I guess I need new eyes," said he.

There was a funny look of surprise in the eyes of Egret. "Why do you need new eyes?" he asked.

"So that I may see correctly," replied Jerry. "Now, those cousins of yours look to me to be all white, but you say that they are blue."

"Nothing of the sort!" declared Egret. "I didn't say they were blue: I said they were Little Blue Herons."

"Do you mean," spoke up Peter, "that they are the children of Longlegs the Great Blue Heron."

Egret shook his head. "Of course not!" said he. "The children of Longlegs the Great Blue Heron never wore white in their lives. These are the children of Little Blue Heron, and that is why they are called Little Blue Herons. Little Blue Heron is no bigger than they are now."

"And is he dressed all in white, too?" asked Peter.

"Of course not!" replied Egret, beginning to get a little impatient. "They wouldn't call him Little Blue Heron if he were."

"Then why do they call these Little Blue Herons, when they are white and no blue at all," demanded Peter. "I'm getting all mixed up."

COBBLE HILL VOTES FOR SUPERIOR SCHOOL

Special Meeting Indorses Estimates Presented by Trustees — Two Teachers to Be Engaged

COBBLE HILL, Aug. 18.—A two-room superior school is to be established at Cobble Hill, it was decided at a special meeting of the ratepayers, held on Saturday evening, at which about fifty voters were present. The plans and estimates presented by the trustees were overwhelmingly indorsed.

Selection of the temporary quarters was left to the school board, in collaboration with the school medical officer, Dr. Stanier. The board will also decide whether the new room to be built will be an addition to the present school or a new school erected on the site proposed for the defunct Plantagenet Consolidated School.

The meeting voted $2,305 for all school purposes for the year, the estimates being adopted as a whole after being explained by the trustees. Salaries were included for two teachers, one to teach grades one to seven and the other to teach grades eight to ten. Thirty children are expected to attend the lower grades and from sixteen to twenty are expected to take the senior courses.

The meeting was attended by all members of the board, G. E. Bronner, chairman; A. C. Cheeke, secretary, and W. J. Freeman, trustee. The ratepayers elected F. Bomford as auditor.

PRIZES PRESENTED TO TOURNAMENT WINNERS

LANGFORD, Aug. 18.—A pleasing event took place on Sunday afternoon at the local tennis courts when J. Stuart Yates, honorary president of the club, presented the trophies won at the recent tennis club tournament.

Art Howe, of Chemainus, received the cup for men's singles; Jack Wilkinson the Junior Cup; Mrs. A. P. Bayles and H. C. C. Bennett the cup for mixed doubles. In the handicap series, Mrs. A. F. Bayles and A. N. Brown won the prize for mixed doubles; Mrs. F. A. Sparks the ladies' singles; Cyril and Jack Wilkinson the men's doubles.

Mr. Yates also announced that in the interclub league matches, carried on the past season, the Langford club had won nine points out of a possible twelve, this putting the local club top of Section III, Division III.

Among the guests present were Mesdames Ritchie, G. Aikman, E. C. Stewart, P. N. Welch, P. A. Sparks and L. G. Wilkinson, Mr. and Mrs. Norman Brown, H. A. Hincks, R. Pennington, A. F. Baylis and E. Le Quesne, and Messrs. J. Stuart Yates, Stanley Turner, Art Howe and T. Catterall.

Delicious refreshments were served by the ladies under the trees.

OBITUARY

The death occurred last night, after a very short illness, of Donald Edward, youngest son of Mr. and Mrs. Stephen Saunders, of Relingferg Road, Duncan. After a short service tomorrow afternoon at the Gospel Hall, interment will be made in Mountain Valley Cemetery, Somenos. Arrangements are in the hands of the Whidden Funeral Parlors.

BOY FALLS ON FIRE LIGHTED ON BEACH; BURNS ARE SEVERE

NANAIMO, Aug. 18.—Falling on a fire lighted on the beach by swimmers at Long Lake, Wellington, Alex Richardson, of this city, was severely burned. While playing with others about the fire, he was accidentally pushed over it, and received burns on the head, body and legs. He was taken to his home, where Dr. Earl Hall was in attendance on him during the night. His condition is reported as good, considering the nature of his injuries, although he is suffering much pain.

BRITISH COUNTER ATTACK

In the wake of the Bobby Jones-Bill Tilden invasions of Great Britain, bringing back three of her finest cups, the British start their counter attack on American turf this week.

This will be the first of four engagements on land and sea—referring here to the women's tennis championship at Forest Hills and Miss Betty Nuthall's chance to win. There are no one-sided favorites left—in fact no distinct favorites, but Miss Nuthall at least has a first class chance.

The next British counter-attack comes at Meadowbrook early in September against a young, hard-riding, hard-hitting American polo team that will be something to stop. The third moves from land to water as the races for the America's Cup get under way. The fourth will come at Merion, where Cyril Tolley, who carried Bobby Jones to the nineteenth green at St. Andrews, will be among those attempting to check the Jones rush.

A fifth counter attack might be included in the visit of British track and field athletes, who come to Chicago in a short while.

NO DISCOURAGEMENT

No one can accuse the British of being easily discouraged. As one of her poets wrote after a smashing German attack during the war—"we all went back at the seventh wave—but we wait for the tide to turn." This time they are not waiting for the tide. They have probably never sent across before as formidable a challenge list.

Her polo team looks to be a big improvement over the last set of challengers, and Shamrock V will be a much harder boat to beat than Shamrock IV. Tolley will be too badly outnumbered at Merion to have much of a chance, but he may cause a lot of bother if he happens to hit one of his good weeks.

Almost everywhere you turn along the Eastern border you will see invaders getting ready for the September wars that are now only a few weeks away. And they can be counted upon to sell their lives as dearly as possible for the glory and honor of the Union Jack.

IN OTHER FIELDS

Strangely enough the main American deficit has come in a world where the United States has had almost a walkover. This happens to be in the heavyweight whirl.

There has been little to it except the United States since Sullivan. Corbett and Jeffries were supreme—Fitzsimmons being the sole interloper.

Now Max Schmeling, a German, holds the title, and Carnera, an Italian, has the possibilities of being an even tougher menace. He is at least the game's big drawing card—something he has proved by attracting the populace in the course of meeting some of the softest set-ups of all time. Some of them have been worse than no opponents at all. The whisper has gone around that many of these programmes were all arranged in advance. Even that hasn't stopped the rush for the gate.

If Campolo can beat Sharkey he will bring about a new element to be considered in the final disposal of the crown.

SOME PITCHING

In the midst of an era supposed to be water logged with sour pitching, your attention is called to a few survivors of the old school. There is Earl Whitehall, of the Tigers, who turned in his tenth straight victory a day or so ago, and he arrived at this point by lamming the Yankees, 6 to 1.

There is young Wes Ferrell, of the Cleveland Indians, who stepped into his twentieth victory, and he touched this new height by beating the Athletics 16 to 0. Here are two pitching performances on a par with the best of the past.

And there is Ted Lyons, who is also hovering around the twentieth victory mark, pitching for one of the weak outfits—the same being the White Sox. Bob Grove is steaming along, pitching fine ball, but the lofty left hander has a real aggregation to work with. Ferrell, Whitehill and Lyons have to travel a rougher road—but they have traveled the same with a carload of eclat.

The women's tennis championship at Forest Hills this week should be one of the most interesting competitions of the season—for it will be close competition most of the way. Heretofore it has been mainly a matter of finding some survivor to go against Miss Wills in the final match and try to win a game out of each set. But the element of competition has been lighter than thin air for many years. This time it will be a scramble.

Most of these engagements last a day or a week. But the Babe and Hack have an argument under way that broke loose last April and won't come to a close until the last of September.

TODAY'S GOLF DOPE

Those who have yet to learn the vital part that wrist action plays in almost every golf stroke should begin to make a study of the same. Lack of wrist action is largely due to tension—to tightening up. If the wrists are not working—the hands are not working—and the shoulders and body are controlling the swing—which is something the shoulders and body should not do.

After all anything can happen in a horse race. But what a few million people would like to know is why a jockey of Earl Sande's ability could miss the pace so badly, and let a rank outsider take charge of the race.

One answer might be a muddy track. Another might be that Gallant Fox had finally run himself out, starting back in April. A third might be that the rank outsider was a pretty good horse—a much better horse than many people believed him to be.

Probably the best answer is that there is really no answer that will stand up at all, and that it gets back to the fact that in this sporting whirl anything can happen at any time.

RESIGNS FROM GOVERNMENT

CHARLOTTETOWN, P.E.I., Aug. 18.—Hon. W. Bruce Butler, member without portfolio in the Government of Premier Walter M. Lea today resigned from the Government. He announced he would support the Conservative Opposition at the next session of the Legislature.

Mr. Butler had been a member of the present ministry since its formation, having joined the Cabinet in 1927 under Premier Saunders. He has been a member of the Legislature since 1923.

DIVER SUCKED UP PIPE

While clearing a culvert underneath the Portsmouth, England, dockyard, Harry Rodgers, a diver, was sucked halfway up an air suction pipe, and was held prisoner for six hours. His air pipes and lifeline were not cut, so it was possible to continue to supply him with oxygen. Welders eventually cut the suction pipe and brought that section containing the man to the land, where Rodgers was released.

FRECKLES

A Simple, Safe Way to Get Rid of These Ugly Spots

There is no longer the slightest need of being ashamed of your freckles, since it is now an easy matter to fade out these homely, rusty-brown spots with Othine and gain a clear, beautiful complexion.

After a few night's use of this dainty white cream you will find that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It's seldom that more than an ounce of Othine is needed to clear the skin of these unsightly blotches.

Be sure to ask at any drug or department store for Othine double strength. It's always sold with guarantee of money back if it does not remove every last freckle and give you a lovely, milk-white complexion. (Advt.)

EMBARRASSING MOMENTS

Health and Diet

By DR. FRANK McCOY

THE ADVANTAGE OF FRUIT IN FASTING

When most people think of fasting they think this means going without food entirely.

Most of the doctors who originally used the fasting regimen gave a plain water fast, which time the patient was given plenty of water but no food. In some cases the patients were given a dry fast, which is the opposite extreme—lots of dry food but no water.

These are not the kinds of fasts which I usually write about or advocate in this column. What I usually recommend is a short fruit or fruit juice fast, or a milk diet, followed by a well-balanced menu. In some cases, longer fasts would no doubt be helpful, but I do not believe it is advisable for a person to take a long fast without being under the supervision of someone who understands fasting. I have had patients on fasts for thirty days or more, during which time they used nothing but large quantities of water. No food of any kind is given in these cases, and such a fast is necessary to bring about a cure of some deep seated organic or functional disease. However, the majority of fasts which I now prescribe consist of fruit or fruit juice fasts, for the reason that as soon as the patient starts on a plain water or dry fast, the body is literally flooded with acid poisons, and an acute toxemia develops which, however, disappears in a few days, but recurs at irregular times if a long fast is taken.

After observing many of these cases it seems to me that they were caused by the fact that the poisons of the body were not eliminated with a steady regularity and I believed that some means could be devised for avoiding these crises. Accordingly I experimented with fruit fasting and found that if the patient took orange, apple, tomato or other fruit juices containing alkaline mineral elements, the value of the fast was not interfered with, but some of the unpleasant symptoms were avoided. This is especially true in cases where the liver or gall bladder is congested. The fruit regimen seems to bring about a steady flow of bile and other digestive juices which is highly important, as the bile is made up almost entirely of bodily wastes.

I do not wish to convey the impression that fasting is a cure-all, but I believe that a properly-used fast is a helpful adjunct in the beginning of any disease. Even in such cases as anaemia and tuberculosis the patients always start to improve when placed on a short exclusive fruit diet. I have never seen anyone who was injured by a few days of fruit dieting.

Correspondents wishing to communicate with Dr. McCoy should address letters: Dr. Frank McCoy, c.o. McCoy Publications, Inc., 621 South Ardmore Avenue, Los Angeles, Cal. A self-addressed, stamped envelope should be enclosed for the reply.

Two special trains in France recently carried nothing but crocodiles destined for a French zoo. There were 1,085 "crocs" in the shipment, and it required sixty men, working twenty-four hours, to unload the travelers at the zoo, which is a sorting center and rest station for various animals being sent to circuses and other zoos.

FOG-BLIND FLIERS GUIDED ON COURSE BY LATEST DEVICE

SAN ANTONIO, Texas, Aug. 18.—A new device to aid aviation in its fight against hazards of fog flying has been developed by Capt. W. C. Ocker, air corps flyer. He calls it a "flight integrator," an instrument to eliminate the tendency of a pilot flying blind to swing in circles and eventually drive his ship into the earth.

A dummy aeroplane simulates the up-and-down and tilting movements with respect to an artificial horizon, while a movable screen in the background registers turning motions. Painted on the screen are clouds, one of which moves into view for each forty-five degrees the plane is turned, a horizon line, and the earth. Directed by a gyroscope, the picture moves to the left as the plane is turned to the right, and to the right in a left turn.

The device, Captain Ocker says, eliminates the illusion to a pilot flying blind of evening to get to the right when his plane really is going to the left. "Without sight," he explains, "the pilot relies on the 'inner ear' which, unfortunately, is a false indicator. Pilots even with instruments in front of them will doubt what they see and rely on their feelings.

"The flight integrator aims at solving this problem. The moving screen registers for the flyer, in a bended cockpit or in fog, the motion of the plane with respect to the earth and gives him the necessary balance."

The instrument weighs ten pounds and was developed after experiments in which Captain Ocker found aviators could not depend on their senses. While the first integrator is a crude instrument, he expects to develop it where it may become standard equipment.

GREATEST CARILLON TO SOUND IN TOWER OF MONSTER CHURCH

NEW YORK Aug 18—High in the 465-foot Gothic tower of the great new Riverside church, the world's largest carillon soon will be pealing out over New York's peaks. The seventy-two bells, gift of John D. Rockefeller, Jr., range all the way from tiny twenty-five pound bells that furnish the high notes to a twenty-two-ton monster that will boom forth throaty tones of low C.

The carillon is a memorial to Mr. Rockefeller's mother. Dr. Harry Emerson Fosdick is pastor of the church. Other New York churches have chimes, but this will be the city's only carillon. Next largest of the world's carillons is that of Louvain University, Louvain, Belgium.

The carillon's music, it is expected, will be heard over most of New York, and across the river in New Jersey, for the church stands on the east bank of the Hudson and there are no high buildings nearby to deaden the sound. The church itself, called the largest Protestant church in America, will be ready for the first service October 5. It has been under construction since 1926, at a cost said to approximate $4,000,000.

John D. Rockefeller, Jr., was by far the largest donor of funds for the building. He is a trustee of the church and an honorary president of its men's Bible class.

The church, of white limestone, is modeled after Chartres Cathedral in France. It stands on a bluff high above the Hudson on Riverside Drive almost opposite Grant's tomb. The great nave rises clear 250 feet. Ten magnificent stained glass windows symbolize various subjects. In the auditorium and two galleries 7,500 people can be seated at once. There will be a large pipe organ in the auditorium, and a smaller one in the chapel, which seats 300 people. Amplifiers can carry services from the auditorium to all parts of the building. In the twenty-nine stories of the tower will be church offices, schoolrooms and other auxiliary facilities. The three basement floors include a gymnasium, kitchen and clubroom.

A London-Scotland air service is being promoted.

"FULL TIDE"

By HERBERT GALWAY

(Author of "Mark Burford's Heir," "Miss Nobody," "The Squire of Redesby," Etc.)

CHAPTER XI—Continued

For one dreadful moment the girl began for the first time to doubt the wisdom of her action. She did not know her guide; she had no proof that the information he had promised was genuine; and it was getting dark.

Here her cogitations were interrupted by the reappearance of the sailor, who asked her to wait for just a moment.

"The car'll be here soon," he said. "Car? What car?"

"The bloke we've come to see mister—mine. I should say—was the first officer on a ship that was in dock at the same time as the Aldorosa. He should have been here now and he'll be able to give us all the information he can."

Diana had to be content with this non-committal reply, and almost before the man had finished speaking the car drew up at the door of the dingy house.

A man in a chauffeur's livery sprang lightly out and touched his hat to Diana.

"I'm sorry," he said, "but the captain finds he is unable to come here and asked me to bring you along to his residence in the car."

Again doubts assailed her, but she resolutely put them from her and stepped into the waiting motor.

She was followed by her guide and, just as they were starting, a slightly built man with a black beard and an officer's uniform laughingly asked if he could go along with them.

He made himself very agreeable to Diana and scrupulously avoided any reference to her visit. In fact she was doubtful whether he knew anything about the matter.

As the car left the town the afterglow had faded from the sky, and they ran at full speed past the intermittent lamps of the extreme outer suburbs into the Stygian blackness of the country road. There was an ominous quiet about the fair marshland that stretched away to-wards the river, and the brooding darkness seemed pregnant with evil.

"Where are we going?" asked Diana in a faltering tone as her fears recurred.

"You'll see!" was the only comment from the driver.

"But I insist on knowing!"

"Insist, do you? People don't insist when they can't help themselves."

"Stop! Stop this car! I've been trapped. Where's the officer's house?"

"We can't stop the car, miss, because we're under orders—see? So you'll have to make the best—"

For answer Diana screamed to the full power of her lungs.

But the astonishment of her captors was not of long duration. The polite bearded man clapped his hand over her mouth and blasphemously told the chauffeur to put the car on top gear.

Like an express train it sped along the deserted road, while Diana fought like a tigress to free herself. Once she nearly flung herself over the side and tried to wrench the steering wheel from the driver's hand.

As the car swerved dangerously the officer ordered it to stop.

"Give me that syringe!" he commanded.

The driver took a small brief bag from under the seat and opened it. Then he and the little golden head of Diana in a vice-like grip, while the officer, despite her struggles, rigged the sleeve of her coat and injected a large dose of morphia into her arm.

The girl fought and struggled against the torpor that was rapidly overcoming her; then her efforts slowly weakened and she was in a deep sleep.

"Now then, all out as hard as you can pelt for the old tithe barn!" gritted the officer, "before this interest-looking spitfire recovers!"

The car literally bounded along the road as the chauffeur tested the engine to its utmost capacity. With unerring judgment and instinct he sped along without slackening speed.

At a word from the officer he at length turned up a narrow stony lane and stopped the car in its own length opposite an old barn which stood in dignified isolation on the fringe of some lonely pasture land.

Dick Medders, walking back to London after having seen Foxy Fred, was sleeping the sleep of a tired tramp when he was awakened by the sudden application of brakes and the noise of excited voices endeavoring to speak quietly. He came instinctively from his position under the hedge, he peered at his arrivals, but could see nothing but the searchlight beams of the flaring headlights.

"Put the lights down!" hissed someone in a stage whisper.

Just before they were lowered, however, a man waited round the car in the full glare.

It was Foxy Fred!

Dick Medders nearly shouted in his astonishment.

Govan—Foxy Fred Govan—the arch crook, here and in a car! Medders dare not audibly express his thoughts which raced and jostled each other in his brain. In fact, as the light was almost immediately switched off, he really wondered if, after all, he had not been mistaken—whether he had not only "Foxy Fred on the brain."

But there was no doubt that dirty work of some kind was afoot, and the tramp determined to wait and clear up the mystery if he could.

Taking advantage of the preoccupation of the motorists, he crept nearer, and under cover of the darkness contrived to place himself between an old disused pump and the wall of the barn, whence he could dimly see what was happening.

Not a word was said as the lights were again switched on and the car brought in such a position that they shone right through the open door into the interior of the barn.

As the glaring radiance shifted its position during the turning of the car and picked out every stick and stone on the road and on the edge of the field, Dick Medders held his breath. He could not see more than a plate without considerable difficulty and hesitated whether to make a bolt for safety or stand his ground. The next moment he had to jump to a decision. The rays played on the old building came slowly in his direction. On the spur of the moment he stepped quickly behind the wooden case of the pump . . . not a moment too soon.

The inquisitive beam of light searched the space he had just left and rested as though scrutinizing every inch of the ground. Dick Medders assessed his somewhat generous proportions into the shelter of the pump, watching the pitiless glare spread each side of him and hoped for the best!

After what seemed hours, the light was shut off to reappear directly on the open door, and the watcher breathed again and slipped back to his previous vantage point.

The party seemed satisfied with their scrutiny, for there was an order from some one evidently in authority, and two men got quickly out of the car, lifted an unconscious form from the back seat, and went uncertainly towards the open barn.

As they passed into the blinding ray, Dick Medders nearly shouted with astonishment. The limp form was that of a woman!

The tramp made no claims to being a hero, and he was not inclined to court severe injury by going out openly and practically asking for trouble, but the sight of the helpless woman roused all his chivalry. Whether she was young or old he could not tell—he could not see her face—but he felt he could not stand idly by when a woman was in danger.

As they quietly had entered the barn when Dick Medders, with a voice like that of the bull of Bashan, roared out to imaginary helpers to surround the barn and capture the gang. At the same time he kicked the old walls and generally made a hullabaloo.

The effect was immediate on the party. The double doors of the barn was swung closer, leaving only a narrow space for escape which became smaller in the panic.

The glaring headlights shining directly into the entrance effectively blinded the terrified crew, but enabled the tramp to see his victims quite easily.

One by one the three men tumbled back through the door, and as they emerged Dick Medders dealt each a blow on the head.

Thinking they were surrounded, the fugitives did not stop to retaliate. They waved their arms wildly in an endeavor to ward off expected blows, and scrambled for the waiting car. The third man in coming out of the barn was apparently a ship's officer with a large black beard.

Dick Medders got well home on the beard with his left hand and followed it up immediately with a kick which propelled the victim between the lights on to the bonnet of the car.

Hoping that they would be prevented from escaping, the gang reversed the gear while the last man was still sliming to the radiator and dashed backwards to the road.

Dick Medders then stepped for a moment, pulled the man unceremoniously into the car, jammed in the clutch and went into the night at an express rate.

Dick Medders smiled grimly to himself and remembered the victim, whom he had forgotten in his excitement. As he turned towards the barn he felt something soft under his feet.

Stooping down he picked up a lady's glove!

With a low wintle of astonishment he drew an electric torch from his pocket and stepped carefully into the old building.

Lying huddled in a corner was the still unconscious form he had seen so carried previously.

With a horrible fear that he had been allowed the escape of murderers, Medders switched on the pocket lamp . . . it merely lit from his grasp.

With a cry of anger he recognised the face of his benefactress of a week or so ago.

"I don't know your name, miss," he muttered, "but you helped me and I'll help you or my name's not Dick Medders. I only wish I'd seen it was you before. I'd have hit a mark on them murderin' thieves!"

The unconscious girl made no sign that she heard anything, but the tramp knew by her regular breathing that she lived. He ran to the door and looked anxiously up the road, which was becoming more visible as the moon slowly rose over the brow of the neighboring hill.

There was no help in sight. The only hope was a faint glimmer from the window of a cottage a mile or so away at the end of the long valley.

"It might take me an hour to get there and back," he muttered, "an' what's the poor girl goin' to do? She might die!"

His overwrought nerves were then a sound from a neighboring field made him jump round. The next moment he laughed at the cause of his fright—it was a horse with a halter hanging loose.

Dick Medders regarded the animal for ten thoughtful seconds, then climbed the fence and warily but surely seized he hanging rope, and sprang lightly on its bare back.

The horse needed no urging before it set off at a furious gallop up the road toward the cottage window shinging like a beacon out of the moonlit distance.

By great good fortune the residents was the village constable. He grumbled at being dragged out of his bed to which he had recently gone, but finally became convinced of the urgency of the call and—grateful for the darkness which covered the indignity—scrambled up behind Medders, and the patient horse trotted back again with its double load.

The tramp told his story on the way, and almost before the horse stopped to recover his interrupted gradge, both men jumped down and rushed into the barn.

There was nobody there!

To be Continued

TRANSVAAL TO SEND EXHIBIT TO REGINA

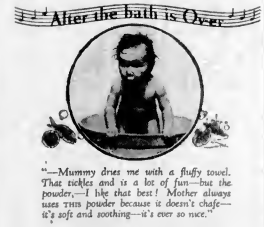

REGINA, Sask., Aug. 18 — Evidence that competitive exhibits from far-off Transvaal, South Africa, will be received for entry in the world's grain exhibition and conference at Regina, in 1931, is found in a request to the office of the exhibition for a number of bags for attaching to exhibits. The Hartebeestpoort, Experimental Station at Brits, Transvaal, is also anxious to receive special information regarding the exhibition of corn.

An Irish servant was describing her new home.

"Are yes in a good place, Mary?" asked one of her friends.

"Oh, it mighty fine place, entirely," she replied. "Shure, we mistress is so rich that all her flannel petticoats are made of silk!"

"—Mummy dries me with a fluffy towel. That tickles and is a lot of fun—but the powder,—I like that best! Mother always uses THIS powder because it doesn't chafe—it's soft and soothing—it's ever so nice."

For Delicate Baby Skin

Babies are such tiny creatures, and so easily distressed. Since ill-temper in helpless little ones is often caused by an inferior talc, you should choose your baby powder most carefully. Johnson's Baby Powder is made from the finest Italian talc, and can be depended upon to end all irritation and chafing.
